A Publication of the University of Houston Alumni Federation

April, 1969

Info network based at UH

The University has been named headquarters site of the South East Texas Information Network (SETINA), a multi-channelled, two-way communications system which will serve 15 institutions of higher learning in a 31-county area in Texas.

The association's organizational meeting was held Feb. 3, at the University.

Dr. Patrick J. Nicholson, University vice president for development, has been elected chairman of the board of SETINA. Dr. J. R. Jackson, president of Brazosport Community College, has been selected vice chairman.

Establishment of SETINA has been approved by the Coordinating Board of the Texas College and University System. Member institutions in the association include the University, Texas Southern University, Texas A&M University at College Station, Prairie View A&M College, Sam Houston State College at Huntsville, Lee College at Baytown, Lamar State College of Technology at Beaumont, Stephen F. Austin State College at Nacogdoches, Galveston Community College, Alvin Junior College, College of the Mainland at Texas City, Brazosport Junior College at Freeport, Wharton Junior College, San Jacinto Junior College at Pasadena and Blinn College at Brenham.

SETINA communications system will involve closed-circuit television, linking classrooms, libraries, computer facilities and information retrieval systems at member institutions.

The system will utilize the operations of KUHT-TV, the University's educational television station, which includes facilities for live-studio, video-taped or filmed television production and broadcast. KUHT-TV broadcasts to a 26-county area extending from Port Lavaca to Huntsville and from Rock Island to Port Arthur.

SETINA objectives are to develop a cooperative, joint effort to promote the educational programs of the state-supported institutions of higher learning in those areas in which there are common denominators; to initiate sound and innovative projects that will broaden the base of the curriculum; to test and evaluate various systems of information dissemination; and to study the indicated needs for additional technological enhancement of existing

(See SETINA, Page 3)

Getting a sky's-eye view

University President Philip G. Hoffman accepts an aerial photograph of the UH campus from William W. Vann, vice president and controller of Anderson, Clayton & Co., Inc. Vann is general chairman of the 1969 President's Fund campaign, an annual fund-raising effort of the Alumni Federation.

SOS funds provide support for 'equal opportunity' plan

President Philip G. Hoffman has added \$43,000 to the scholarship fund of the University's Student Opportunity Services (SOS), a program designed to provide equal opportunity for scholastic and personal success to students

from Texas poverty areas.

The addition brings to \$53,000 the total SOS funds available to students from schools located in economically and educationally deprived areas of the state.

Although a pilot program was

conducted last fall, the present SOS program did not begin until early this spring, when evaluation of the fall program directed by Dr. Eugene B. Doughtie, associate professor of psychology and director of the Reading Clinic, indicated that expansion was in order.

A grant of \$10,000 presented to the University by Tenneco, Inc., Feb. 13 was the first significant donation to the SOS fund.

Since its inception in early March, the expanded SOS program has enrolled 35 students, with a long range plan to accept all qualified applicants. Average financial needs per student participating in the program are estimated to be about \$750 annually.

The total SOS program functions in the areas of tutoring in academic subject areas, counseling in personal, social and interpersonal areas, special academic advising and orientation and financial aid.

SOS is specifically designed to alleviate the causes of inadequate scholastic achievement and per-

(See SOS, Page 6)

AF campaign seeks support

To help meet University financial needs and emergency requests for which the state does not provide assistance, the Alumni Federation is conducting its annual President's Fund alumni fund-raising campaign.

The campaign was initiated in March under the direction of general chairman William W. Vann, vice president and controller of Anderson, Clayton & Co., Inc.

The President's Fund provides "insurance" for University buildings and facilities, faculty recruitment, lectureships and special seminars, equipment and financial aid to outstanding students, according to Vann.

Alumni investment in the President's Fund helps the University to provide extra academic dimensions to the total educational experience of the burgeoning student population, which now exceeds 24,000, Vann said.

Named to leadership positions in the fund-raising effort are William M. Ryan, chairman of

the special gifts unit; Lewis Emerich, chairman of the direct mail unit; and Patrick B. Collins, chairman of the Telefund unit.

(FOR MORE INFORMATION ON THE PRESIDENT'S FUND CAMPAIGN, SEE PAGE 4.—EDITOR.)

AF appoints ex-student new director

The Alumni Federation has announced the appointment of University alumnus Dick Proctor as executive director of the Federation.

Proctor joins the Alumni Federation after successful careers with Rotary Clubs of Houston and, more recently, with Rotary International headquarters in Chicago.

While a student at the University, Proctor was president of the Student Senate, president of the Senior Class, outstanding student in both his junior and senior years and sports editor of *The Houstonian*.

He graduated from the University in 1951 with a bachelor science degree in radio and television.

Proctor lives at 11115 Atwekk, Bellaire, with his wife and five children.

Regents recommend change in branch campus program

The Board of Regents voted Feb. 4 to recommend to the Coordinating Board, Texas College and University System, that the University campus to be located in Clear Lake City area offer work at the junior, senior and master's level instead of beginning with the freshman and sophomore years.

Last September, the Coordinating Board recommended that "a second campus of the University be located in the Houston metropolitan area primarily as an institution serving commuter students and offering programs from the freshman year through the master's degree."

At the same time, there was a

recommendation for "a third campus of the University, to be located in the Houston metropolitan area, designed as a commuter-type institution to accept only junior, senior and graduate level men and women, in direct support of Houston area junior colleges."

Reacting first to the recommendation to open a second campus in 1973, the University launched preliminary studies to determine more specifically the location and other attributes of this installation. The studies centered generally in the quadrant of Harris County southeast of the main campus, where avail-

(See Branch Campus, Page 3)

Film spotlights '68 grid action

Great plays of the 1968 football season, when the University set an all-time NCAA record for total offense, have all been captured on an exciting 30-minute color film, "Spell Houston With A Big O". The 16mm, full color film, is narrated by sportscaster Harry Kalas. It is available to alumni groups and for civic and service club meetings and luncheons. For information or reservations, call Miss Llyn Palmer at the Athletic Office, 748-6570.

UH-AABL: events on campus

Following is a chronology of events which occurred on the University campus since Feb. 7:

FEB. 7

A group of about 75 students representing Afro-Americans for Black Liberation (AABL), an organization of black students, appeared unannounced in the office of the University president late in the afternoon and presented a statement which included 10 demands. The group was told by the president that its requests would be carefully studied and that a reply would be forthcoming.

FEB. 9 - FEB. 12

A special task force representing all elements of the University community was named to review the AABL demands and recommend appropriate responses. This task was performed and the findings were given to the president. In the meantime, representatives of the administration met informally with representatives of AABL and reached an understanding that the AABL statement would not be made public until Dr. Hoffman made his reply.

FEB. 12

After a fragmented version of the AABL statement appeared in the Daily Cougar, student daily newspaper, AABL called a press conference and released its complete statement to the press.

AABL was notified that Dr. Hoffman would accept an invitation to appear at the meeting of the organization Feb. 14 at 2:15 p.m. It was understood at this point that Dr. Hoffman would be accompanied by Vice President for Student Life William Yardley.

FEB. 14

Shortly before the scheduled meeting, Dr. Yardley was informed that he could not accompany Dr. Hoffman to the session. Dr. Hoffman entered the AABL meeting where he read a prepared 10-page reply to the 10 "demands" of AABL. In his prepared text he explained that he would not respond at the time to questions.

