UH opposes law merger

The University has formally opposed a proposed merger of Houston's South Texas College of Law with the Texas A&M University System on the grounds that the merger is "not in the public interest."

A statement of opposition to the merger released by the Executive Committee of the Board of Regents also suggests that the merger - if undertaken - "would result in a major waste of state funds and constitute an illogical and highly questionable entry of another public university into an area which can be served more efficiently and at far less cost by a state institution already operating there."

Key Factors

The statement was released to the Harris County delegation to the Texas State Legislature Dec. 17. Key factors in the University's decision to oppose the merger include:

* It would cost several million dollars in state funds to provide the library and physical facilities for a major law school resulting from a South Texas - Texas A&M Merger.

* The University is preparing to move its College of Law into a new \$4 million home with a 60,000 volume library and other outstanding facilities. The new college will operate on a "satellite system" whereby sub-colleges may be added in increments of approximately 500 students. Thus if South Texas desires to merge into the Texas system of higher education, such a merger could be accomplished with the University. A UH-South Texas merger would provide, with little additional expenditure for physical facilities, library or administration, a unit serving primarily the part time, evening law student.

UH Experienced

* The University's Bates College of Law is experienced in evening law school operations, since it left this area less than a year ago after it became apparent that South Texas was serving the field adequately.

The Executive Committee's statement indicates that the University will oppose the merger

before the Coordinating Board and, if necessary, in any legislative hearings which may convene to consider the matter. Nevertheless, South Texas has rejected the possibility of a merger with UH and has suggested that no merger will take place if not with Texas A&M.

Fields

Historian is new vp-dean of faculties

Emmett B. Fields, 45-year-old dean of the College of Arts and Sciences at Vanderbilt University, has been named vice president, dean of faculties at

the University, effective July 1.

Appointment of Dr. Fields, a widely-known administrator and historian who is president-elect of the Southern Assoc. of Colleges and Schools, was announced Jan. 7 by Dr. Philip G. Hoffman. The appointment, which fills a key academic post, is subject to confirmation by the governing board of the University at the next regular meeting of the regents Feb. 4.

"I am most gratified that Dean Fields has accepted the key post of vice president, dean of faculties at the University of Houston," President Hoffman said. "Dr. Fields is a highly competent scholar and administrator who is widely known and respected. As chairman and member of many accrediting teams, he has had the opportunity to visit and study a wide range of major colleges and universities, thus reinforcing his innate ability as an educational administrator and adding to the wide range and scope of his knowledge and experience.

"Dr. Fields' experienced academic leadership and perceptive qualities will make an outstanding contribution to the University of Houston and to higher education in Texas. They are especially welcome at a time when the University is moving steadily toward a projected enrollment of 30,000 on the main campus and beginning planning studies for new

(See FIELDS, Page 3)

Five goals drafted by Human Relations

The Human Relations Committee of the University committed itself to five objectives at a meeting Dec. 12.

The objectives are:

* To seek removal of all vestiges of racial segregation and discrimination practices at the

University.

* To seek changes aimed at improving attitudes of individuals and groups of one ethnic group toward individuals and groups of other ethnic groups.

* To seek understanding and recognition by University faculty, students and staff of "ethnic pride" as voiced and practiced by various groups on campus.

* To work with off-campus individuals and groups which are striving for the same goals and working in the same manner to achieve the objectives of the Human Relations Committee.

The committee was formed about a year ago to explore ethnic relationships and issues at the University, to act as a forum for the discussion of problems and to seek involvement of the University community in providing solutions to such problems.

1968 Homecoming Queen

Twenty-year-old Lynn Cecelia Eusan was crowned 1968 UH Homecoming Queen during halftime ceremonies at the UH Tulsa football game Nov. 23. Miss Eusan, an English teacher education major from San Antonio, was sponsored by Afro-Americans for Black Liberation.

Fund aids research for undergraduates

To stimulate and promote creative development among undergraduates in all academic areas, the University has established a special fund for undergraduate research.

Announcement of the fund was made jointly by President Philip G. Hoffman and Student Association.

Grants will be made to undergraduates to aid them in research projects to be completed in one year or less. No grant will ex-

ceed \$100.

Undergraduate proposals will be considered in three areas: (1) original research by the applicant; (2) research of value to others but not necessarily original to the applicant; and (3) experimental research that is non-original and of benefit to the applicant.

Barry Hafkin, chemistry senior, has been appointed chairman of the Undergraduate Research Committee.

Tutoring program continues in spring

When students register for classes at the University in the spring, they will have an opportunity to join in the UH Tutorial Project, which will then be moving into its fifth consecutive semester of tutorial activity.

Students who apply for the projects and who demonstrate genuine concern and a willingness to fulfill their obligations to the tutorial program will be accepted into the project. Volunteer student tutors participating in the program receive no monetary or academic credit compensation for their work.

Cultural Program

UH Tutorial Project was initiated in the fall, 1967 semester at the University by Bob Newman, a VISTA volunteer assigned to Houston. The project provides tutors for elementary school students from low income families - primarily in Houston's Third Ward area - in a program of cultural enrichment and learning assistance, with emphasis on academics. During its first semester of activity, the project

attracted about 45 students from various disciplines.

Volunteers working on the project tutored students from Dodson Elementary School on a one-to-one basis, with each tutor-tee team working at its own preferred rate and level.

Favorable results from the pilot project prompted University students to continue the program during the spring, 1968 semester, when about 100 volunteers were enrolled. Tutors were carefully screened by UH Tutorial project staff members and were obliged to take part in an orientation and training program - primarily lectures and films - prior to actually working with elementary school students. Volunteers also had to agree to work in the project for at least one semester, to insure continuity in the program.

The project continued into the summer, 1968 semester, by that time making use of the Martin Luther King Community Center in the Third Ward as a central activity base. Previously, project workers had used the fa-

cilities of a Third Ward Church.

