Dear Suffragist:

Do you remember the homely philosophy of Capt. Bill McDonald? He was one of the ranger captains in the old days when to be a Texas ranger was to be known as a "man among men," and when someone asked him how it was that he arrested so many desperadoes and brought them into court without bloodshed, he is said to have answered, "There ain't no man that's in the WRONG can stand up against a man that's in the RIGHT if he looks him in the eye and keeps a comin'!"

Now, my friend, that is America's problem today. We are in the right and our enemy is in the wrong, and we have the job of arresting Germany in her mad intention of setting up a military despotism and rolling back the tide of time and progress as far as ideas of democratic government are concerned. We MUST "keep a comin'." That means we MUST sell this issue of the Liberty Bonds, for to fail in this would be faltering of the worst kind, and would be so considered by friend and foe alike.

It has been said that if this issue of Liberty Bonds is over subscribed, with ten million names on the list, showing a united and determined people, it will serve as America's battle of the Marne, so great will be its encouragement to our allies, and so great its effect on the German government. Do you realize what a priceless opportunity is ours today? To fight a great decisive battle with dollars instead of the precious lives and bodies of the young manhood of the nation! To LEND the money that will make it possible for many mothers who have GIVEN the best that they had, their son, to receive that son back safely!

Is YOUR name on the list of those who would fight this bloodless battle? Have you solicited anyone to buy a bond? Are you a part of the campaign to sell them in your home town? If not, is it because you do not care? Or because you did not realize? Won't you get right to work today and do your share that America may look her problem "in the eye and keep a comin'?"

Faithfully yours,

Minnie Fisher Cunningham,

MFC-EHL

President.
