

5-13-25

Mayor Oscar F. Holcombe.
City Hall.
City.

Dear Sir:

The gentleman who is donating the first unit of the negro hospital to the city of Houston has requested me to make some preliminary studies of the layout. It is his special desire that all trees on the site be preserved.

I find that the City Engineering Department has no survey on this piece of property. May I ask that you obtain this survey together with the topography of the property and the location of the trees.

Yours very truly.