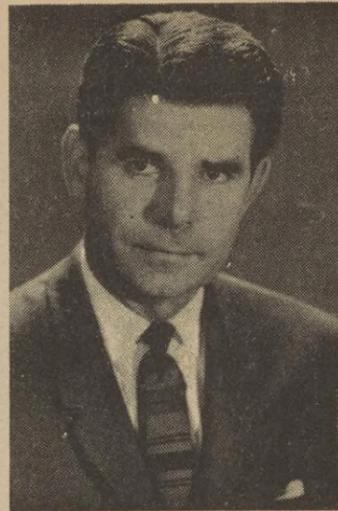

A mid-summer camping trip to the Austin area was the highlight of the summer program, which concerned mainly cultural and recreational activities. Previous project-sponsored activities including Halloween, Christmas and Easter parties, a trip to the Shrine Circus, zoo visits and park outings and picnics.

85 Volunteers

The fall, 1968 semester found 85 students volunteering for the project, under the direction of Rex Bird, junior sociology major. Currently Student Association is funding part of the project. Faculty advisor for the project is Dr. Bancroft Henderson, associate professor of political science, who has tutored one child himself since the project began in 1967.

Dr. Henderson says that the project has been met with "great enthusiasm" by both tutors and tutees, and that the greatest disappointment in the project thus far has been a lack of sufficient tutors to meet the demand.

University students interested in participating in the project may apply during spring registration, Jan. 27-30, or by contacting UH Tutorial Project, 748-6600, extension 735.

George

Jenkins

Architecture dean steps down Feb. 1, acting dean named

Walter Eugene George, Jr., dean of the College of Architecture, has resigned effective Feb. 1.

George, also a professor of architecture, became dean of the college in September, 1967. During his tenure as dean, the college was reviewed by the National Architectural Accrediting Board and was again given two-year accreditation.

In commenting on the resignation, Dr. Philip G. Hoffman stated that he sincerely regretted George's decision and the loss of Dean George by the University. Dr. Hoffman said: "Dean George inherited a difficult situation and met it with exemplary character and fortitude. I am reluctantly granting his request with acknowledgement of the debt which the University, the architectural profession and his faculty and students owe to this man for devoted service."

President Hoffman also announced the appointment of Associate Professor William R. Jenkins as acting dean of the College of Architecture. Jenkins began his association with the faculty of the College of Architecture in 1957 and was promoted to associate professor in 1965. He is a practicing architect in Houston and holds a bachelor of science degree from the University and a master or architecture degree from Texas A&M University.

UH freshmen are top-ranked graduates

Of the 2,420 freshmen students who entered the University in the fall, more than one-half graduated from the top one-fourth of their high school classes.

A study released by the Counseling and Testing Service indicates that 1,239 entering freshmen - about 51 per cent - graduated in the top quarter of their high school classes. About 84 per cent, of 2,018 entering freshmen, graduated in the top half of their classes.

The study also shows that over one-third of the University's entering freshmen - 1,198 - scored 1,000 or above on the Scholastic Aptitude Test (SAT) which is annually administered to students planning to enter college by the College Entrance Examination Board.

A score of 1,000 is generally considered to be the national average on the SAT.

Dr. McGivney named Outstanding Alumnus

Dr. John McGivney has been named 1968 Outstanding Alumnus by the Alumni Federation.

He was presented the award at halftime ceremonies during the UH-Tulsa football game in the Astrodome Nov. 23.

A Fellow of the American College of Surgeons, Dr. McGivney is a Galvestonian and clinical assistant professor of surgery at the University of Texas School of Medicine there. He is a past president of the Galveston County Medical Society and was named Outstanding Senior Citizen by the Galveston County Chamber of Commerce in 1965.

Dr. McGivney is credited with scientific achievement and advancement of his surgical specialty. In 1958 he was the recipient of the Collier Ford Martin Award. His works have been published in numerous journals of science and medicine.

More recently Dr. McGivney has been active in the civic affairs of his community, directing his efforts toward establishing a college district for Galveston. He is currently chairman of the board of Galveston Community College.

McGivney

Contract awarded to Human Resources

The Center for Human Resources in the College of Business Administration has obtained a one year contract with the Vocational Guidance Service of Houston to perform the first phase of evaluative research activities in a pre-employment guidance project.

The amount of the contract, funded by the Manpower Administration of the U.S. Department of Labor, is \$14,357.

The overall project provides for an experimental counseling

program at the senior level in 12 Houston area high schools of lower social - economic status, according to Dr. Joseph Champagne, associate director of the Center for Human Resources.

The University will evaluate the effects of the experimental program in four of the selected high schools, both as related to the counseling process during the year and in terms of follow-up on the high school seniors after graduation and entrance into the labor force.

Studies program names chairman

Dr. Philip B. Taylor, Jr. has been appointed chairman of the Latin American Studies Program and professor of political science, effective June 1.

In his new assignment, Dr. Taylor will conduct inter-departmental courses on contemporary Latin America, as well as courses in both Latin American and comparative political science.

Dr. Taylor joins the University from the School of Advanced International Studies, Johns Hopkins University, where he was associate professor of political science. While at Johns Hopkins, he also lectured for a Latin American seminar at George Washington University.

Previously Dr. Taylor was director of Latin American Studies at the University of Michigan, associate professor of political science at Tulane University and lecturer in political science at Howard University.

He has also been Visiting Professor of the Faculty of Law at the University of Montevideo, Uruguay and Visiting Professor of Political Science at the University of the Andes, Bogota, Colombia.

Dr. Taylor, who has written books on the government and politics of Uruguay and Venezuela, received his BA, MA and PhD degrees from the University of California at Berkeley.

Bates College of Law plans Goldberg talks

Former U.S. Ambassador to the United Nations Arthur J. Goldberg will be visiting Maurice Frankel Professor of Law in the Bates College of Law this spring.

He will be one of three visiting professors who will lecture

on international law, according to John B. Neibel, dean of the law college. The lectures will focus on the role of the attorney in facilitating commercial transactions and agreements.

"This will be a companion

course to the Mexican Studies Program to give a broader look to the role of attorneys," said Dean Neibel. (See related story, Column 3.)

