United States Public Health Service.  
Washington, D. C.

Dear Sirs:

A client of mine is making a gift to the City in the shape of a first unit for a negro hospital. It is his desire that the buildings comprising this institution be modelled after the hospital buildings in the Panama Canal Zone.

I have looked through our public library here and find nothing giving detailed information on these buildings. I am writing to ask if you have not something in pamphlet form which would give me this information. If you could send me something of this kind I would appreciate it very much. Thanking you in advance for the favor. I am

Yours very truly.
