## Israeli Independence

UH Rabbi Shaul Osadchey, director of Hillel, prepares falafel with pita bread as part of Israel's 32nd Independence Day Celebration Monday in front of the UC. Below, a student samples falafel while browsing through an exhibit about summer programs in Israel.

## Cure for shutterbug itch

# Summer photo class offered

For the first time during a summer semester, photojournalism will be offered at UH. But students beware—the course number in the catalog is wrong, and students should check today with the Journalism Department before registration to get the right number.

News Photography I will be offered as a day course during the first summer session and as a night course during the second session.

The course will include instruction on how to load and operate a camera, how to develop black and white film and how to develop pictures, Ken Kobre, assistant professor of

photojournalism said. Kobre said the registrar's office had made an error on the time of the course, and students should call 749-1745 for the correct course assignment.

Staff Photographer for the *Houston Post* Jim McNay, who will teach the night course, said the course would include lectures, darkroom instruction and photo assignments to be done outside of class.

"When students finish this class they will know how to handle a camera and what is involved in being a photojournalist. They will know whether they want to pursue a career in photojournalism," McNay said.

The day course will be taught

by Tim Bullard of the *Houston Chronicle* from 10 a.m. to 12 p.m., Monday through Thursday. The course is incorrectly listed in the summer schedule at 8 to 10 a.m.

Students interested in taking the course should drop by Room C-227 in the Communications Building where a sign-up sheet will be posted. According to Kobre, there will be a limit of 15 students per class.

Kobre said owning a camera would be helpful, but that the school will provide all darkroom equipment and chemicals. Students will have to pay for film and processing paper.

# Europeans may stop importing Iranian oil

LUXEMBOURG (AP) —Common Market foreign ministers, debating what steps Western Europe should take in the U.S.-Iran crisis, are ready to recommend stopping imports of Iranian oil, drastically reducing diplomatic contacts and banning arms sales to Iran, diplomatic sources said Monday.

If that does not pressure Iran into releasing the 50 U.S. Embassy hostages, the nine-nation Common Market would be prepared to end all trade with the Iranians, the sources said.

The foreign ministers, who opened their meeting here Monday, were expected to announce the anti-Iran steps Tuesday.

Earlier Monday, Australia became the second Western country to follow President Carter's lead by ordering economic retaliatory steps against Iran.

The Australian Cabinet decided to discourage non-food exports to Iran by denying Australian firms export incentives, subsidies and tax concessions for such trade, and to limit insurance coverage for Iran-bound goods.

Portugal was the first to join the U.S.-led sanctions, imposing a

total ban on Portuguese-Iranian trade last week.

The two-stage Western European plan calls for reduction of embassy staffs in Tehran and similar cutbacks at Iranian missions to Common Market countries. Prohibition of arms sales to Iran and a cutoff of all purchases of Iranian oil, the sources said.

If these actions do not help win the hostages' release, all trade relations between the nine nations and Iran would be broken.

Some sources said the second, tougher stage would be implemented by May 15 if the hostages were not released, but this could not be confirmed.

U.S. officials had indicated Carter might want to keep some of the multi-national moves in reserve until next month.

The European plan, proposed by Britain last week, has received widespread support, even from France, which earlier was viewed

as unwilling to take such strong measures.

A high-ranking French diplomat said, "We accept the proposal."

A German source said that to do less than the British proposal would damn Europe in the eyes of American public opinion "and that's too high a price to pay."

A British source said his country would be willing to discuss the possibility of increasing its output of North Sea oil to fill the void left by the ban on Iranian oil, which now accounts for about 5.5 percent of the Common Market's oil imports.

Since the revolution that toppled Shah Mohammed Reza Pahlavi last year, Common Market countries have drastically reduced their dependence on Iranian oil. Holland, for example, obtained 55 percent of its oil from Iran in 1978 but has cut that figure to 6 percent.

## Science, math faculty top teacher awards list

By KATHY GRIMES  
Staff Writer for The Cougar

Science, arts and humanities teachers dominate this year's list of faculty nominees for the 1980 UH Teaching Excellence Award.

Of the 22 full-time faculty members nominated, seven are from the College of Natural Sciences and Mathematics, six are from the College of Humanities and Fine Arts and the other nine are split among other UH colleges and schools.

Full-time faculty nominees for the 1980 award include: Dr. Richard Abrahamson, assistant professor of curriculum and instruction; Dr. Betty Barr, assistant professor of electrical engineering; Dr. David Clarke, professor of pharmacology; Dr. Florence Clemenger, professor of social work; Dr. John Coffman, associate professor of geology; Dr. Souhail El-Asfour, assistant professor of computer science; Dr. John Evans, professor of biology; and Dr. Robert Grinaker, professor of accounting.