Goldberg earned BSL and JD degrees from Northwestern University and practiced law in Chicago from 1929 to 1948. He served as general counsel for the CIO until 1955 and for the AFL-CIO until 1961, when he was appointed U. S. Secretary of Labor by President John Kennedy. In 1962, he was named an associate justice of the U.S. Supreme Court and in 1965 he was appointed U.S. Ambassador to the United Nations. In 1968 he returned to private law practice in New York, where he is a partner in a firm of Paul, Weiss, Goldberg, Rifkind, Wharton & Garrison.

Goldberg is scheduled to be at the University during the week of May 12. In addition to the seminar lectures, he will give a public lecture in the auditorium of the new law school building complex.

The visiting professors' lectures are made possible by the Maurice Frankel Foundation. They will be presented in seminar form, each lasting six weeks and each limited to 20 students. Students will prepare in advance for the lectures, which will be given during one week of each seminar.

Excellence Campaign VIP's

Dr. Philip G. Hoffman, Past Chairman Max Levine, and 1969 Chairman John F. Burton

Pan Am scholarships go to three students

Three University geology students have been named 1968-69 recipients of Pan American Petroleum Foundation Scholarships.

They are senior David L. McGee, awarded \$1,000; sophomore Roger S. Trejo, who received \$800; and freshman John W. Ireland, awarded \$700.

Pan American Petroleum Foundation, Inc. is supported by Pan American Petroleum Corp.,

the North American exploration and producing subsidiary of Standard Oil Co. of Indiana. The foundation currently supports 64 students in the fields of geology, geophysics, and petroleum engineering at 20 universities in the nation.

In addition to scholarships, the foundation also provides an annual departmental grant and a one-time grant to recipients' high schools.

Fields new vp

(From Page 1)

adjunct campuses recommended by the Coordinating Board. The first branch, scheduled to open in 1973, and the second, recommended for 1977, may well move our total enrollment past the 50,000 mark - with attendant complexities and problems - by the early 1980's. This is one of the many reasons why my colleagues and I welcome Vice President Fields and look forward happily to our association with him."

Dr. Fields issued the following statement in Nashville: "I am deeply impressed by the contribution the University of Houston is making to its region, and by the outstanding challenge its future holds. Houston is an exciting city whose metropolitan opportunities and problems will require much of higher education. I welcome the invitation to share in the work of the University of Houston, and I look forward with great personal pleasure to

joining President Hoffman and his colleagues."

Dr. Fields, a specialist in American history, will also be named to a full professorship of history. The deans of nine component colleges, two schools and the graduate division, plus related administrative and staff officials, will report directly to the new University officer.

A native of Fort Smith, Ark., Dr. Fields took the BA degree with high honors at Ouachita College, where he majored in history, economics and business administration. He was awarded MA and PhD degrees in history from Vanderbilt University, the latter in 1953.

The new official began his teaching career at Jacksonville State College in Alabama, where he served as professor and chairman of the department of history. He was named director of summer sessions and associate dean of the College of Arts and Sciences at Vanderbilt University in 1957. He advanced to the deanship in 1960.

Dr. Fields has been active on a wide range of university committees in his present post at Vanderbilt. He is a member of the University Cabinet, University Senate and planning Council, Student Affairs, Urban Studies and Athletic Committees and chairman of the Faculty Council in the College of Arts and Sciences. He also heads the Curriculum and Administrative Committees.

In the overall world of higher education, Dean Fields has moved to a number of key positions in organizations, including the Southern Conference of Academic Deans (chairman, 1963) and the Southern Assoc. of Colleges and Schools (chairman, Commission on Colleges; member of the Board of Trustees; and president-elect). He is a member of a number of learned societies.

Honors Program marks increased fall enrollment

A record fall enrollment of 62 freshmen and sophomore students has been announced by the University Honors Program.

The enrollment figure brings to 150 the total number of students participating in the program, an increase of about 47 per cent over last year's total enrollment.

The Honors Program is designed for the above-average student who possibly will become interested in roles of leadership in his chosen field. Most honors students come from the top five to 10 per cent of their high school graduating classes.

Law school begins Mexican legal studies

To provide University law students, as well as American and Mexican lawyers, an opportunity to become familiar with business practices and legal systems of the United States and Mexico, a new program in Mexican legal studies has been inaugurated by the Bates College of Law.

Richard W. Ewing, associate professor of law, is director of the program.

To facilitate the program, a bibliography of modern Mexican legal materials is being developed. In October, 500 Mexican law books arrived at the University, marking the first large ac-

quisition for the Mexican law library. There will be a special reading room and office for this library in the new law building.

"Countless business firms in our area have close commercial ties with Mexico and Latin America," said Ewing. "And these associations are growing. It is imperative that there be a personal, scholarly and professional exchange among lawyers in the Americas. Our study program is a vehicle for this exchange.

For University students of law the program offers courses in comparative law and international transactions, with focus on Mexican law as the illustrative legal system. Students in the latter course will spend periods in Mexico meeting with Mexican lawyers.

In addition, "continuing legal education" courses in Mexican law are planned for practicing attorneys.

Beginning in June, Ewing hopes to bring to Houston a group of 20 Mexican lawyers for a year of graduate studies leading to a master's degree. Law courses will include Anglo-American law, taxation, corporations and securities. And possibly other courses will be made available in the College of Business Administration in finance, accounting, statistics, management and related subjects.

NASA contract goes to physics

Department of physics has received a two year contract from NASA - Manned Spacecraft Center to conduct an experiment designed to obtain qualitative and quantitative data on the contaminant atmosphere thought to surround manned spacecrafts.

The project, "Supporting Studies for the Coronagraph Contamination Experiment," will be directed by Dr. Natalie S. Kovar, assistant professor of physics.

Burton to lead '69 Campaign

John F. Burton, financial vice president and director of Transcontinental Gas Pipe Line Corp., has been named general chairman of the University's Excellence Campaign for 1969.

Seth I. Morris, Jr., a member of the Houston architecture firm of Wilson, Morris, Crain & Anderson, has been appointed vice chairman of the 1969 campaign.

Under Burton's leadership, some 400 volunteer workers will

seek to reach a goal of \$1,100,000 in gifts and pledges. They will call on approximately 1,400 business and professional firms, individuals and foundations. Morris will work directly with Burton in developing the volunteer campaign organization and in assisting the five division chairmen.