After Dr. Hoffman completed the reading of his statement, he left the meeting at approximately 3:10 p.m. Copies of Dr. Hoffman's statement, which had been requested by AABL representatives prior to the meeting, were then given to AABL representatives at the door. A few moments later, several of the copies were thrown into the hallway.

Various representatives of the news media were standing in the hall awaiting the outcome of Dr. Hoffman's session with the students. They witnessed and took note of the incidents that had transpired.

About one hour after Dr. Hoffman's departure and while AABL was still in session, the director of information at the University responded to persistent inquiries by media representatives and made arrangements for Dr. Yardley to answer questions. The flavor of Dr. Yardley's responses was "to cool things off" and to make a statement on the "Open Housing" issue.

FEB. 17 - FEB. 21

A series of talk sessions and press conferences were conduc-

ted almost daily by AABL in the University center.

FEB. 19

Because of mounting tensions on campus and in the community, and because of statements being made by AABL representatives, the administration felt compelled to make a public statement in regard to its position on the AABL matter. In a news release of this date, Dr. Hoffman indicated a willingness to meet again with AABL and other black students of the University at a question-and-answer meeting Feb. 21. He also stated his willingness to meet at any time with representatives of AABL.

The main thrust of the news release was to state long-standing University policies in regard to the maintenance of "law and order" on the University campus. In summary, he stated his hope that the University would be spared any difficulties, but that the institution was prepared to take any appropriate measures needed to prevent any major disruption of the normal educational processes at the University.

FEB. 21

AABL accepted Dr. Hoffman's invitation to a closed meeting at 3 p.m. in the Cullen Auditorium on this date. For over two hours, Dr. Hoffman engaged in a spirited question-and-answer session, which was terminated by AABL representatives at about 5:15 p.m. AABL members indicated that they were still not satisfied with the president's responses to their original 10 demands.

FEB. 24 - FEB. 28

AABL resumed its talk sessions in the University Center primarily for the white community at the University. Also, AABL representatives made a number of personal appearances on radio and television to explain their case.

FEB. 26

After receiving an invitation from the Faculty Senate, the official governing body at the University faculty, Dr. Hoffman addressed a general faculty meeting at noon in Liberal Arts Auditorium II. More than 300 faculty members heard Dr. Hoffman describe the events connected with the AABL situation.

At 2 p.m. on the same day, AABL conducted an open meeting in Cullen Auditorium where their representatives discussed their 10 demands with some 400 students and faculty of the University.

FEB. 27

Dr. Hoffman announced through a news release the appointment of a 10-member Task Force, composed of representatives of student, faculty and administration, to seek solutions and to recommend actions in relation to ethnic problems at the University. He suggested that the group's first priority be to make proposals concerning the establishment of an Afro-American studies program at the University.

FEB. 28

Dr. Hoffman announced through a news release the appointment of a 10-member committee, composed of representatives of student, faculty and administration, to review and recommend appropriate actions concerning the education and spe-

cial problems of black athletes at the University.

MARCH 3 - MARCH 7

AABL continued a series of talks sessions in the University Center. They indicated conditional acceptance of Dr. Hoffman's appointment of the Task Force.

MARCH 4

AABL sent an "open letter" to Dr. Hoffman inviting him and selected members of the University staff to attend their "informational" meeting on March 6 in the University Center.

MARCH 5

Dr. Hoffman replied to the AABL invitation by proposing a general "informational" meeting which would be planned by representatives of the student body, faculty and administration.

AABL declined Dr. Hoffman's suggestion and continued their plans for the March 6 meeting.

MARCH 6

A "majority coalition" representing Students for a Democratic Society (SDS), Committee on Better Race Relations, Young Democrats, AABL, and others was formed to press for realization of the AABL demands.

Establishment of an Afro-American studies program at the University was recommended by the Task Force appointed by President Hoffman.

MARCH 7

Some 600 University students attended a noon rally called by AABL to show support for the 10 demands. The rally ended about 1:30 p.m. and some 200 students marched in a body to the Ezekiel Cullen Building. They gathered for nearly five minutes outside the entrance to President Hoffman's office. Leaders of a group informed a University official that they wished to meet with Dr. Hoffman.

After being assured that Dr. Hoffman was not in his office, the group moved to the steps of the main entrance of the building where they conducted a spirited rally for about 20 minutes. Dr. Hoffman later sent word to the group that he was willing to meet with three delegated representatives of the group. AABL leaders declined the invitation.

MARCH 8

An information team composed of four administrators and faculty members and the student body president was named by the president. The purpose of the team was to meet with all elements of the University community to present and discuss a

progress report on minority questions and the AABL demands.

MARCH 9

Dr. Hoffman released to the press a policy statement in regard to University action on any threatened disruption or violence on campus. This was the second public statement on the subject.

MARCH 11

Dr. Frank Worley, chairman of the Faculty Senate, called an assembly of the faculty at 2:30 p.m. in Cullen Auditorium to hear a progress report from the information committee and to conduct a question-and-answer session. Some 400 faculty members attended.

MARCH 10 - MARCH 14

Numerous meetings were conducted by various student groups on campus to discuss various aspects of the 10 AABL demands.

MARCH 13

Richard Poston, president of the Student Association, called a meeting of students for 1:30 p.m. in the Houston Room of the University Center to hear a progress report from the information committee. Only 25 students attended the meeting.

MARCH 17

One of the AABL leaders, Gene Locke, reported that he was assaulted at about 9:15 a.m. near a University parking lot by three unidentified white males. Locke sustained minor cuts and bruises and was treated and released by the University Student Health Center.

At approximately 11:30 a.m., a minor disturbance involving both white and black students took place in Cougar Den of the University Center. There were several minor altercations and about \$200 in damages.

At 1 p.m., AABL conducted a rally in front of the University center to protest the attack of Gene Locke. Many in attendance then marched to the University Safety and Security Office where they confronted Sterling Baker, director of safety and security, and demanded immediate action on the Locke case.

At approximately 1:40 p.m., some of the students, both White and Black (estimates vary from 25 to 40), left the Safety and Security Office and went to Cougar Den, where a disruption occurred. The students overturned tables and chairs, broke dishes, destroyed food and broke four glass windows. On disper-

sing from the Den at the urging of Gene Locke and Dwight Allen, a smaller number (10 to 12) broke into the Bookstore and damaged property. No one was seriously injured in the incidents and the extent of property damaged was estimated at \$2,000.

President Hoffman called for an immediate investigation of all the incidents - the attack on Locke, and the first and second episodes in the University Center. He indicated that the University would take appropriate action against all those found to be involved.

MARCH 18

The Student Life Division and the Safety and Security Office were charged with the responsibility of conducting the investigations that Dr. Hoffman called for on March 17.

MARCH 19

The University announced that the scheduled speaking engagement of Mark Rudd for March 20 had been cancelled because of recent incidents on the campus and threatened violence if Rudd appeared.

MARCH 20

SDS announced that Rudd would speak on campus at noon at the University Center. Shortly before the appointed time, a University official spoke to Doug Bernhardt, a campus SDS leader, and then to Rudd, requesting that Rudd not speak.

Rudd addressed an estimated 1,000. After his speech, the University announced that it was initiating actions against the campus chapter of SDS because of violations of University policy and against Rudd because he failed to comply with a request of a University official.

The University announced that it would seek a restraining order against Rudd to prevent future appearance on campus.

MARCH 21

A temporary restraining order was granted by Judge Wilmer Hunt to prevent Rudd from returning to the University campus.

