

DR. H. E. LEE
PHYSICIAN & SURGEON
406 ODD FELLOWS TEMPLE
HOUSTON, TEXAS

July 14th. 1933.

Mr. J.S. Cullinan.
Houston, Texas.

Dear Sir:

Rumors of the possible closing of the Houston Negro Hospital has deeply concerned me. I can never read the inscription on it without appreciating the spirit of your giving. The records at the hospital will convince you, I am sure, that I have been loyal to the institution and have supported it as far as possible, whole heartedly. I have hospitalized many patients and have seen to it that the hospital was paid even if I were not. For that reason, I feel priveleged to say that I am deeply concerned.

Should such a course be contemplated, I would like very much to have a conference with you concerning it, before it really happens. If it is not closed, I wish to pledge my support to the institution as fully in the future as I have in the past.

Very respectfully,

H. E. Lee M.D.
