December 20, 1950

Lic. Alonso S. Perales  
Suite 308 International Building  
San Antonio 7, Texas

Dear Mr. Perales:

I want to thank you for your letter dated December 13, 1950. Naturally we are interested in the Anti-Discrimination Bill and would be glad to take the initiative.

Although the going would be tough I believe we are in a better position to publicise it. I also believe that it will be necessary to get the LULACS O.K. since we don't want to be split on the issue and then having one another criticizing each others stand.

I also agree that it would be easier to pass by eliminating the penalty change and merely having their license revoked or something similiar.

We must definitely try to get it done again.

Let me know what other suggestions you have and what you think should be our next step. Of course I would have to get the O.K. of our Advisory Body but there is no question as to the outcome. We are set to do those very things.

Respectfully,

  
Hector P. Garcia, M.D.  
Chairman