A restraining order also was granted against Marjorie Ellen Davis Haile, a regional representative of SDS, prohibiting her from coming on the University campus.

MARCH 28

A permanent restraining order was granted by Judge Hunt to prevent Rudd from returning to the University campus.

A permanent restraining order also was granted against Marjorie Haile.

APRIL 7

Results of an intensive three week investigation into the incidents of March 17 on the University campus were turned over to the Harris County District Attorney's office.

Misdemeanor charges were filed against 11 students and three non-students.

The University announced that it will cooperate fully with the District Attorney's office in any actions taken based on information provided by the University.

The University announced that appropriate University action will be taken following legal disposition of the cases. This action will involve the student court system.

Briggs

UH announces new music head

Appointment of Dr. Robert L. Briggs as chairman of the department of music, effective September 1, has been announced by Dr. Alfred R. Neumann, dean of the College of Arts and Sciences.

Dr. Briggs, now dean of the College of Fine and Professional Arts at the University of Tulsa, Ok., will succeed Dr. Earl V. Moore, who has been chairman since 1960. Dr. Moore continues on the faculty as M.D. Anderson Professor of Music.

Holder of bachelor of music education, master of music education and doctoral degrees from the University of Kansas, Dr. Briggs joined the University of Tulsa in 1957 as dean of music, following nine years as associate professor of music at Florida State University at Tallahassee. He was named to his present position at the Oklahoma university following reorganization of its academic structure in 1964.

For six years Dr. Briggs served on the commission on curriculum of the National Association of Schools of Music, the accreditation agency for music schools. In addition, he has served on many accreditation teams for higher education institutions and is considered an expert on administrative practices in music education.

Dr. Briggs, a percussion specialist, was for several years tympanist for the Florida State Symphony. He has also completed graduate studies in piano, voice and violincello. His professional publications include articles in the Music Educators Journal, Kansas Music Review, Oklahoma Music News and Texas Music Teacher.

Listed in Who's Who in America, he is also a past president of the Oklahoma Music Educators Association and holds membership in Phi Mu Alpha, Pi Kappa Lambda, Phi Delta Kappa and Kappa Delta Pi. Active in civic affairs, he is on the board of the Tulsa Philharmonic, Tulsa Opera, Tulsa Federation of Music Clubs and is a former president of the Tulsa Civic Music Association.

SETINA

(Continued From Page 1)

facilities.

Programs to be developed and distributed by SETINA include:

- * Programs to supplement certain first and second year college courses, as recommended by committees of respective disciplines. Without violation of institutional autonomy, these programs would assist in a smooth transition from junior to senior colleges.

- * Programs to share special resources, such as an outstanding visiting lecturer or a professional conference.

- * Experimental or exploratory programs, such as the recently proposed inter-disciplinary sequence and graduate seminars.

- * The "extension" portion of continuing and adult education programs to be administered through periodical local on-campus sessions.

- * College preparatory programs.

- * Inter-institution programs at both student and faculty levels.

All state supported institutions of higher education within the geographical limits of the region authorized by the Coordinating Board are eligible as charter members of the association. Private institutions of higher education within the region and others in adjacent counties may also be admitted to membership with approval of charter members and the Coordinating Board.

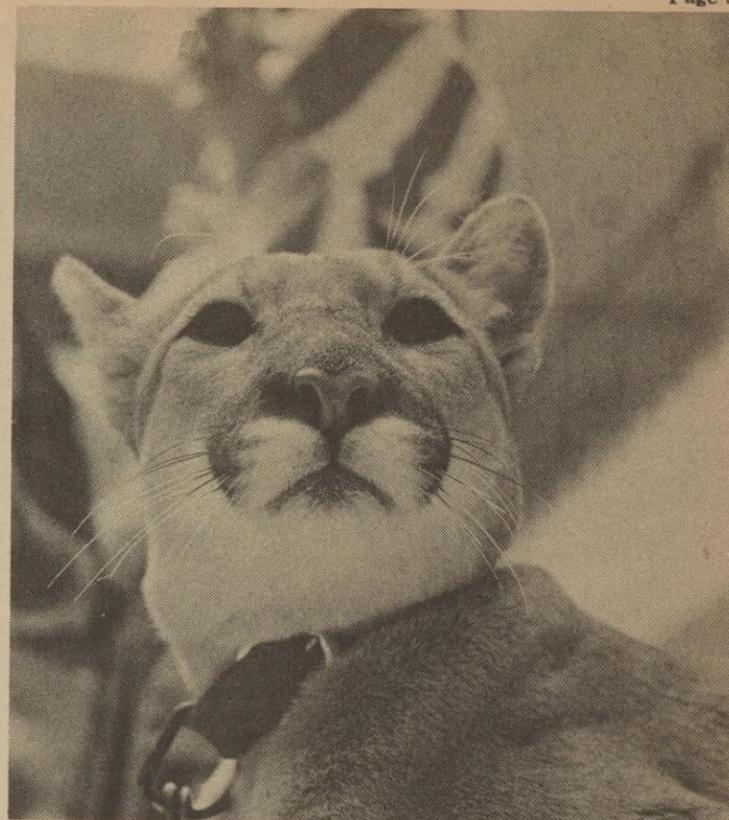

Texas counties included in the SETINA region are Harris, Madison, Grimes, Montgomery, Liberty, San Jacinto, Trinity, Polk, Hardin, Tyler, Jasper, Newton, Sabine, San Augustine, Nacogdoches, Angelina, Orange, Jefferson, Chambers, Galveston, Brazoria, Fort Bend, Waller, Austin, Washington, Colorado, Wharton, Matagorda, Jackson, Walker, and Brazos.

Branch campus

(Continued From Page 1)

able data indicate the continuing expansion of population, business and industry at a rate that may produce 200,000 inhabitants and a high concentration of economic activity in the Clear Lake area by the early 1980's.

Recently, additional facts have come to bear on the portion of the Coordinating Board recommendations dealing with the basic level of the academic programs to be offered at the two branch campuses. Paramount among these is the fact that six community colleges within commuting distance of the Clear Lake

It's spring, and a young lady's fancy. . . .

Cougar mascot Shasta III recently visited the Houston City Zoo for her first meeting with Pharoah, a 6-year-old, 220-pound, male cougar. The sleek lady and her mate spent one week together, after which members of Alpha Phi Omega, men's service fraternity, brought her home. If the visit was successful, next fall's football games may be attended by a very proud mother and her "mini-mascots."

Construction begins on nursery school

Ground was broken in late January for the new Home Economics and Nursery School Building.

Located near the intersection of Wheeler and Cullen, the two-story structure will contain 30,000 square feet. It is being built by the Fleetwood Construction Company at a cost of \$829,000.

The facility will house the department of home economics and the nursery school, along with ne-

cessary classrooms and laboratories, observation rooms, an enclosed playground and a closed television circuit system.

Attending the ground breaking ceremony were Dr. Alfred R. Neumann, dean of the College of Arts and Sciences; two past chairmen of the department of home economics, Mrs. Blanche Gore and Dr. Fay Anthis; the present department chairman, Dr. Barbara Mitchell; and M. D. Fleetweed, president of the construction company.

Ex-Cougar suggests 'unique' location for alumni trips

The following letter was received recently by the Alumni Federation. AF staffers appreciated it so much that they decided to pass it on to readers of Extra News:

Dear Sirs:

I received your brochure concerning the Hawaiian Carnival and I must admit the offer is fabulous. I am only sorry that I cannot accept, as I am presently on an extended vacation in scenic Southeast Asia, aboard a rustic, but enchanting vessel of the U.S.N. Line. We are having a wonderful time here and I would just hate to leave it all. This firm is also one of the largest travel services in its field, with similar tours throughout the world.

