(314) 421-2579

Eddie Mae Binion
Chair-person

Janice Brown
Co-Chairperson

The South-Side Welfare Rights Organization has made its resolution for 1978:
To overcome obstacles of poverty and to make a better way of life for everyone.
There are aspects of welfare that we are concerned about such as housing for low-income people, jobs with a decent wage, and adequate income for those that cannot work, We are also concerned about medical health for those who need it.

Our other concern is with the sterilization of our young women-and therefore the extermination of our people-without their knowledge or consent.

We are also concerned about the new Carter proposal 9030. There is good and bad in this bill. The bad part is the job search. We feel that in areas where the unemployment rate is above 6% the people should be exempt from the job search.

We would appreciate your support in these task.

Eddie Mae Binion
