

AMERICAN PETROLEUM COMPANY

Houston, Texas,
February 24, 1931.

HOUSTON NEGRO HOSPITAL

MEMORANDUM

Mr. W. T. Sinclair,
Building.

Dear Sir:

Upon receipt of Mr. Sullivan's letter of February 23, I have accordingly changed the elevation of the first floor of the Utility Building from 53.6' to 54.1'.

On the West side of the Hospital

1. Francis Street, a 40' Street is located with its South edge 200' North of Holman Ave., and the gate is located on this Street.
2. The small half Street or Alley North of Francis is probably Stuart, the City maps do not bear this out very clearly.

On the East side of the Hospital

Francis is located midway between Holman and Elgin. ?

Yours very truly,

John H. Benighurst
Chief Engineer