If I might make a suggestion, you may wish to look into this organization's offers when planning your next excursion. You will find the rates reasonable and the accommodations quite unique.

Sincerely,
Robert W. Trainer
Class of '67.

Alumnus Trainer is on duty in Southeast Asia with the 111th Fighter Squadron.

New contract for Hoffman announced

In an unprecedented move, the Board of Regents has unanimously approved the reappointment of President Philip G. Hoffman for a five-year term contract, effective Sept. 1.

The unusual contract offered by the board was voted as an expression of confidence in the "wise leadership" Dr. Hoffman has provided the University since his installation as president in 1962. The University's academic advancement and physical expansion under Dr. Hoffman's direction were cited by the board as reasons for the new contract.

The office of the presidency is usually conferred annually. The new contract will extend Dr. Hoffman's term until September, 1974.

Welch Foundation awards eight grants

Trustees of the Robert A. Welch Foundation have announced the approval of eight grants-in-aid to support basic chemical research in the amount of \$273,000 at the University.

Research projects and their chief investigators are "Photo-

electron Spectroscopy of Some Conjugated Molecules," in the amount of \$24,000, Dr. Wayne E. Wentworth, associate professor of chemistry; "Stereochemical Aspects of the Vinylcyclo-propane Rearrangement," \$36,000, Dr. M. R. Willcott, associate professor of chemistry; "A Study of Photo Cis-Trans Isomerization," \$30,000, Dr. R. S. Becker, professor of chemistry; "Enzymatic Hydrolysis of Phosphorus - Nitrogen Compounds," \$36,000, Dr. Lindley A. Cates, Jr., professor of pharmacy;

"Intermediates in Phosphate Ester Hydrolysis," \$36,000, Dr. James R. Cox, Jr., associate professor of chemistry; "Structure - Activity Relationships of Immunosuppressant Chemicals," \$36,000, Dr. A. P. Kimball, associate professor of biophysics; "Biochemistry of salt tolerance of Silicornia," \$30,000, Dr. Darrell J. Weber, associate professor of biology; and "Supercritical Fluid Chromatography," \$45,000, Dr. Albert Zlatkis, professor of chemistry.

The Welch Foundation was established in 1954 by the will of Houstonian Robert Welch, in which he stated a desire to support chemical research to benefit mankind.-

Cougar co-ed at top of list

The University's Best Dressed Co-ed for 1968-69 has received honorable mention in Glamour Magazine's Top Ten College Girls Contest for 1969.

Linda Lou Bates, 21-year old senior elementary education major, is one of 11 honorable mention winners in the nationwide Glamour competition. A 1965 graduate of Houston's Lamar High School, she is the daughter of Mrs. Geraldine K. Bates, 6511 Westchester.

Miss Bates was named best dressed co-ed in November competition involving 120 co-eds. The contest was sponsored by Theta Sigma Phi, national professional fraternity for women in journalism.

What Is The Purpose Of The University Of Houston Foundation's President's Fund, The Annual Alumni Fund?

The President's Fund in the University of Houston Foundation has been created to be the depository for alumni gifts and designated for the use of the President of the University, Dr. Philip G. Hoffman. These funds will be used by President Hoffman to meet needs and emergencies as they arise. In a university the size and

magnitude of the University of Houston, you can imagine the pressing demands the President must face.

Only too often, there are not budgets to meet urgent requests. The State does not provide funds for many vital areas necessary for a quality university of the first order. No funds are provided for such items as:

1. Insurance for the University buildings;
 2. Faculty recruiting;
 3. Lectureships and seminars;
 4. Many items of equipment.
 5. Aid to outstanding students
- The 1968 University of Houston Excellence Campaign provided \$1,045,000 for the advancement of the University

of Houston. Unfortunately, of this amount, only \$190,341 were free funds not restricted to some specific area or use. Of this \$190,341, \$160,000 was needed just to balance the University budget for the year. This left very little for President Hoffman to meet daily emergencies and priority requests.

What Does It Mean To Invest In The President's Fund?

1. It means that you share the responsibility and worries of President Hoffman. This sharing is a source of great encouragement to him and to the faculty.

2. It means that you help young men and women prepare for full participation in life's stream of today's, and more important, tomorrow's world.

3. You help industry to meet ever-increasing requirements for highly trained people -- meeting future demands which can only be anticipated but not known.

4. You help prepare professional people for lives of service to all men.

5. You contribute to the development of art, drama, and music, the understanding of heritage and culture, and appreciation of all of the human values.

In short, your financial support provides extra dimensions to the total experience of 24,000 men and women at the University of Houston.

You Contribute To:

YOURSELF, as a citizen and as a human being and as an alumnus; your help assists each former graduate by the maintenance of consistently high levels of accomplishment which reflect upon students past, present, and future.

YOUR FAMILY -- each of us with sons and daughters wants to offer them the best university education possible in Houston, if they desire it.

YOUR COMPANY by assuring the priceless element, the qualified personnel it requires.

YOUR COMMUNITY by helping to prepare and educate professionals for community service and providing faculty consultations and research in helping the community to solve its problems.

University Of Houston: A Major University

A. Established in 1934, growth in the last ten years has been tremendous.

B. The University now has a \$50 million physical plant and is in the midst of a \$40 million building program and an estimated additional \$22 million in other facilities are in advanced planning stages.

C. Some 24,000 students now attend the University of Houston and its ten Colleges and Schools.

D. Standards of admission now rank among the highest in the Southwest.

D. Many Departments are nationally recognized as outstanding in their fields.

F. The full-time faculty now number over 675 and the University is continuously seeking to attract outstanding educators.

