

JIM BRAUS APPOINTED MANAGER TECHNOLOGICAL AT HOUSTON REFINERY EFFECTIVE MAY 16, 1968

J. M. BRAUS

J. M. Braus, Group Leader Conversion Processes in the Technological Department, will become Manager Technological effective May 16, replacing L. A. Goldstein, whose transfer to Head Office was announced earlier, stated Refinery Manager Leonard T. Wilson.

Jim was employed by Shell at the Wood River Refinery in 1958, following his graduation from the University of North Dakota with a B.S. degree in chemical engineering. After a variety of assignments at that location, he was transferred to Head Office in 1964. In May, 1967, he transferred to the Houston Refinery as Group Leader.

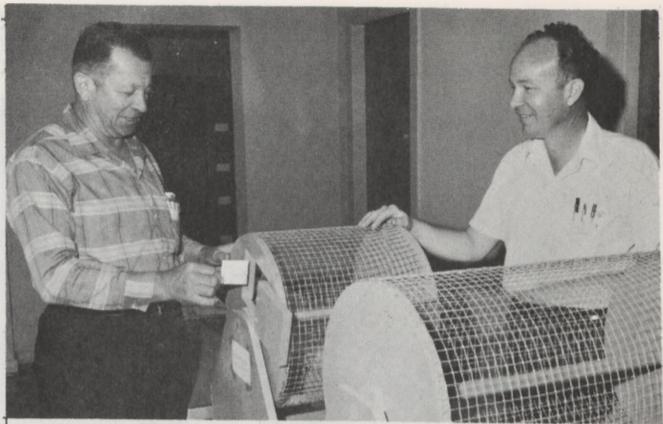

SHELLEGRAPH

No. 288 Friday, May 10, 1968

GOOD LUCK, GUS! --- Dan Davis, at right, extends his best wishes for retiring Engineering Field employee, Gus Lennon, center. R. L. Gibson, at left, acted as master of ceremonies for the going away gathering for Gus by members of the Engineering Field's Automotive Group. Gus plans to do a great deal of fishing with the fishing equipment given to him by his friends at the Refinery on the occasion of his retirement.

FIRST ONE --- A. J. Lueckemeyer, Truck Driver No. 1, prepares to deposit a stub, good for a chance for one of the several prizes, into the hopper at Warehouse No. 1, while Stores Foreman D. V. McKinney watches. Lueckemeyer was the first person to buy a pair of safety shoes during the current safety shoe campaign. All employees who purchase a pair of the safety shoes will receive a chance (for each pair bought) to win one of the prizes. Go to the warehouse and pick out a pair today. You may use the payroll deduction method to pay for the shoes; and in addition to saving possible injury to your feet, you'll have a chance to win a fine prize.

BOYKIN, ST. PIERRE, SPURLOCK, AND MOORE INVOLVED IN OPERATING DEPARTMENT MOVES

BOYKIN

ST. PIERRE

SPURLOCK

MOORE

W. B. Boykin, Manager Aromatics, will become Manager Operations Expansion effective May 16, 1968, announced Refinery Manager Leonard T. Wilson.

R. St. Pierre, Assistant Manager Aromatics, will replace Boykin as Manager Aromatics and E. L. Spurlock, Assistant Manager Utilities, will replace St. Pierre as Assistant Manager Aromatics. J. F. Moore, Engineer in the Expansion-Construction Department, will replace St. Pierre as Assistant Manager Utilities.

(Continued on Page 2 - See MOVES.)

LINEMAN'S DAUGHTER REACHES 4th PLACE IN
NATIONAL DECA FINALS AT DEER PARK SCHOOL

Evelyn Todd, a 17-year-old senior at Deer Park High School, attained 4th place in the nation recently in public speaking at the National Youth Leadership Conference for the Distributive Education Clubs of America (DECA), held at the Rice Hotel in Houston.

By becoming a finalist, Evelyn, who is the daughter of Mr. and Mrs. C. S. Todd (he is a Lineman No. 1 in Engineering Field), is one of eight students so honored out of 80,000 Distributive Education students in the United States. Her topic was, "The Role of Sales Promotion in Marketing and Distribution."

Since this is the first year Deer Park has had DECA, the organization considers it an exceeding honor for Evelyn to go as far in DECA competition. She had previously won first place in local, area, and statewide contests.

MOVES - Continued from Page 1

partment, will replace Spurlock as Assistant Manager Utilities.

Bill, a graduate of the University of Wisconsin with an M.S. degree in chemical engineering, joined Shell at the Martinez Refinery in May, 1949. After an interim assignment at Head Office Manufacturing Technological, he was transferred to the Houston Refinery in May, 1959. He was appointed Manager Aromatics in July, 1967.

Roy was employed by Shell at the Norco Refinery as a Technologist in 1953, after receiving a B.S. degree in chemical engineering from Louisiana State University. After a variety of assignments at Norco and Head Office, and a two-year foreign assignment in The Hague with BIPM, he was named to his present position at the Houston Refinery.

