Copyright 1984 by Michael Helquist SAN FRANCISCO-It happened at 8:00 SAN FRANCISCO—It happened at 8:00 a.m. on January 6th: Dan White, con-victed assassin of San Francisco Mayor George Moscone and gay supervisor Har-vey Milk, became a free man. White was released from prison after serving just over five years of his voluntary manslaughter sentence. All political and judical efforts to prevent his release had failed. Angry San Franciscans rallied to protest the widely perceived travesty of justice, and several thousand in the city refused to let the day pass with business-as-usual. Two protestors joined the small crowd of reporters camped outside the entrance of Schedad wison where White had served. reporters camped outside the entrance of Soledad prison where White had served most of his sentence. Health activist and person with AIDS, Bobbi Campbell, and his lover, Bobby Hilliard, carried candles and signs which declared "Dan White is More Dangerous than AIDS" and "But He Can't Kill Gay Pride." Campbell told reporters that AIDS currently has a mortality rate of 40 percent, whereas Dan White has a fatality rate of 100 percent.

The California State Parole Board announced the next day that White had already been moved from Soledad to another prison facility for his release. Authorities cited concern over White's safety as the reason for the unprecedented security surrounding his release.

Two major protest rallies drew thousands of San Franciscans during the day. The Ad Hoc Committee to Protest the Injustice had issued a call to all city workers to support a work stoppage and not to go to work that day, if possible. #### Gays Don't Fit Stereotypes

"Husband" and "wife" are not roles routinely assumed by gay couples who have been together for a long time, says The Male Couple: How Relationships Develop, by David McWhirter and Andrew Mattison, psychiatrist and psychologist, respectively, at the UC San Diego School of Medicine.

Their new book also says that sexual fidelity is not as important as in heterosexual marriages, from information gained by interviewing some 156 couples

Some older couples fit the stereotyped husband and wife roles, said McWhirter, simply because for years they have been told they should.

The five-year study, begun in 1974, interviewed 312 men asking them 240 questions dealing with everything from the couple's sex lives to their long-range plans together.

. Based on the interviewed, the authors found that fidelity was defined in terms of emotional commitment rather than sexual behavior, and that the longest lasting relationships involved an age difference of at least five years

#### **FBI Documents** Stolen from Gay **Activist Siminoski**

LOS ANGELES—Gay activist Dan Siminoski was in Phoenix in early December for a speaking engagement, but when he returned from an evening appointment he found the automobile of his host broken into. The only item stolen, reports an American Civil Liberties Union news release, was Siminoski's briefcase containing several thousand dollars worth of plane tickets, travelers checks and the doc-uments concerning a controversial suit by Siminoski against the Federal Bureau of Investigation (FBI).

The briefcase was returned by the police several days later, still containing the val-uable plane tickets and travelers' checks.

Curiously, the only thing missing were the FBI documents, crucial to Siminoski's ongoing attempt to force the release of documents of alleged illegal spying stories against gay and lesbian activists and organizations.

The break-in caused an abrupt cancellation to Siminoski's nationwide tour. However, he later announced that he would resume the tour, which includes stops in Houston, Lubbock, Dallas, Austin and San Antonio.

Siminoski is scheduled to be the keynote speaker at the Gay Press Association Southern Regional Conference Jan. 27-29 at the Savoy Hotel, Houston. The American Civil Liberties Union of Southern California filed suit in a federal

district court in Los Angeles on Siminos-ki's behalf late last year. The suit, filed under the federal Freedom of Information Act (FOIA), seeks to compel the FBI to release documents concerning unlawful FBI surveillance of gay and lesbian activists and organizations since 1950. The-suit also seeks an injunction to force the FBI to grant Siminoski's request for a fee

#### Gay Youth May Remain in Scouts, Says Court

In a move hearalded as a victory for gay rights activists, the California Supreme Court denied a petition by the Boy Scouts of America contesting a gay youth's right

to belong to that organization.

The ruling in Curran vs. Mt. Diablo Council of the Boy Scouts of America sends the case back to Los Angeles Superior Court where the Boy Scouts will have to show cause why a gay young man can-not remain a member of that group.

"This is a giant step forward in the ongoing effort to end discrimination by organizations which appeal to the public for membership," said George Slaff in commenting on the high court's decision. Slaff, an ACLU Foundation volunteer attorney, is lead counsel in the case.