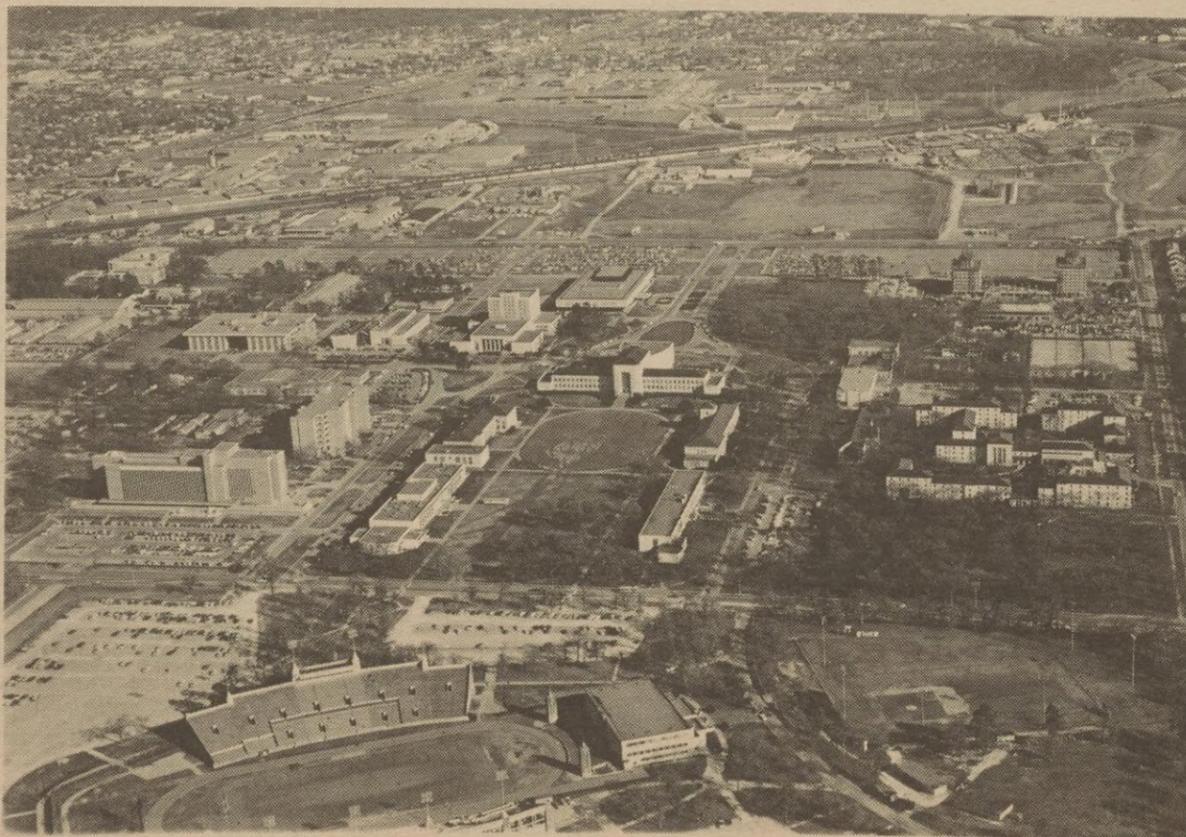

G. The University contributes better than \$4 million to the economy of Harris County MONTHLY.

Although the University is State assisted, there are many areas for which State money is not appropriated. The President's Fund looks to the alumni of the University to fill the gap and provide funds for such items as faculty recruiting, special items of equipment, insure

Telefund Unit

The Telefund unit of the University of Houston Foundation President's Fund will commence calling on alumni in the Houston area on May 6, 1969. The purpose of the Telefund is to contact those that have not responded in March and April to the Direct Mail and Special Gift Unit.

The Telefund this year will be conducted in two locations provided by Southwestern Bell Telephone Company. Calls will be made Tuesday, Wednesday, and Thursday for three weeks commencing the week of May 6 and ending the week of May 19. All alumni are urged to participate in the Telefund by volunteering two hours of their time during the month of May. Alumni may volunteer for the Telefund by calling 748-6600, extensions 267 and 242. All alumni are urged to volunteer this time so that a large number of contacts can be made during the month that the Telefund unit will operate.

Each contributor to the 1969 President's Fund campaign will receive a full color, 10 x 14 reproduction of this recent aerial photograph of the University campus.

UH Honors Program increases enrollment

Selection of 14 new participants in the University Honors Program, an interdisciplinary course of study stressing extensive examination of the humanities and sciences, has been announced.

three courses during their first two years in the program.

Honors Program seminar offerings for the spring semester include:

* "Science and Society," an investigation of the reciprocal relationship of man and his environment, by Dr. Eugene P. Goldschmidt, associate professor of biology and biophysical sciences.

The new enrollment brings the total number of students participating to 143, according to Dr. Philip Snider, Honors Program director.

* "Symbolism," a study of symbolism in art designed to develop the students' critical viewing, by Dr. Peter W. Guenther, associate professor of art.

* "Creative Writing," class exercise in creative writing aimed at publishing, by Dr. Marjorie K. McCorquodale.

Initiated in 1959, the Honors Program was created to provide challenging and competitive sections and courses for superior students, usually from the upper five to 10 per cent of their high school graduating classes.

* "Introductory Group Dynamics," employing some theories popularly known as sensitivity training and group dynamics, by Dr. Fred C. Proff, chairman of guidance and counseling.

* "Advanced Group Dynamics," a scholarly investigation of the literature and research in the field of group dynamics, by Dr. Dale L. Johnson, chairman of the psychology department.

Within the program, students are encouraged to outline an individual four-year course of study, fulfilling University requirements, for a chosen profession or graduate studies. Independent research and creativity are stressed to refine students' academic competence.

Burton announces campaign's progress

The University Excellence Campaign has raised 60 per cent of its 1969 goal of \$1.1 million, according to John F. Burton, general chairman of the campaign.

University to accelerate programs of academic excellence. Funds, which are not provided by state support, are needed in such areas as faculty recruitment, library acquisitions, research, special equipment and student financial assistance.

Students with College Entrance Examination Board scores of 1200 or above, high ranking in their high school graduating classes and exemplary college performances are recruited at the beginning of the fall and spring semester through the sophomore year in college.

Campaign division chairmen reported April 1 that 427 contributors have given \$663,434 to the University. At the same time the fund-raising effort last year, 362 donors had provided \$576,831.

The Excellence Campaign is conducted annually by the University Foundation. This year 350 volunteer workers from Houston's business and professional community will call on 1,350 corporate, professional, individual and foundation prospects.

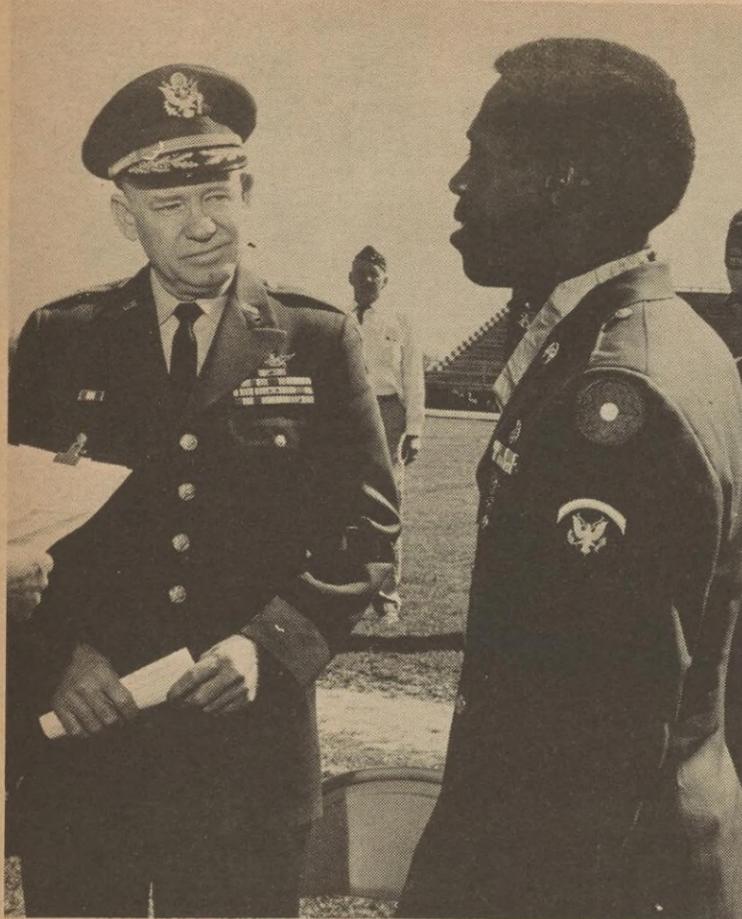

Financial support of the Excellence Campaign enables the

Telefund unit to begin work

University alumni who have not responded to the direct mail or special gift programs of the 1969 President's Fund campaign by May 6 will be contacted by the Telefund unit, according to Patrick B. Collins, Telefund unit chairman.