During the 1968 Excellence Campaign, Burton headed the Advance Gifts Division, while Morris served as chairman of the Financial/Professional Division.

The annual giving program is conducted by the University of Houston Foundation, which was created in 1960 to enable the University to accelerate its growing program for excellence. This is a goal that cannot be fully attained from state appropriations and the University's small, but growing, endowment.

Funds received during the campaign are used for faculty development, library books, special equipment and supplies, scholarships, fellowships, loans and grants, lectureships, research stimulation, publications and other programs that contribute to human knowledge.

Dr. Martin Day to give lectures in Australia

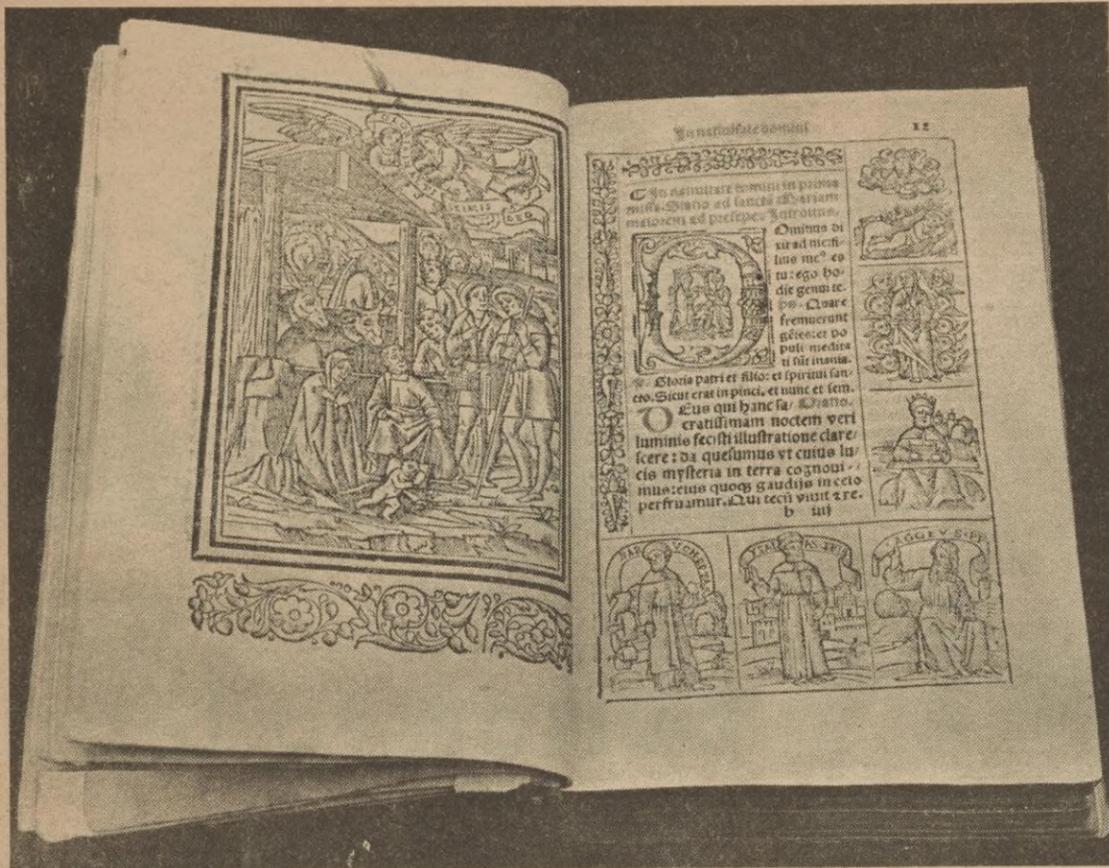

Dr. Martin S. Day, professor of English, has received a Fulbright Lectureship to Australia.

He will teach American literature at the University of New England of Armidale, New South Wales, from July, 1969 until May, 1970. He will be accompanied by his family.

The purpose of Fulbright lectures is to provide fruitful contact between American scholars and students of other countries.

A native of Baltimore, Md., Dr. Day earned an AB degree from the University of Pennsylvania and a PhD from Johns Hopkins University. He is a member of Phi Beta Kappa.

Prior to joining the English department in 1954, Dr. Day was on the staff of George Washington University for 12 years.

Sixteenth Century Missal

Among the more outstanding articles in the Special Collections Room of M.D. Anderson Memorial Library is this Missale Romanum, made in 1536 in Venice by Petrus Liechtenstein. It is a beauti-

ful early Missal, printed with black and red woodcut borders and featuring a full page Nativity scene. It is on loan to the library.

Welch support provides \$273,000 in grants

The trustees of the Robert A Welch Foundation have announced the approval of eight grants - in aid to support basic chemical research in the amount of \$273,000 at the University.

The research projects and their chief investigators are "Photoelectron Spectroscopy of Some Conjugated Molecules," \$24,000, Dr. Wayne E. Wentworth, associate professor of chemistry; "Stereochemical Aspects of the Vinylcyclo-propane Rearrangement," \$36,000, Dr. M. R. Willcott, associate professor of chemistry; "A Study of Photo Cis-Trans Isomerization," \$30,000, Dr. R. S. Becker, professor of chemistry;

and "Enzymatic Hydrolysis of Phosphorus - Nitrogen Compounds," \$36,000, Dr. Lindley A. Cates, Jr., professor of pharmacy.

Also "Intermediates in Phosphate Ester Hydrolysis," \$36,000, Dr. James R. Cox, Jr., associate professor of chemistry; "Structure-Activity Relationships of Immunosuppressant Chemicals," \$36,000, Dr. A. P. Kimball, associate professor of biophysics; "Biochemistry of salt tolerance of Salicornia," \$30,000, Dr. Darrell J. Weber, associate professor of biology; and "Super-critical Fluid Chromatography,"

\$45,000, Dr. Albert Zlatkis, professor of chemistry.

The Welch Foundation was established in 1954 by the will of Houstonian Robert Welch.

Best Dressed

Senior elementary education major Linda Lou Bates has been selected UH's Best Dressed Coed of 1968-1969. The 21-year-old Houstonian was selected over ten finalists for the honor.