Timothy Curran, a gay scout who claims that his expulsion from the Scouts violated California's Unruh Civil Rights Act and his common law right to fair procedure, had held numerous leadership positions in his Scout troop and helped form a troop for deaf boys in the Oakland

#### **Gay Prostitutes Say** They Lied About Mississippi Governor

Three homosexual prostitutes who said they had sex with successful gubernatorial candidate Bill Allain of Mississippi stated earlier this week that the allega-tions were not true and that they had been paid to make them.

The accusers gave the story to the Jackson, Miss., Clarion-Ledger on the governor's inauguration day to "set the record straight."

The men, Grady Arrington, David Holli-day and Donald Johnson, all recanted the story they had told and gave sworn statements to that effect to Allain's attorney.

Bill Spell, the Jackson attorney who supervised an investigation of Allain's private life for his Republican opponent, said the move was expected and that the three had been offered "large sums of money" in a "combination of threat and reward" to change their stories. Spell said Arrington had mentioned an offer of \$5000, which Allain's attorney, Crymes Pittmen denied Pittman, denied.

Holliday, one of the prostitutes, said a representative of a private detective agency that worked for Allain's opponents gave him money to make the state-ments. All three were allegedly placed on the payroll at \$62 per day, with promises of more money on election day by Allain's opponents.

Allain, 55, denied the statements that he had homosexual relationships and took a lie detector test to prove his innocence. He was elected with 56 percent of the vote on

#### **FBI Documents** Stolen from Gay **Activist Siminoski**

LOS ANGELES—Gay activist Dan Siminoski was in Phoenix in early December for a speaking engagement, but when he returned from an evening appointment he found the automobile of his host broken into. The only item stolen, reports an American Civil Liberties Union news release, was Siminoski's briefcase containing several thousand dollars worth of plane tickets, travelers checks and the doc-uments concerning a controversial suit by Siminoski against the Federal Bureau of Investigation (FBI).

The briefcase was returned by the police several days later, still containing the val-uable plane tickets and travelers' checks.

Curiously, the only thing missing were the FBI documents, crucial to Siminoski's ongoing attempt to force the release of documents of alleged illegal spying stories against gay and lesbian activists and organizations.

The break-in caused an abrupt cancellation to Siminoski's nationwide tour. However, he later announced that he would resume the tour, which includes stops in Houston, Lubbock, Dallas, Austin and San Antonio.

Siminoski is scheduled to be the keynote speaker at the Gay Press Association Southern Regional Conference Jan. 27-29 at the Savoy Hotel, Houston. The American Civil Liberties Union of Southern California filed suit in a federal

district court in Los Angeles on Siminos-ki's behalf late last year. The suit, filed under the federal Freedom of Information Act (FOIA), seeks to compel the FBI to release documents concerning unlawful FBI surveillance of gay and lesbian activists and organizations since 1950. The suit also seeks an injunction to force the FBI to grant Siminoski's request for a fee

#### Gay Youth May Remain in Scouts, Says Court

In a move hearalded as a victory for gay rights activists, the California Supreme Court denied a petition by the Boy Scouts of America contesting a gay youth's right

## Virginia Apuzzo: NGTF's Outspoken Executive Director

By Kathy Tepes Via Gay Press Association Wire Service

"Before there was gay pride, brothers and sisters, there was gay and lesbian rage. We now have an opportunity, and damn good reason, to be in touch with that rage again for the SECOND STONEWALL," said Virginia Apuzzo, executive director of the National Gay Task Force, at a recent gay pride rally in New York City which addressed the AIDS issue.

"And just like our brothers and sisters who took to the street because they were fighting for their lives," she continued, "we came to the street today for no less purpose. We are fighting for our lives, and the government better get the message that we intend to win.

The fact of the matter is, brothers and sisters, that we stand at a critical moment in our history. We can look at this moment and decide in our guts, and decide at this Second Stonewall, what our principle will be: Intolerance is intolerable

At this time when so many people in our community are fearful of AIDS, Apuzzo delivered a very up message to fight back.

Notable activists Robin Tyler and Stonewaller, himself, Ed Murphy called Apuzzo "Our Leader."

Apuzzo recently met with White House representatives in the offices of the Health and Human Services. Concerning the outcome of the meeting, Apuzzo said, "There is no evidence that there is a commitment about AIDS. I don't believe that the Reagan administration knows what the gan administration knows what the number one health care priority is.

