

ENGINEER RECEIVES HERBERT ALLEN AWARD

Senior engineer Dale V. Lorio was the recipient of the South Texas Section of ASME's Herbert Allen Award on March 18. The presentation was done at the Honors and Awards Banquet held at the Houston Engineering Society Building on Fannin.

Dale was selected for the award which included the following comments: "outstanding technical achievements by a young member of the Section, whose age is 35 years or less

year 1975. This achievement was made in the area of turbomachinery analysis."

Dale Lorio looks up as John Balfort says, "This is a tremendous honor."

The award was based in part on Dale's accomplishments in the area of turbomachinery analysis.

Co-worker and senior staff engineer John P. Balfort says, "This is a tremendous honor."

Dale notes that membership

is open to all graduate mechanical engineers whose overriding goal is to move more vigorously from what is now a society with essentially technical concerns to a society that, while servicing the technical interests of its members even better, is increasingly professional in its outlook, sensitive to the engineer's response to the public interest and dedicated to a leadership role in making technology a true servant of man.

CONCERNED COMPANY AIDS CONCERNED EMPLOYEE

It was confusing at times and according to Pyrolysis shift foreman Dick Haydock, "It is an experience that you can't really visualize until you get in it."

Dick was one of the 12 jurors selected out of 150-160 available citizens to hear the illegal wire tapping case against 10 Houston

officers. Each officer had his own lawyer and there were up to seven charges against each defendant. So, it's easy to understand why it was confusing at times.

Because of the confusing nature of the trial, the judge permitted note taking during the trial.

CHEMICAL ACHIEVES 175 SAFE WORKDAYS

Chemical employees achieved 175 safe workdays, totaling about 1,300,000 manhours without a disabling injury.

This represents a safe work performance that every employee was a part of and of which every employee should be proud.

This safe work record was interrupted on March 31 when a hoist mishap in the Main Shops resulted in a dropped load, injuring the hand of the employee operating the hoist. The mishap is being investigated to determine the exact cause of the failure.

Each disabling injury should serve as a very real reminder to all employees that there is no substitute for safety.

PRINCIPLES OF SUPERVISION WORKSHOP HELD

The March 14-19 Principles of Supervision workshop consisted of the following participants: R. E. Miles, N. King, E. L. Griffith, T. F. Nowak, L. E. Jackson, J. A. Hawkins, A. J. Marches, T. C. Cardwell, R. L. Schroeder, G. D. Stepp, J. D. Matteson, W. A. Parks, M. H. Louder, J. P. Gooch, W. A. Moorman, E. A. Janquart, K. W. Greene, J. V. McAnally, D. W. Stewart, M. F. Fletcher and W. V. Hurston.

DEPARTMENTS RECOGNIZED FOR SAFE-WORK PRACTICES

Light Olefins and Pyrolysis held a joint safety party. Guests included, counter-clockwise, Donny and Becky Marshall.

Van and Mona Little. Kelly and John Carroll. Jeanne and Dick Haydock. Larry and Catherine Wilson. R. L. Cook, Kathy Wilcher and Tommy Weatherly.

The BPA party was a treat for Robert Boyer and his mother, Ural Boyer. Other guests included Jerry and Edna Smith along with Rose and Harold "Swampy" Marsh. Enjoying refreshments before dinner were D. W. "Hawkeye" Dominy, Linda "Georgia Peach" Daniel and her husband, Joe "Sundance."

E&S and Environmental got together for their safety party and guests included Cindy Ustruck and date Dave Graham.

Tom and Beth Stus along with Mike Grasley.

Vince and Carol Moravec along with Bob Bray.

Pat and Herschel DeBord sharing conversation with Millie and Charles Bland.

A before dinner get together with Charlie Kastensmidt, Ace Carlson and Bill Wright.

All eyes appear to be on Walt Fyler (second from right). The eyes include Hugh and Betty Jenkins, Toni Kastensmidt, Walt and Carol Fyler.

SCORA announces the following times for purchasing tickets for the theater, Astroworld, Searama, Disneyworld, etc.

Every Wednesday from 2-3 pm in the UCC building at the refinery.

Every Thursday from 2:15-3:15 pm and every Friday from 3:30-4:30 pm in the cafeteria at chemical.

Concerned company aids concerned employee....

The jurors were allowed to go home evenings and on the weekends until all of the evidence was in, then they were sequestered at a local Holiday Inn until they reached a verdict. "It was rather hard to come to a final decision which is why it took us 4½ hours," says Dick. "The courtroom was full when the verdict was given and there was a lot of emotion: tears, relief and joy. You could feel it." The jury found the officers innocent.

How did it feel to serve on the jury? Well, Dick was glad to get it over with and get back to his normal life. It was different to be picked up at home every morning and then taken back again in the evenings by a marshall and having the Post and the Houston Chronicle trying to interview him was exciting in its own way, but it served to make him realize just how much he enjoyed being home.