"Spud" was employed by Shell at the Houston Refinery in August, 1952, with a B.S. in mechanical engineering from Louisiana State University. Following various technical assignments in the Engineering Department, he was named a Sr. Engineer in August, 1965. He was appointed Assistant Manager Utilities in January, 1967.

Jim is a graduate of Mississippi State with a B.S. degree in mechanical engineering and joined Shell in January, 1964, as an Engineer in Engineering Services. In March, 1967, he transferred to Engineering Office, and in May of the same year he transferred to Expansion-Construction.

PERSONNEL CHANGES

J. W. Fitch - Laborer to
Gen. Helper No. 2,
Engineering Field
R. E. Bennett - Rackman, Dispatching
Tank Farm to
Fireman, Dubbs 9
Cracking

to
Oper. 2, Cat. Cracker
C. A. Alderman - Gen. Helper, Eng.
Field to
Pumper Gauger,
Docks (Dispatching)

TEXAS PARKS FACTS

There is a scant 0.7 square foot of developed coastal beach per 1000 people in Texas.

EMPLOYEE'S SON WRITES ARTICLE FOR PAPER
DESCRIBING DISTRIBUTIVE EDUCATION

Bryan Tanner, son of W. E. Tanner, Aromatics Operator No. 1, recently expressed his views on Distributive Education in an article which appeared in the PASADENA NEWS CITIZEN. The article, which is entirely Bryan's, follows:

Distributive Education is not only a two-year course, containing three credits available for those who just want a job. It means a great more than just these bare facts.

D.E. offers those, who take full advantage of the training, responsibilities that come from holding a job no matter what field it may be. It also teaches the student to conquer the feeling of insecurity, which only comes from the lack of individual confidence. It is left up entirely to the individual just how much he or she will take advantage of this valuable training. It goes back to the old saying "A person gets only what that person puts into it." This is true in anything and everything a person tries to do. Effort pointed in the right direction, always pays off in good results.

DEPARTMENT CELEBRATES YEAR OF SAFE WORK WITHOUT A DISABLING INJURY WITH SAFETY PARTIES. CATALYTIC CRACKING EMPLOYEES AND SPOUSES ATTENDED COMPANY-SPONSORED ACTIVITY RECENTLY.

EMPLOYEE WIVES --- Among the ladies who attended a recent safety party were, from left to right, Mrs. M. W. Roberson, Mrs. E. Miller, Mrs. J. D. Kuebler, and Mrs. W. P. Polson.

PARTY'ERS --- Some of the CC Gas personnel and their spouses who came to the department's safety party were, from left to right, Mr. and Mrs. J. T. Riggs, Mrs. and Mr. W. E. Barr, and Mrs. and Mr. T. P. Hopkins.

CATALYTIC CRACKING PERSONNEL --- Out for a night of relaxation as a reward for working safely for a year were, from left to right, Mr. and Mrs. L. S. Leonard and Mr. and Mrs. L. W. Cope.

TEXAS PARKS FACTS

Texas is $5\frac{1}{2}$ times larger than the State of New York, yet New York has 7 times the amount of State Park land.

PARTY PEOPLE --- Among the persons attending were, from left to right, Mrs. and Mr. R. L. Taylor, Mr. and Mrs. S. T. Hartung, and Mr. and Mrs. C. McCleskey.

SAFE WORKERS --- Also rewarded for a year of work without a disabling injury were, from left to right, Mr. and Mrs. P. J. Hooks, and Mrs. and Mr. C. E. Taylor.

ATTENDED PARTY --- This was another couple who were honored for safe work. They are Mr. and Mrs. O. M. Shultz, Jr.

OIL NEWS BRIEF

U.S. oilmen set an all-time record in 1966 by drilling nearly 440 "deep" oil and gas wells. A well must go down 15,000 or more feet to qualify as "deep". More than 3,000 such wells have been recorded in the U.S. since the first one in 1938.

ROLLING SAFETY SIGN --- G. B. Dunn, the Refinery's sign painter, at left, and one of the Refinery's garage foremen, W. H. Shields, admire the safety sign painted on this side loading fork truck. Dunn painted the sign on the vehicle, which travels all over the Refinery, after members of Shield's group had completely overhauled and painted the truck.

HOLBROOK AND SIMMONS APPOINTED TO STAFF
IN PERSONNEL MOVES EFFECTIVE MAY 1, 1968

HOLBROOK

SIMMONS

O. Holbrook has been named to the position of Engineering Foreman effective May 1, 1968. Otis started his career with Shell as a General Helper in June, 1947. In December, 1947, he entered the Machinist Craft and progressed through the craft to the classification of Machinist No. 1

L. Simmons has been appointed to the position of Automotive Dispatcher effective May 1, 1968. Lee began his career with Shell as a Laborer in June, 1935. In July, 1936, he entered the Automotive Department and progressed through the department to the classification of Heavy Equipment Operator No. 1

WANT TO BUY