"At the meeting, we were told that we are making a political issue, whereas AIDS is a medical problem. My answer to them was, 'If your boss in the form of the Reagan administration says that you must live within your budget, and in the constraints of your budget you find that all you can commit is only \$12 million, and if you are telling me that your answer is a scientific answer, then I'm telling you that your answer is political—that all you are allowed to say is that there is only so much money. You are not utilizing science as the variable; you are using political constraint as a variable, and I'm reacting to what I think is a political conclusion." Apuzzo added, "When the New York Times said that the Reagan administration is yawning concerning AIDS, we in

Switching to the upcoming Presidential race, Apuzzo said, "Alan Cranston has historically always been supportive. Walter Mondale did the Human Rights Campaign Fund benefit dinner, and he also sent out a gay rights statement for Gay Pride Week. Ernest Hollings—few people

However, Apuzzo would like to see the Board of Directors at NGTF get more involved and begin to take their roles more seriously: to perform, to be accountable to the community and to know when it's time

"Members of the Board of Directors need to recognize that they are policy mak-ers. If the organization isn't going in the right direction, don't just blame the execu-tive director or the staff. In apparent reference and contrast to her predecessor, Lucia Valeska, and her turbulent resignation, Apuzzo said, "If members had the sense that it was time for me to move over, they wouldn't have to write tyrant articles in the newspaper. They should simply send me a dozen roses to say, 'You served us for whatever period, now your time is up, and thank you very much.' It's a smart person who knows when to go.'

In conclusion, Apuzzo said, "I love this community. I think the movement saved my life. There was a time when I never

thought it was possible for me to ever say that I was a homosexual out loud, even in a room by myself. The movement helped me and I owe a lot.
"I'm 42-years-old and I see myself work-

ing on behalf of the movement for several more years.

"Congress is something that is a dream to me, but if the dream doesn't come true, well, I have to live my life."

Tackling another political issue, Apuzzo talked about a recent case where a closeted politician approached the lesbian and gay community and requested our help and support in a political campaign. Apuzzo commented, "More and more people within the community are going to have less and less patience with people who take all of the benefits of all of the people who take the risks and who are not willing to take a risk themselves. Basically, you've got to care enough about yourself to be who you are.

And many women wish to be like Apuzzo. When I suggested to her that she was a role model, she responded with, "Be yourself Reach inside yourself and dare to be the best you can be. After a trial in which the prosecution seemed reluctant to construct a full case against the former supervisor, he was found guilty only of two counts of manslaughter. His sentence was only seven years in prison.

With time off for good behavior, he qualified for parole; he was released on January 6. He walked into a community that at least in part praises his deeds, and he probably felt rather smug about the workings of justice in America.

As I look through my files on these cases, I see two round, boyish faces staring at me from faded newsprint. One is alive and one is gone. One was guilty, the other probably framed. I can imagine the anger Dan White must have felt before his crimes, and I wonder if, so short a time

later, he regrets them.

And, I can imagine the emotions Bob Sullivan went through as his last minutes ticked by, as he was shaved and wired, as he scribbled the words he would read. Imagine anyone's fear during the countdown to that finality so few of us come to

Now filter in the possibility that he knows he is innocent and that a dreadful mistake is about to be made; add the immutable fact that his is a nightmare from which he cannot wake.

A scream of anger might shake the rest of us into an appreciation of his agony, but that is not enough. We have to continue our work. As Bob wrote in his last letter: "I ask that you keep strong and that you be NOT afraid, no matter what. We have fought well, and more importantly, we have been in the right."

## New Orleans' Vieux Carre Serves Up Treasured People on a Grand Scale

Staying in the French Quarter for a few days is like taking one lick off an ice cream cone. You can guess the flavor, but you want so much more.

Before I left to go to New Orleans, an acquaintance of mine told me, "Why bother going to the French Quarter? It's just a bunch of bars. You can go to the bars here in Texas and save the travel

expense."

I have to disagree. New Orleans (or any other town, for that matter) is not just a bunch of bars. New Orleans is a city of history. Of architectural romance. Of strange contrasts. And of characters.

The characters of New Orleans—especially the French Quarter—are treasured, almost as if they were natural resources. And they run the gamut from people you expect to be characters anywhere—like musicians—to people you don't find anywhere else—like the Duck Lady.

The police in the Quarter are quick to expel dingy derelicts from the mainstream Bourbon Street action, but they are protect tive and even gracious to the established creative oddballs that inhabit the Quarter nights. In other words, it's okay to be dif-ferent, as long as you have proved yourself to be harmless.

