Dear Dr. Slaughter:

On the eve of my leaving for home, I have received copy of your report on the above for the period ending December 31st, 1927.

I have found this report very interesting and highly appreciate the serious consideration and attention that you have given to the work. I trust I will have an opportunity of seeing you and discussing this and other matters of mutual interest within the very near future.

With personal regards, believe me

Yours very truly,