This year's Telefund unit will be stationed in two locations provided by Southwestern Bell Telephone Co. Calls will be made Tuesday through Thursday for three weeks beginning May 6 and ending the week of May 19.

All alumni are urged to participate in the Telefund effort by volunteering two hours of their time during May, Collins said. Volunteers should telephone 748-6600, Ext. 267 or Ext. 242.

Former UH Student

Brig. Gen. Eugene Mincks, commander of Umpire Section, 75th Area Command, congratulates SP5 Clarence E. Sasser after March 27 ceremonies in Angleton, Tex., which honored Sasser for receiving the Congressional Medal of Honor for gallantry in Vietnam. Sasser is a former University student.

Sasser receives Medal of Honor

The University can now claim its first Congressional Medal of Honor winner.

He is SP5 Clarence E. Sasser, son of Mr. and Mrs. Jerome Brown of Iowa Colony, who attended the University for two years before entering the Army in 1967.

President Richard Nixon pinned the nation's highest military decoration on the 21-year old medical aidman in White House ceremonies March 7.

Sasser received the medal for conspicuous gallantry under fire in Vietnam. The action took place January 10, 1968 in an air assault by Sasser's unit on an

enemy position in Ding Tuong Province.

His 9th Infantry division unit was ambushed. At great risk to his own life and after sustaining injuries himself, Sasser treated a large number of his wounded comrades and assisted them to safety.

Since returning to Texas, Sasser has received many honors, including a day dedicated to him March 27 in Brazoria County.

Dick Proctor, director of the Alumni Federation, was present to give Sasser a number of University mementos. The ceremonies were held in Angleton.

Honors Program seminars are conducted informally to allow balanced participation of both students and faculty. Students are encouraged to enroll in at least

Committee to consider problems of black athletes

Dr. Philip G. Hoffman, president of the University of Houston, named Feb. 28 a special 10-member committee to review and recommend appropriate actions concerning the education and special problems of black athletes at the University.

The committee will give special consideration to the issues that have been raised by the Afro-American for Black Liberation, (AABL), an organization of black students at the University.

The committee is composed of students, faculty, and administrators. Student members of the committee were nominated by their respective organizations, and the faculty members were nominated by the Faculty Senate.

Committee members and their affiliations are:

Snowden Bennett, Douglas Boyd and Wayne Hunt, representing AABL; Al Perez, League of Mexican-American Students; and Johnny Jones, Student Association;

Also Dr. Wallace Honeywell, chairman of the committee and associate professor of chemical and petroleum engineering; A. A. White, professor of law; and Dr. Frank Worley, associate

professor of chemical and petroleum engineering.

And Dr. Charles Churchwell, assistant director of the library, and Harry Fouke, director of athletics, both representing the University administration.

Alumni Class Notes

1949

ROBERT W. CULMER, BBA '49, has been named vice president of the Southwestern Drug Corp. and will continue as manager of the E. H. McClure Company division of hospital equipment and surgical supply.

1950

UVON SKIPPER, BS '50, has been elected vice president-operations of HOMCO International, Inc., Houston. He was formerly general manager of the HOMCO Division of Black, Sivalls & Bryson, Inc.

1954

RALPH JAMES, MS '54, has been promoted to the position of engineering associate of the Enjay Chemical Co. He is supervisor of the mechanical technical services section of the company.

1956

C. M. (SKIP) ROBINSON, III, BBA '56, has been promoted to the position of divisional general accountant of Pittsburgh Plate Glass Industries industrial chemical division, office of the

controller, Pittsburgh. He joined PPG in 1956, serving as accountant and cost accountant as well as assistant chief accountant at PPG's Chemical Division in Corpus Christi.

1957

RICHARD C. FULLERTON, BS '57, has been named branch manager and district field trainer of the Houston District.

1958

DR. PRESTON L. MOORE, MS '58, again delivered a seminar in advanced drilling practices at the Oklahoma Center for Continuing Education of the University of Oklahoma, Norman, Okla. He is currently associate professor of engineering at the institution and co-author of the course text, Drilling Practices Manual.

1959

ROBERT G. HALL, MS '59, has been named vice president of the Doric Corporation, the corporate headquarters of which are in Oklahoma City, Okla. Before joining Doric, he was general

manager and chief operating officer of Bayou Steel Company, Houston, Texas.

FRANCIS J. KING, BS '59, was elected a member of the Board of Directors of the New York Chapter of the National Association of Accountants at a recent membership meeting. He currently is manager of the division of economic analysis for the Western Union Telegraph Co., Mahwah, N. J.

BILLY J. POPE, BBA '59, has been appointed sales supervisor for the petroleum marketing division of Gulf Oil Company in Kansas City, Kan. He joined the company in Houston in 1955.

1961

U. S. Air Force MAJ. FRANCIS R. FANNING, BA '61, has been decorated with the Distinguished Flying Cross award and the second through fifth award of the Air Medal for action in Southeast Asia. A navigator, he received the Flying Cross award for extraordinary achievement during a photo reconnaissance mission. The Air Medals were awarded for his outstanding airmanship and courage on other successful and important missions completed under hazardous conditions. He currently is an instructor navigator at Mather, A.F.B., Calif., in an ATC unit.

1963

U. S. Air Force 1st LT. DONALD W. ELAM, BM '63, is a member of a unit that has earned the U. S. Air Force Outstanding Unit Award. A band director in the 438th Military Airlift Wing at McGuire AFB, N.J., he will wear the distinctive service ribbon to mark his affiliation with the unit. The unit was cited for meritorious service in support of combat and resupply airlift operations around the world from June 1, 1966 to April 30, 1968.

U. S. Air Force CAPT. GLEN H. HILL, BBA '63, has been administered the oath of office at Moody AFB, Ga., for a regular commission in the U. S. Air Force. He previously held a reserve commission as an Officer Training School graduate.

C. D. ROXBURGH, MS '63, has been assigned to the Corpus Christi division of Humble Oil & Refining Company and promoted to the position of district operations superintendent of the South Texas Production Division of the company. He has been on engineering assignments in Texas operations since joining Humble after his graduation.

1964

LINNEA EILEEN ROTH, BS '64, has been awarded the silver wings of an American Airlines stewardess and has been assigned to flight duty out of New York

City, N.Y., after completing a course at the American Airlines Stewardess College, Fort Worth, Tex.

1965

DR. PADDY ANN DOLL, Ph. D. '65, has been appointed chairman of the department of psychology at Loyola University in New Orleans, La. She joined the Loyola faculty in 1964.

1967

U. S. Air Force AIRMAN STEPHEN J. AUSTIN, BS '67, has completed basic training at Lackland AFB, Tex., and been assigned to Keesler AFB, Miss., for training as a personnel specialist.

JAMES K. CHANG, MS '67, has received the 1968 Outstanding Young Engineer Award of the Houston Chapter of the Texas Society of Professional Engineers. He currently is senior structural engineer for Foster Wheeler Corporation, Houston.

U. S. Army SP 5 WILLIE J. HOFFART, BBA '67, has been assigned to the 25th Army Infantry Division in Vietnam.

DR. JAMES J. McROY, Ph. D. '67, has been promoted to associate professor of psychology at Upsala College, East Orange, N. J. He also is the recipient of a National Science Foundation postdoctoral fellowship for summer study.

1968

U. S. Air Force 2nd LT. JAMES D. BEARD, BBA '68, has been commissioned a second lieutenant in the U. S. Air Force on graduation from Officer Training School at Lackland AFB, Tex. He will be assigned to

Laughlin AFB, Tex., for pilot training.

