SCIENCE FICTION WRITERS OF AMERICA

was founded in 1965 "to inform science fiction writers on matters of professional interest, to promote their professional welfare, and to help them deal effectively with publishers, agents, editors, and anthologists." The first Nebula Awards banquets were held in New York and California in 1966. The award-winning short stories, novels, and novellas, along with selected runners-up, are included each year in **NEBULA AWARD STORIES**, an anthology sponsored by SFWA and published by Doubleday. SFWA's membership of approximately 300 comprises nearly all the active science fiction writers in the United States and Great Britain.
