MEMORANDUM

Houston, Texas,  
December 12, 1928.

HOUSTON NEGRO HOSPITAL

Mr. J. E. Wooding,  
Building.

In looking over the new walk  
it would seem to need a few extra yards  
of gravel in the portion where you have  
made cuts, or otherwise the walk will be  
under water during each rain.

The diagram shows a rectangular walkway with a curved section on the right side. A circle is drawn around the text 'of gravel in the portion where you have made cuts, or otherwise the walk will be under water during each rain.' A line points from the top right of the diagram to the text 'made cuts, or otherwise the walk will be under water during each rain.'