In a city where historical texture is the springboard for attitude, it seems only natural that characters would abound. The Crescent City has always been a home for the adventurous and the roman-

Jean Baptiste Lemoyne Bienville claimed the area upon which New Orleans sits for Louis XIV in 1718 and named the city for the Duke of Orleans.

With the easy access from the Gulf of Mexico, New Orleans was built with a European flavor. French charm abounded.

You would think that France might have had some pride in this little strug-gling cosmopolitan city. But, no! In 1762, France gave the land to Spain.

Now, here is a most interesting fact. Two huge fires destroyed the city during the Spanish occupation, and what is now the French Quarter was rebuilt—by the Spaniards. So, the French Quarter is really not French at all.

Of course, there was still a great deal of French influence, and the combination of French and Spanish came to be called

Residents of New Orleans say that Creole means "child of the colonies." But the word has an interesting origin. It is a French word based on a Spanish word based on a Portuguese word that meant "Negro born in the master's house" that was derived from the Latin creare which means to create or beget

Now, that may not be earthshaking information, but how many stories on New Orleans have you read lately that never even mentioned the original of any word? A little esoteric information never

hurt anyone.

Ah, yes, the Cajun. The Cajuns were French settlers in Novia Scotia who were expelled by the British in 1755. They were

Through linguistic corruption, Acadian became Cajun. It's easy to see how that happened. After years in the bars, my name has in some cases evolved from Dun-

Ruthie nodded vaguely. "Yeah." She looked me over to see if she really wanted to talk to me. She decided to volun-teer some information. "I was born right in the French Quarter."

I asked how long ago that was. She looked at me from the height of her little-old-womanly vanity and told me with more than a little huff in her attitude, "I

I told her that I didn't tell mine, either.
She liked that. She decided to confide in me. "I eat red beans and rice and spaghetti.'

#### **Fortunes**

For Friday evening, January 20, 1984, through Friday evening, January 27, 1984

ARIES—Things do work out. After a rough-and-tumble start to the new year, the light finally shines on the Ram. Through some crazy kind of cockeyed impulsive act, you somehow get the right gears in motion. Something elusive and maybe illusory about a major relationship still

TAURUS-A friend with a different set of values, ideas and ideals could really influence you deeply. You've been having a problem with acting on what you know. Another viewpoint could be just what you need to get the wheels rolling again.

GEMINI—What you want in love and what you get in love could be almost the same thing now. This could be one of those "some enchanted evening you will meet a stranger" kind of things. You may be surprised at the object of your intent, but you'll recognize the feelings you experience.

CANCER-You could find yourself drawn into a part of your past that you'd rather not delve into right now. In response to this unpleasantness, you will continue to find your comfort in your home. Physical activity there will be therapeutic, so get out the manner, the ladder, the paintbrush, and work.

LEO—Feeling testy, maybe even bitchy? No one wants to play with you anymore? Except, of course, for that one special friend who takes you as you are no matter what. Be careful not to take advantage of that magnanimous receptivity, or you'll even scare that one away! Cool off.

VIRGO-The purposefulness and decisiveness that have been guiding you lately serve well now. Your mind is stimulated to the point that you have to make a decision that you've been avoiding. Here it comes again, out of the back of your mind; this time you'll know what to

LIBRA-Fate rolls in with some more surprises. You are not out of control, but you have less of it than you'd like. Beware of a man with a mission. Don't even begin to argue the point he wants to make. "How" may be a more important question than "why" right now.

SCORPIO—If you've been holding back on some anger, now's the best time to let it go, no matter how hot and heavy you get. The words will get through to their intended place (victim?) and hit home. You know the power of your sting. It won't kill you or the object of its venom, so use it!

SAGITTARIUS—What do you get when you combine kind of kinky and very kind in a somewhat upfront and dramatic way? Well, imagine blending Dolly Parton and Boy George. Get the picture? Be who you want to be, but be gentle with your crazy love.

CAPRICORN—This is an excellent time for you to make decisions concerning partnerships, whether business, romantic, or what. Details that concern your joining your force with another are easily handled. If you've done your homework, you'll go the head of the class.

AQUARIUS-There's a man who wants to tell you something you don't want to hear. He may come on so heavy that you will be immediately tempted to turn away. Don't. Listen—objectively—to what's being said, but don't take it too personally. You'll come out on top.

PISCES-Sexual catharsis time for Pisces.! You can take it to the limit in whatever fashion you please. In fact, testing limits and delving deeper into specific areas is what this is all about. With the right person, you'll learn a lot about yourself. Very, very hot time.