Board lets contracts totaling \$5.5 million

The Board of Regents of the University awarded four construction contracts Dec. 9 totaling more than \$5.5 million.

Projects involved are the College of Education Building, the Home Economics and Nursery School, the women's gymnasium and swimming pool and utility tunnels.

The College of Education Building, on which the low bid was \$2,899,000, will be build by the Manhattan Construction Co. It will be constructed between

the Roy Cullen and Science Buildings. Future plans envision a landscaped plaza between the three buildings and the Ezekiel Cullen Building on the former site of the reflection pool.

The Home Economics and Nursery School contract was awarded to the Fleetwood Construction Co. on a bid of \$829,967. It will be constructed near the intersection of Wheeler St. and Cullen Blvd. The two-story building will contain 30,000 square feet.

The women's gymnasium and swimming pool will be built by H. A. Lott Construction Co. at a cost of \$1,174,000. It will be part of the Auditorium and Physical Education Center currently under construction near the intersection of Holman St. and Cullen Blvd.

The utility tunnels will be constructed at a cost of \$600,000 by Rowe and Mayfield. They will tie in with the existing tunnel system to serve the new buildings.

At the end of 1969, the University physical plant will be valued at approximately \$74.4 million.

UH contracts with Brazil for assistance

Finalizing the University's agreement to assist Brazilian education institutions in developing administrative procedures, Professor Ferreira Lima, president of the Council of Presidents of Brazilian Universities, signed Nov. 3 a \$285,000 contract with President Philip G. Hoffman.

The assistance project, funded by the U.S. Agency for International Development, will be carried out by the Office of International Affairs through the Center for the Study of Higher Education in Latin America. Dr. Frank M. Tiller is director of the center.

The University has been carrying on administrative development activities in Brazil for nearly two years under direct agreement with AID.

NSF aid to support research

The National Science Foundation has awarded a \$2,000 research grant to the Cullen College of Engineering to support a study of the possibility of remote probing of the atmosphere by microwave.

The project, "A Study of Microwave Propagation in the Turbulent Atmosphere," will be under the direction of Dr. Liang-Chi Shen, assistant professor of electrical engineering. The study was initiated last summer when Dr. Shen participated in a research project at Stanford University.

The object of the research program is to study the effect of a turbulent atmosphere on propagation of millimeter electromagnetic waves.

Dr. Shen, who joined the University faculty in the fall of 1967, earned a BS degree from National Taiwan University, and SM and a PhD from Harvard University.

Golf tourney asks backers

Sponsorships for the 15th annual All-American Intercollegiate Invitation golf tournament, sponsored by the University, are now available.

Each sponsorship includes three tournament badges and one ticket to the pre-tourney banquet. Sponsorships sell for \$10 each and can be purchased by calling the Golf Office, 748-6600, Ext. 383.

Twenty teams will participate in the 1969 tourney, including Arizona State, Arizona, Arkansas, Baylor, Colorado, Florida State, Florida, Houston, LSU, New Mexico, New Mexico State, Oklahoma State, Oklahoma, North Texas State, Rice, SMU, Texas A&M, Texas Tech, TCU and Texas.

Played annually at Pine Forest Country Club, this spring's tourney will be held April 16 - 19.

Foundation gift to Technology for scholarships

The College of Technology has received a \$5,000 check from Houston Endowment, Inc., according to H. E. McCallick, dean of the college.

The funds are to be used for the Jesse H. Jones scholarships for men and the Mary Gibbs Jones scholarships for women.

"This is a significant step in the progress of assistance for the continued development of College of Technology majors," said Dean McCallick.

'68 Campaign exceeds goal

The 1968 University Excellence Campaign exceeded its goal, according to Max Levine, general chairman of the drive.

At the close of the Current campaign Aug. 31, gifts to the University totaled \$1,098,014. The 1968 goal was \$1,045,000.

A majority of the gifts are restricted to a particular area of the University. However, \$190,341 in unrestricted funds were received during the campaign.

Gifts during the 1967 drive totaled \$1,007,205, and the 1966 campaign received \$694,451.

Conducted by the University of Houston Foundation, the annual fund raising drive was begun in 1960 to enable the University to accelerate its growing program of excellence. The additional financial support adds valuable extra dimensions to the totality of experience available to more than 23,000 University students.

During the 1968 campaign, 350 volunteer workers called on almost 1,400 corporate, professional, individual and foundation prospects.

Prof elected to presidency

Dr. James L. McCary, professor of psychology, was named president of the Texas Psychological Assoc. at the close of its three-day Houston convention Dec. 7.

Dr. McCary was named president-elect of the organization at the 11th Inter-American Congress of Psychology held in Mexico City and served one year in that capacity. He will serve one year as president of the association.

A native Texan, Dr. McCary joined the University in 1948. He holds a BS from North Texas State University, and MS from the University and a PhD from the University of Texas.

He is the author of "Human Sexuality," a popular marriage manual and college text. His other books include "Six Approaches to Psychotherapy" and "Psychology of Personality."

Dr. McCary is also a member of the Southwest Psychological Assoc. and the American Psychological Assoc.

Coed is editor of Daily Cougar

The University's Student Publications Committee has elected Ann Trueheart, senior journalism major, spring editor of the Daily Cougar, student daily newspaper.

The 21-year-old coed is the daughter of Mr. and Mrs. John H. Trueheart, 10510 Moorberry.

Miss Trueheart was also editor of the Daily Cougar during the summer of 1968.

Faculty program funds research

The University's Research Committee has announced 10 awards totaling \$19,596 for Research Initiation Grants under the Faculty Research Support Program.

The purpose of the grants, which are assembled from various sources, is to stimulate faculty research projects. The program is administered internally through faculty action rather than from external appropriations.

Referred to as "seed money," the funds are used to initiate research or to complete a critical phase of research in progress which cannot be covered by regular departmental budgets. The work thus supported usually attracts additional funds from outside sources. Applications for the awards are considered from all areas of the University.

Saunders is new director of projects

John R. Saunders, Jr., formerly with United Fund in Houston, has been named director of development projects at the University.