U. S. Air Force 2nd LT. DE-ROOSE, BS '68, has been commissioned a second lieutenant of the U. S. Air Force on graduation from Officer Training School at Lackland AFB, Tex. He will be assigned to Mather AFB, Calif., for navigator training.

U. S. Army CAPT. RICHARD D. EBLING, O. D. '68, has completed a basic Medical Service Corps officer course at Brooke Army Medical Center, Ft. Sam Houston, Tex.

U. S. Air Force AIRMAN WILLIAM R. LOGAN, BS '68,

DR. CHARLES LOWERY, Ph. D. '68, has been named treasurer of the Ark-La-Tex Section of the American Chemical Society. He currently is assistant professor of chemistry at Centenary College, Shreveport, La.

U. S. Air Force 2nd LT. PEYTON P. LUMPKIN, BA '68, has been commissioned a second lieutenant in the U. S. Air Force on graduation from Officer Training School at Lackland AFB, Tex. He is being assigned to Laughlin AFB, Tex., for pilot training.

BRIAN M. SMYTH, BBA '68, has been appointed sales manager for the grocery products division of the Pillsbury Company. The branch includes the New Orleans, Baton Rouge, La., and Mobile, Ala., areas.

U. S. Army PFC JORGE H. TORRES, BA '68, marched in the lead contingent of the Inaugural Parade for President Richard M. Nixon in Washington, D. C. Currently, he is a member of the 3rd Infantry (Old Guard) of Ft. Myer, Va.

SOS

(Continued From Page 1)

sonal failure which affect students from schools located in poverty areas in the state.

Statistics on students from such areas who entered the University in the Fall, 1966 and Fall, 1967 semesters indicate an extremely high rate of failure. The University views this situation as intolerable when such students exhibit adequate motivation and scholastic diligence.

The SOS program will operate in four basic areas:

- * Tutoring in academic subject areas
- * Counseling in personal, social and interpersonal areas
- * Special academic advising and orientation
- * Financial aid

Tutoring will be accomplished in part by assigning — at the beginning of each semester — an advanced undergraduate or graduate student to each program participant for each course in which he is enrolled. Student tutors will follow the progress of the participant on a weekly and, perhaps, daily basis.

Faculty tutors will also be made available to small groups of participating students to cover particularly difficult subject matter.

Counseling for program participants will be similar to the tutoring phase of the program. Efforts will be made to place participants in contact now only with professional counselors at the

University, but also with student counselors of the "big brother" type. The University is hopeful that such a system of peer group counseling will help significantly to rid many of the barriers which exist for students in the academic community.

Special academic advising for poverty area students will be accomplished by assigning one faculty academic advisor to each participating student at the time he enters the University. The student will then keep the same advisor throughout his college career.

Participating students from poverty areas are likely to be poor themselves, and often they must work an inordinate amount of time to remain in school. To alleviate this, the University is working to provide financial aid to each SOS program participant, to the degree that the student should have to work no more than 10 hours per week during the academic year. This amounts to an average of about \$750 per student, to be made available by loans, grants and scholarships.

To insure success in the program, the University also plans to initiate an intensive and continuing in-service training program for faculty and staff, to acquaint them with the needs, hopes and aspirations of the program participants. In addition, a special committee composed of students, faculty and administrators will be appointed to function as a liaison between the new program and the University community.

UH educator-philosopher Dr. Winfred Garrison Dies

Dr. Winfred Ernest Garrison, professor emeritus of philosophy, died in Houston early Feb. 6 at the age of 94.

The educator-philosopher retired from the University in June, 1964.

Dr. Garrison was the author of 15 books; co-author of one; editor of one; co-editor of two; and a contributor to about 20 others. He also made contributions to several encyclopedias.

Prior to his association with the University in 1951, he taught at the University of Chicago, was president of Butler University in Indianapolis, president of New Mexico Normal University (now Highlands University), and president of New Mexico A & M College (now New Mexico State University). He was the last sur-

living delegate of the Constitutional Convention of New Mexico.

A native of St. Louis, Dr. Garrison held bachelor of arts degrees from Eureka College and Yale University, and bachelor of divinity and doctoral degrees from University of Chicago. He also held honorary degrees from Eureka, Bethany College and Butler University.

Dr. Garrison was a member of Phi Beta Kappa, Phi Kappa Phi, Beta Theta Pi, Southwest Philosophical Society, American Society of Church History, American Studies Association and American Friends of the Middle East. He had been listed in "Who's Who in America" continuously since 1905.

Record shows wins for Hill

In an era of pampered collegiate athletes and high pressured recruiting, baseball Coach Lovette Hill has avoided both and has still produced winning teams.

He has used a low budget tuition and book scholarship program and stern team discipline to take his team all the way to the finals of the NCAA World Series, the only team in Texas to get that far in the past 15 years.

His 20-year record at UH is 226 wins and 208 losses for a .521 percentage, good enough for a first division finish in either the American or National Leagues.

Due to construction on the ever-expanding UH campus, Hill has had to build four different practice and playing fields in the past seven years. The most recent field opened during the 1968 season. The lack of a field for practice resulted in a poor early season mark last spring, but the team finished the season with eight straight wins after the new field was ready.

During this time, due to a lack of funds and facilities, his squads have averaged less than 20 players per year.

The ability that Hill looks for first in a player is speed.

"I think the stolen base is the best weapon in college baseball. College teams make errors and college pitchers are bound to walk a lot of batters. You don't always have to get hits to score runs as long as you have good speed and have practiced running the bases in different situations.

"We like to create organized confusion on the basepaths. And we spend much of our practice time working on just this," Hill explains.

Through the first 17 games this season, Hill's team had stolen 46 bases to 13 for UH opponents. Opponents had out-hit the Cougars by 60 percentage points as a team, but had won just one more game than the Cougars.

With 30 more games to play, Houston could well be on the way to a national collegiate record for stolen bases.

At the same time, the Cougar could also turn in their 17th winning season in 20 years under Hill, which could also lead to another trip to Omaha for the College World Series.

Season tickets available May 1 for '69 season

Previous season ticket holders for University football games have until May 1 to renew or expand their current seat options.

After that date, season tickets will go on sale to new applicants.

The Cougars have one of the finest home schedules in history set for this fall. All five home games will be played in the air-conditioned Astrodome.

COUGARS SIGN STATE'S TOP PREP LINEMAN

Plano's Steve George signs a University pre-enrollment application with a trio of coaches looking on. They are, left to right: Cougar Head Coach Bill Yeoman, UH Assistant Coach Melvin Brown and Plano High School Head Coach John Clark.

SPORTS RUNDOWN

Golfers score high in pre-tourney games

Another great year in spring sports was well underway for University athletes through the third week in March. Barring injuries, several Cougar players will have taken their place in the school's record books by the completion of the seasons in May.

Here is a rundown by sports: **BASEBALL** — Centerfielder Trey Williams, a senior from Houston, was the team's leading hitter with a .356 average. Williams was also off to a very good start in his quest to break the school record for stolen bases. The former Austin High School star has stolen 13 bases in his first 13 games. The all-time mark is 21, set by George Berger in 1964. As a team, UH won five of its first 13 games and led the nation in stolen bases with 31.

