Mr. J. S. Cullinan,  
Petroleum Building  
Houston, Texas.

Dear Mr. Cullinan:

As per your instruction I saw Dr. Slaughter upon the matter in question and his opinion was about as I informed you. He said however that while he did not think that Dr. Hutchenson would agree to give up any of his appropriation now that perhaps about the last of December or first of January next as a new budget is being gotten ready an agreement might be arranged for to allow us twenty (20) patients per day. I was glad to have him give any hope.

After all we may not wholly loose so well worth while ideas.

Thanking you for sympathetic interest and kindly offer to enter into the movement with us, I am, Sir,

Gratefully yours,

*Margaret H. Bright*
