Mr. W. L. Fulton  
5510 - 33rd St. N. W.  
Washington, D. C.

Dear Sir:

Reference is made to your letter of November 20, 1942 in which you inclose copies of the message of your son as transcribed by the FCC.

I am returning herewith the copies and have marked in pencil on the carbon copy that part of the message that I do not remember hearing. I have no doubt whatever that this was a part of the message as I heard it. Due to my excitement at hearing from some one whose home was so close to mine I am sorry to say I do not remember this part.

Inclosed is the portion of the newspaper on which I scratched the names and addresses, etc., you will notice particularly the name H. G. Webb, Oxford, N. C., as I have it written down and not Hotchkiss, also you will notice Kirkpatrick, Ardmore, Pa., also Maher which is probably the name Mayor as in the copy of the message. I am not now certain whether or not Kirkpatrick was mentioned by your son or whether he was also sending a message on his own behalf. The messages were in a conversational speed and on a record and was too fast for me to write down all that was said. I tried to get the name, address and the part about writing and being well as long as I could not get all that was said. That part of the scratching on the newspaper in circles had nothing to do with the message as I heard it, one was your phone number and the other is the name of a party, Clark, a friend of mine lost on the Lexington for whom I was listening.

I would be glad to make an affidavit that the message you inclose was the one I heard and could get an affidavit for you from my wife and a guest who was in my home at the time, should you need same.

Yours truly,  
*W. Waverly Webb*