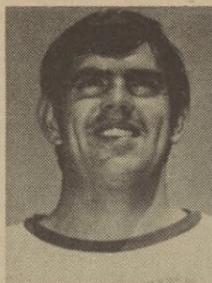

GOLF — Coach Dave Williams' golf team has won six of seven tournaments in the spring to go with a perfect 5-0 record for the fall. The Cougars, with better balance than at anytime in recent years, will make a strong bid to regain the national collegiate team championship which they lost to Florida by just two strokes last summer. John Mahaffey, Doug Olson and Bob Barbossa all could make the All-America team this spring.

TENNIS — Coach Paul Christian's debut has been an amazing one. The Cougars has won 11 of 15 matches through March 19 and look like a good bet to break the school record for matches won in a season. That record is 16, set by the 1965 team. Chris Bovett, the team's top player, also has a good chance to break the all-time individual record for matches won. That mark is 18 by Ronnie Woods. Bovett had 17 through mid-March.

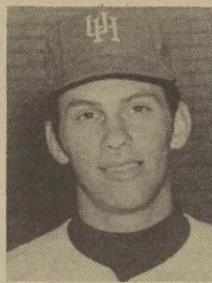

TRACK — Deep in the hurdle and distance events, Coach Johnny Morriss' track team took

five first places at the annual Border Olympics in Laredo. Sophomore miler Leonard Hilton, a former state high school champion from Houston Austin, ran an early season 4:05 mile and has

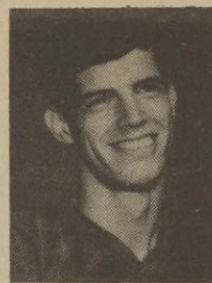

the potential to become the state's first collegian to break the four-minute mile. Hurdler Johnny Morriss III was the high point man at the Border Olympics. Hilton was runner-up.

Bovett

Williams

Morriss

Spring grid scrimmages to preview '69 team

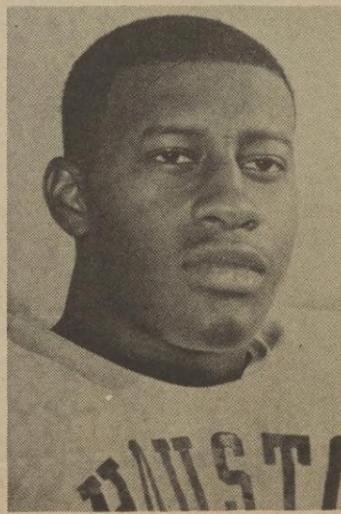

University fans and alumni will have three opportunities to watch a preview of the 1969 Cougar football team. Coach Bill Yeoman has scheduled three game-type scrimmages for his team this spring.

The first one will be April 12 in Beaumont. The annual Varsity-Alumni Game will be in Jeppesen Stadium April 19. And the final spring game will be played at Cypress-Fairbanks High School stadium April 26.

Houston returns eight of its nine leading rushers, including halfback Carlos Bell, who posted the best per carry average in the Southwest last fall. The Cougars also have both of their top quarterbacks, Ken Bailey and Rusty Clark, coming back. Six of the top seven pass receivers will also be on hand. Up front, UH will have guards Bill Bridges and David Schneider, both starters last fall, back along with tight ends Earl Thomas and Mark Bugaj.

Safety Richard Harrington, linebacker Charlie Hall, end

Jerry Drones and linebacker Glenn Graef head the list of returnees for the Cougar defensive unit that was 19th nationally in total defense and 10th in rushing defense, allowing less than 100 yards rushing per game for the third straight year.

Drones

Yeoman praises grid recruiters

A top notch job of recruiting has been turned in by University football coaches during the winter months.

"From a standpoint of varsity potential, this might be the best group of youngsters that we've recruited since I have been at the University," says Head Football Coach Bill Yeoman.

The Cougar coaches went after quarterbacks, linemen and defensive backs and came out of the annual recruiting derby with just what they went after.

"We were after good all-round athletes who will be able to fit into our program," says Yeoman. This means that as a team of freshmen, their record might not reflect the potential this group will have as varsity players.

Among the most sought players are: Steve George, a 6-5, 250-pound defensive tackle from

Plano; David Bourquin, a 6-3, 225-pound guard from Dallas (Carter); Joel DeSpain, a 6-2, 200-pound guard from Beaumont (French); Willie Walker, a 6-1, 170-pound defensive halfback from Lufkin (Dunbar); Don Howard, a 6-2, 202-pound quarterback from Nederland; and Glenn Williams, a 6-2, 240-pound tackle from Valdosta, Ga.

Two players among the recruits, both top prospects, are sons of former University football players. They are halfback Ray Ragone of Houston Jones, son of former Cougar halfback Ray "Rags" Ragone; and Eric Muegge, a 6-3, 205-pound end from Wharton who is the son of Irwin Muegge, former Cougar end in the early Fifties.

Three brothers of ex-players are also among the signees. They are: Randy Peacock, a 6-0, 185-pound quarterback and defensive back; Steve Brezina, a 5-11, 210-pound guard from Louise; and Steve George from Plano.

The complete list:

BACKS: Les Bailey (6-3, 185) Kaufman; Jeff Bouche' (5-11, 173) Spring Branch Memorial; Joel DeSpain (6-2, 200) Beaumont French; Dennis Duckworth (6-1, 170) Odessa Permian; Tom Duschinski (6-2 1/2, 190) Houston Springwoods; Robert Ford (5-9, 165) Belton; Jerry Fuller (6-1, 175) Abernathy; Harry Griffin (5-11, 175) San Angelo Central; Carl Grigar (5-11, 190) Wallis; Joe Hajovsky (6-1, 210) Columbus; Bill Hamrick (6-1, 185) Corpus Christi Carroll; Don Howard (6-2, 202) Nederland; Mike Ingram (6-0, 175) San Angelo Central; Wayne Johnson (6-1, 170) Kaufman; Kenneth Janosko (6-0, 165) Dallas Carter; Charles Paternostro (6-2, 183) Dallas Jefferson; Randy Peacock (6-0, 185) Goliad; Gregory Pruitt (5-9, 168) Houston Elmorie; Ray Ragone (5-7, 175) Houston Jones; David Redwine (5-11, 175) Sweetwater; Jerry Robinson (6-4, 210) Crosbyton; Bill Stohler (6-3, 208) LaFeria; Jerre Sykes (6-1, 175) San Angelo Central; Frank Thompson (6-3, 190) Goliad; Willie Walker (6-1, 170) Lufkin Dunbar; Roy Lee Warren (5-11, 170) Big Spring; Tom Wilson (6-2, 200) Mission.

LINEMEN: Steve Anderson (6-1, 200) Dallas Carter; Kenneth Baugh (6-2, 240) Kaufman; Don Blackwood (6-0, 180) Dallas Carter; David Bourquin (6-2, 225) Dallas Carter; Steve Brezina (5-11, 210) Louise; Jesse Budd (6-1, 215) Corpus Christi Carroll; George Collins (6-4, 215) Houston Washington; Steve George (6-5, 250) Plano; Harry Laird (6-6, 245) Dallas Carter; Charles Mader (6-1, 200) El Campo; Eric Muegge (6-3, 205) Wharton; Ronnie Munor (6-2, 225) Waco University High; Bill Reed (6-3, 215) Victoria; Clark Riley (6-2, 190) Abernathy; Steve Russell (6-2, 207) Big Spring; Larry Smith (6-1, 265) Conroe; Glenn Williams (6-2, 240) Valdosta, Ga.; Gary Wood (6-5, 245) Silsbee.