Saunders replaces John Abbott, who recently left the University to enter private business.

A native of Huntsville, Saunders earned a bachelor of business administration degree from Texas A&M University. He has served as an officer in the U.S. Air Force.

Married and the father of three children, Saunders is active in Little League baseball and football.

UH receives \$20,000 from Humble

The University has received a \$20,000 grant from the Humble Oil Education Foundation. Presentation of the grant to Dr. Philip G. Hoffman was made by Dr. Charles F. Jones, president of Humble Oil and Refining Co.

Allocation of the grant includes: \$10,000 to the program of excellence, \$2,500 to the College of Business Administration, \$5,000 to the Cullen College of Engineering and \$2,500 to the Bates College of Law.

The grant is part of the \$393,000 being awarded by the Humble foundation to 95 American institutions of higher learning during the 1968-69 academic year.

Anderson Memorial Library Receives Gift

Author Jan De Hartog and Mrs. Marian Orgain, curator of special collections for M.D. Anderson Memorial Library, look over materials used during the writing of De Hartog's book, "The Captain," which the author has donated to the University. The gift, containing notes, plans, manuscripts and proofs compiled during preparation of the book, will be housed in the Special Collections Room of the Library.

Dorm counselor believes in 'home-grown morals'

"When I am able to help a confused coed start to untangle her problems; when I can reconfirm a girl's home-grown morals, which have been shaken by today's liberal and progressive thinkers; or when I receive a Christmas card from a coed I have had to place on social probation, I feel the rewards of serving as women's dorm counselor."

Role Broadened

The words of Mrs. Bonnie Hellums, women's dorm counselor for Residence Halls, emphasize her feeling that the traditional role of the dorm counselor as disciplinarian has been broadened to include that of counselor.

This broadened role prompts Mrs. Hellum to consider her job a 24-hours-a-day one and to place herself on constant call. Just 25-years-old herself, she thinks that her age is to her advantage, since coeds are probably more likely to discuss personal problems with a younger woman.

Outside Pressures

"I feel that students, especially here, are affected by outside pressures," says Mrs. Hellum. "They are more keenly aware of world situations, politics and social injustices in our society. These students question everything. They are taught and,

indeed, feel obligated to ask why to all our traditional mores. Having a campus in a large metropolitan area also makes a big difference in the pressures students meet."

Mrs. Hellum believes that potential leadership among women is much greater today than a few years ago. Because of this, she says, "We try to involve our students in much of the advisory work in making rules for Resi-

dence Halls. This is one way to give women a chance to become leaders."

Women's counselor in charge of all women's housing at the University, Mrs. Hellum came to UH in August, 1966 to work as head resident counselor for a single dorm of 250 girls. She received a BA in psychology from Southern Methodist University and a ME from the University of Illinois.

Alumni Class Notes

1948

U.S. Air Force COL. WALLACE J. MCKENZIE, BS '48, is commander of A Flight, 4th Special Operations Squadron at Da Nang Air Base, Vietnam.

Gomez

Shivdasani

Slife

1950

LT. COL. JOSEPH B. STARKER, BBA '50, is attending the U. S. Army War College in Carlisle Barracks, Pa. The college prepares senior officers of all services, as well as top officials in government agencies, for staff and command positions in the field.

1951

GERALD M. BEAN, MA '51, has been awarded the Dr. William E. Upjohn Award for outstanding achievement in 1968. He is Dallas area sales manager for The Upjohn Co.

1953

U.S. Air Force SMSG WILLIAM J. DONNELLY, BA '53, has been decorated with the Vietnam Medal of Honor, Second Class, for outstanding service as a weather forecaster for the Vietnamese Armed Forces. He served in the Southwest Pacific during World War II and is a veteran of the Korean War.

1958

U.S. Army MAJ. JAMES F. WILSON, BS '58, has received the Bronze Star Medal in Vietnam for meritorious service as deputy director of Services, Headquarters Area Command, Saigon, from April to December, 1968. He also holds the Army Commendation Medal and the Air Medal.

1959

E. EARL LLEWELLYN, JR., ABA '59, has joined McCormick & Co., Inc. as assistant to the vice president and director of corporate public relations. The Baltimore based firm is one of the world's leading producers of spices, flavoring extracts and other food products.

1961

CAPT. DONALD J. LANDESMAN, BS '61, has completed the medical service officer basic course at Brooke Army Medical Center in Ft. Sam Houston, Tex. The five week course provides basic branch training and orientation for newly commissioned Medical, Dental and Veterinary Corps officers.

1962

U.S. Army CAPT. JOHN W. HOWARD, BBA '62, has received the Bronze Star Medal for meritorious service in ground operations against hostile forces in Vietnam. He is supply officer for the 34th Engineer Group.

DR. WAYNE G. SLIFE, PhD '62, has been appointed vice president and general manager, North America farm machinery group, for Massey-Ferguson Ltd. In his new capacity he is also president of Massey - Ferguson Industries Ltd. and of Massey-Ferguson, Inc., Canadian and American subsidiaries, respectively, of the parent company.

1963

BRYANT L. MANNING, BBA '63, has been named vice president and trust officer of Houston Bank & Trust Co.

1964

U.S. Army CAPT. JAMES P. GASTON, BS '64, has received the Bronze Star Medal for meritorious service in military operations while in Vietnam from September, 1967 to September, 1968. While stationed in Vietnam, he was chief of the adjutant general administrative services division Headquarters, I Field Force.

1965

BOB JARRARD, BBA '65, and WILLIAM L. EDDLEMAN, JR., BS '65, have been named trust administrative officers of Houston Bank & Trust Co.

1966

GREGORY W. HAYES, BBA '66, has been promoted to the rank of captain in the U.S. Army. He is serving with Headquarters, U.S. Forces Support District, Sud Bayern, Germany.

1LT. WILLIAM M. KNOWLES, JR., BA '66, has received the U.S. Army Commendation Medal for meritorious service with the 64th Artillery Group in Duncanville, Tex. He is currently serving with the 930th Medical Detachment in Vietnam.