Luckily for Dick and Alice Buchanan, another Shell em-

Dick relaxes for a moment while relating his experiences as a juror.

ployee in Head Office, the company shows its concern for its employees' participation as concerned citizens in their service as jurors by continuing their full salary. This meant that Dick and Alice didn't have to worry about getting by on the \$20 per day allotted them by the government.

Dick's boss, Pyrolysis process manager, Larry Csengery said he did get somewhat concerned when Dick was selected for the wire tapping case because he thought the trial would be a long one, and Dick was

needed for a scheduled OP-II shutdown in May.

As it was, everything turned out fine. Dick is now back and ready to take part in the planned OP-II shutdown, and his family didn't experience any financial strain due to his service as a concerned citizen - thanks to Shell's policy of continuing an employee's salary while they serve as a juror.

SCORA....

Tomorrow is the spring dance at the Petro-Tex Pavilion. The Bill Black Band will be playing from 8 p.m. until midnight

Then on April 17 an Easter Egg Hunt will be held at 2 p.m. at Carpenter Elementary in Deer Park. The hunt is free to all children of SCORA members between the ages of two to eight.

LARGELY PREVENTABLE

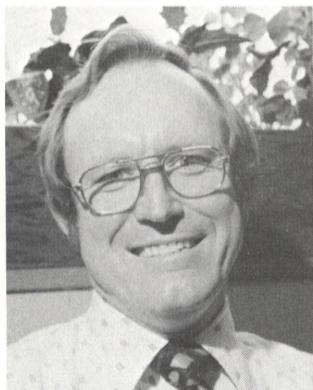

Almost half the adults in this country wear glasses. Most of the others will don them in their later years.

The visually handicapped number six million, and two million Americans are blind.

But the good news is that with today's advanced diagnostic aids, problems like glaucoma and cataract can be identified and treated years before visible symptoms appear. Experts claim half of all blindness could be prevented if people had regular eye examinations.

Had your vision checked lately?

CLASSIFIEDS

FOR SALE

1972 Toyota Corona Deluxe 2-door H/T, 36,000 miles, air, 4-speed, steel belted tires, clean. \$1,995.
487-3867

1972 Ford Torino, black on black, 351, 4 bbl, gauges, auto. transmission, air, power brakes and steering, bucket seats, console, Rally wheels, air scoop. \$1,850.
944-0379

1972 Datsun 2-door, A/C, radio, 1200 sedan, 4-speed, perfect condition.
477-1005

1974 Firebird 3-on-the-floor, AM/FM/tape stereo. \$3,200.
473-2596

1974 Ford Pinto Runabout with sunroof, fully equipped, low mileage. \$2,800. 991-5803

1965 Ford Fairlane V-8, 289 engine, A/C, P/S, P/B, new tune up, good condition, fine work or school car. \$250. Heavy duty mirrors, several sizes. \$2 to \$5.

1965 El Camino pickup, needs minor repair. \$375.
695-5407

1971 Honda 750, extra nice, will trade for truck.
487-3649 after 4:30 pm

Custom made 3-section couch, each 10' long, end tables attached to two of them, each section can be used separately, done in peacock blue with printed loose pillows. \$450.
643-5573

Fender precision bass. \$225.
Fender Bassman. \$250.
Peavey 400 bas amp w/3-15's. \$500. Gas stove. \$25.
Electric stove. \$95. Will consider trade of equal value.
477-7602

1967 Cushman golf cart, electric, excellent condition, battery charger included. \$500.
864-8315 after 5 pm

3-1-1 house in Almeda Mall area, brick front, trees.
9710 Carmalee, Houston.
944-5765

1974 Yamaha 250 Enduro. \$600. 1975 Yamaha 100 Enduro. \$450. Both bought new 8 months ago, low mileage.
471-0162

1974 Yamaha RD-350-A motorcycle, like new, 1900 miles, \$725.
946-6273

Panasonic stereo built-in cassette recorder and AM/FM radio. \$110.
334-3475

Chevy 2 bbl Rochester carburetor with new kit and intake manifold for 283 Chevy, like new. \$25.
946-6273

Holley 600 CFM, double pumper carburetor, new condition. \$70.
946-6273

New 6 hp Tecumseh vertical engine for riding mower. \$95.
472-5988

1976 Kenmore gas dryer, two months old, green.
447-1764 after 5 pm

Wheelchair and walker, good condition.
664-8481

Sears 14,500 Btu window A/C, 220 volts, 2 years old. \$125.
643-2157

Sofa sleeper in gold herculon fabric, also green chair. \$135.
946-2383

Bench type camping seats and table for van, opens up into a bed, beige in color. \$50.