CAPT. CHARLES T. MARVIN, BBA '66, has received the U.S. Army Commendation Medal for heroism in action while engaged in ground operations against a hostile force in Vietnam. He is assistant operations and training officer of the 269th Combat Aviation Battalion. He also holds the Silver Star Medal and the Purple Heart.

1967

PFC JOHN D. GINRICH, BBA '67, has received the U.S. Army Combat Infantryman Badge for sustained ground contact against an enemy. He is assigned

to Troop B, 2nd Squadron of the 4th Infantry Division's 1st Cavalry in Vietnam.

1968

MISS KATHY AHR, BS '68, is a stewardess with Delta Air Lines, after completing a four week course at Delta's Stewardess School in Atlanta, Ga.

AIRMAN WILLIAM M. CHRISMAN, BA '68, has been graduated from a U.S. Air Force technical school at Sheppard AFB, Tex. Trained as a medical services specialist, he will remain at Sheppard for further training.

AIRMAN JIMMY R. CHRISTEN, BBA '68, has been assigned to Sheppard AFB, Tex., for training in accounting and finance, after completing basic training at Lackland AFB, Tex.

2LT. JAMES D. FAGAN, JR., BA '68, has completed with honors an ordnance officer course at the U.S. Army Ordnance School at Aberdeen Proving Ground, Md.

RICHARD H. GODEKE, JR., BBA '68, has been commissioned a second lieutenant in the U.S. Air Force upon graduation from Officer Training School at Lackland AFB, Tex. He has been assigned to Laredo AFB, Tex., for pilot training.

ANTHONY R. GOMEZ, BS '68, has been commissioned a second lieutenant in the U.S. Air Force, after graduating from Officer Training School at Lackland AFB, Tex. He is assigned to Ft. Meade, Md., for duty.

MICHAEL E. GRUCHALLA, BS '68, has been commissioned a second lieutenant in the U.S. Air Force upon graduation from Officer Training School at Lackland AFB, Tex. He is assigned to Kirtland AFB, N.M., for duty.

GEORGE A. HARRIS, BS '68, has been commissioned a second lieutenant in the U.S. Air Force, after graduating from Officer Training School at Lackland AFB, Tex. He is assigned to Williams AFB, Ariz., for pilot training.

AIRMAN WILLIAM R. JOHNSON, BS '68, has been assigned to a unit of the Air Training Command at Lowry AFB, Colo., for training and duty as a radio and t.v. production specialist. He completed basic training at Lackland AFB, Tex.

AIRMAN ROBERT E. MORROW, BS '68, has graduated from a U.S. Air Force technical school at Lowry AFB, Colo. He was trained as a supply inventory specialist and has been assigned to a unit of the Aerospace Defense Command at Otis AFB, Mass.

AIRMAN HERBERT T. PARKER, BBA '68, is on duty with the Pacific Air Forces at Phu Cat Air Base, Vietnam, as a munitions specialist.

RAMESH H. SHIVDASANI, MS '68, has joined Shell Oil Co. as an analyst in the data control department at the firm's Houston Data Service Center.

ROBERT B. TREVATHAN, JR., BS '68, has been commissioned a second lieutenant in the U.S. Air Force upon graduation from Officer Training School at Lackland AFB, Tex.

NCAA lifts grid probation; Cougars eye '69 bowl game

There could be a regional or nationwide television broadcast in the University's football future.

Or perhaps even a bowl game. These bright spots on the horizon reappeared Jan. 9 when the National Collegiate Athletic Assoc. formally lifted a three-year probation that began for University football teams in January, 1966.

Probation prevented Cougar football teams from appearing on television or in bowl games.

"We are very happy to have this all behind us," said Athletic Director Harry Fouke. "Now we can all concentrate on next season."

It is impossible to estimate the amount of money that the University lost because of the probation, but it is certainly more than \$250,000. Each of the past three Cougar football teams would have appeared in bowl games and it is almost certain that in one of the three years a national television broadcast involving Houston would have ori-

ginated from the Astrodome.

Cougar teams posted 8-2, 7-3 and 6-2-2 records during the probationary period and led the nation in total offense for all three seasons.

"I'm sure that our coaches and players are just as happy

as I am," said Head Coach Bill Yeoman. "This has got to give a lift to our recruiting this season, too."

The Cougars will have six of 11 offensive starters returning next fall, but only four of the defensive unit's starters will be back.

Post-season honors for Yeoman & Co.

Six University seniors and Head Football Coach Bill Yeoman received post-season honors for their efforts during the 1968 football season.

Fullback Paul Gipson, defensive back Johnny Peacock and defensive end Royce Berry were named to one or more All-America teams.

Yeoman was invited to coach in both the Blue-Gray and the East-West football games after being nominated for Coach of the

Year honors by the American Football Writers Assoc.

Gipson and Peacock joined teammates Chuck Odom and Cliff Larson as members of the South team in the Blue-Gray game at Montgomery, Ala. Gipson and Peacock also played in the Hula Bowl and Senior Bowl games.

Tri-captain Bill Cloud was a member of the West squad in the annual East-West Shrine game in San Francisco.

Veer-T leads Cougars to national record

Although its offense has been copied and varied by many teams in recent months, only the University of Houston football team has been able to lead the nation in total offense for three consecutive seasons.

And the Cougars set an all-time NCAA record in 1968 to add icing to the cake.

Houston's Veer-T option play has been the bread and butter play for the Cougars, who have averaged an amazing 475 yards per game for their last 30 games. During the 1968 season, the explosive Cougars gained 562 yards per game, more than 80 yards per game over the record set by Nevada in 1948. Houston also added the national rushing title last fall, rolling up 361.7 yards per game on the ground.

Since the Cougars began running the option play from a split backfield as no other team was running it - blocking neither

the tackle nor the end-Houston's football fortunes have risen constantly. UH's record for the past three seasons is 21-7-2 and the Cougars have three finishes among the nation's top twenty teams to show for it. No other team in Texas has been able to make such a showing.

Unlike an earlier option play run by Homer Rice, now head coach at Cincinnati, Houston runs from a split backfield and does not block either the tackle or the end. Rice's option play depending upon blocking the end. This is what makes the Houston option play devised by Houston Coach Bill Yeoman and his staff so much different from its fore-runners.

"I don't know where the name triple option came from," says Rice. "We read the tackle, but we blocked the end on a play we used in the Fifties at a Kentucky high school, so it was not the same play."

"It's completely changed the conventional line of defensive thinking," says Yeoman, a former All-American center and team captain at West Point.

By not blocking the defensive tackle and end, Houston's tackle and end are free for downfield blocking and can put more pressure on the defensive secondary.

Basically, what it comes to, according to Yeoman, is threatening three holes at once while turning loose the two outside linemen on the line of scrimmage.

The fullback hits the seam between the guard and tackle and puts a soft squeeze on the ball. He does not know whether or not he will get the ball. This depends on how the quarterback reads the reaction of the defense. If the defense closes the inside. The

quarterback withdraws the ball and runs the option on the end.

Yeoman first began running the veer-option in the spring of 1964. Refined many times since then, Houston's option is now used by many teams, including the University of Texas and Texas A&M University.

And it is no wonder that other teams have tried to emulate the Cougar attack. Houston gained 532 yards against Georgia's Sugar Bowl team, 573 against Ole Miss' Liberty Bowl champions and outgained Texas' Cotton Bowl champs 408 to 314.

With so many opponents expected to run the offense next season, Yeoman and his staff are now trying to find a way to stop it. Judging from Houston's offensive figures, it might be a pretty tough task.

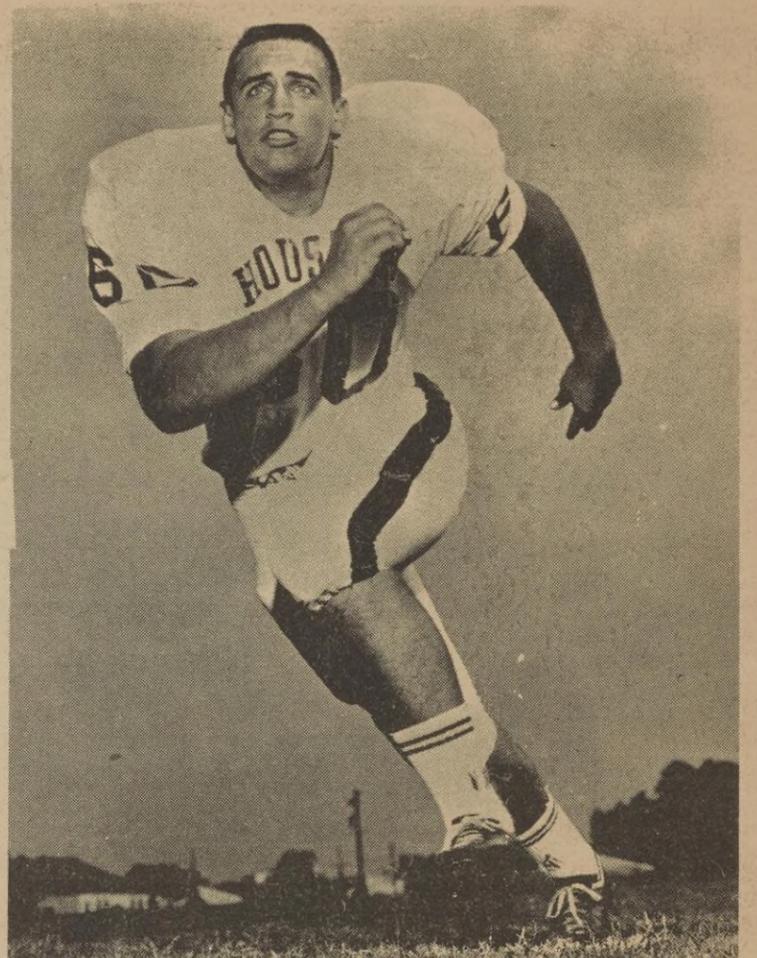

Tickets left for Dome tilt

Tickets are still available for the UH - Notre Dame basketball game Feb. 1 in the Astrodome.

Mezzanine and field level tickets are \$5 each, loge tickets are \$4 and upper level seats are \$3.

A crowd of more than 25,000 which would be the second largest crowd ever to see a college basketball game, is expected to be on hand for the game featuring two of the nation's greatest independent athletic powers.

Houston and UCLA set the all-time collegiate attendance record last year in the Astrodome, drawing a crowd of 52,693.

Selected for Blue-Gray Game

Cougar defensive tackle Cliff Larson was a member of the South team in the 1969 Blue-Gray football game held in Montgomery, Ala., along with fullback Paul Gipson, defensive back Johnny Peacock and tackle Chuck Odom. In all, six UH senior gridgers were selected for post-season honors after the 1968 season. (See related story, column 2.)

UH nine will play 48 games in 1969

University Baseball Coach Lovette Hill has announced a 48-game schedule for the 1969 season.

The Cougars will play 33 games at home in their new stadium on Cullen Blvd., between Elgin and Holman Sts.

Catcher Phil Rose, a .348 hitter last spring, and Jim Sparkman, who tied for the team lead in home runs last year with six are among the top returning players. John Post, the team's leading pitcher with a 2-0 record and a 1.95 earned run average, is also returning.

Houston posted a 15-16-1 record last spring, winning eight straight games after the completion of the new field to set a school record for consecutive victories.

Season to begin for track team Mar. 1 at Butler

An invitational meet at Butler Stadium Mar. 1 will kick off a 13-meet track schedule for the 1969 University track and field squad.

Coach Johnny Morriss' team, which made a fine showing in the Sugar Bowl meet in New Orleans during the Christmas holidays, will also make two more Houston appearances.

The Cougars will host another invitation meet Mar. 29 and will once again host the Meet of Champions May 30.

Grid film available

"Spell Houston With A Big O," a 29-minute color high-light film of the 1968 Cougar football season, is available to University alumni groups and service clubs.

Narrated by sportscaster Harry Kalas, the film recaps all of the plays that made the Cougars the all-time NCAA record holder in total offense.

For reservations, contact Mrs. Dorothy Gallerano at the University Football Office, 748-6570.