Other full-time faculty nominees are: Dr. Albert Hirsh, professor of music; Dr. Bernard Kirkin, professor of mechanical technology; Dr. James Koetting, professor of optometry; Dr. Harold Kohn, associate professor

of chemistry; Dr. Scott Maxwell, assistant professor of psychology; James Lofstrom, adjunct professor of business technology; Dr. Thomas Metcalf, associate professor of business technology; Dr. Dennis Parle, assistant professor of Spanish; Dr. Emiel Owens, associate professor of finance; Dr. Lawrence Pinsky, assistant professor of physics; Dr. Henry Shanfield, associate professor of chemistry; Dr. Steven Sogin, assistant professor of biology; Dr. Lorraine Stock, assistant professor of English; and Dr. Robert Wren, associate professor of English.

Four winners of the \$2500 awards will be chosen from this group.

The award committee must choose four teaching fellows (TA's) from the five nominated for the award. These winners will receive \$1,000 each.

TA's nominated include: Nancy Ford, English; Ken Noll, biology; Gene Voss, English; Juergen Kleist, German; and Guler Phillips, English.

"There are more nominees from NSM this year than in the past," award committee Chair Roberta Weldon said. Winners will be publicly recognized at commencement exercises May 10, she said.

Editorial:

# Earth Day '80

By Presidential proclamation, today is Earth Day, 1980. President Carter has called upon citizens and government officials to observe Earth Day, with special emphasis placed on community activities and educational efforts aimed at protecting and enhancing our environment.

The first Earth Day, exactly ten years ago, marked the beginning of a watershed of legislation designed to protect the environment, a result of increased public awareness during the 1960s about the environment. That list of legislation includes: The Clean Air Act of 1970, establishing national ambient air quality standards; Clean Water and Safe Drinking Water Act, to ensure protecting watersheds and wetlands; the controversial Occupational Safety and Health Act, for protecting workers from physical hazards on the job; and the Coastal Zone Management Act, setting up regulations for management of shorelines and coastal waterways.

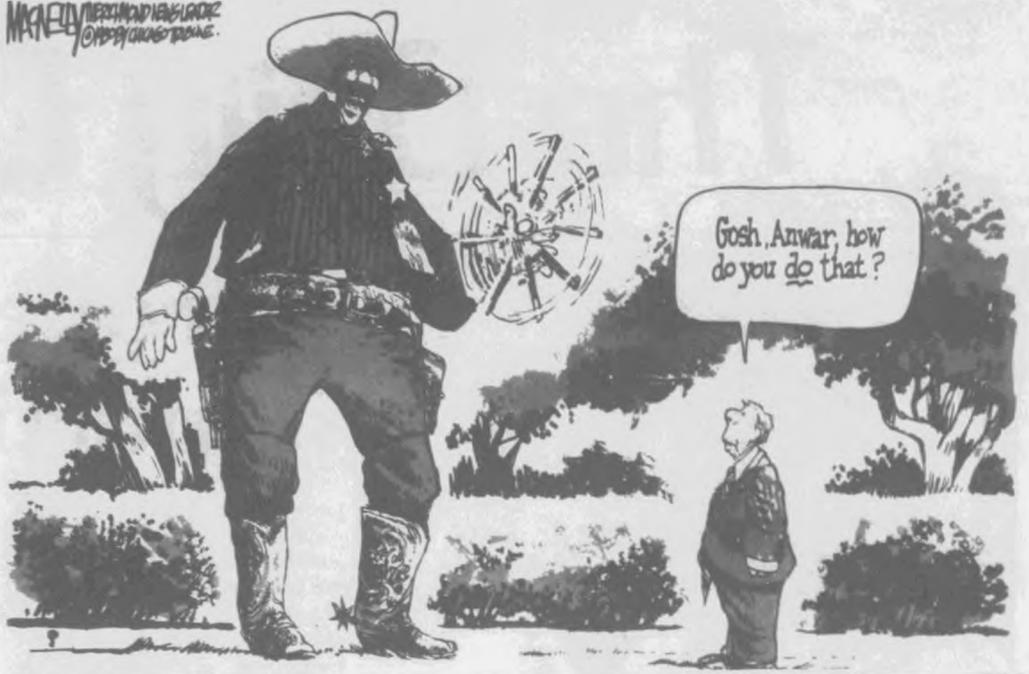

The most recent piece of legislation on the environment is the National Parks and Recreation Act of 1978, which made major additions to the Scenic Rivers and Scenic Trails systems and added eight million acres to the National Park System and Wilderness Areas.

This tenth anniversary of Earth Day marks the conclusion of a decade that saw enactment of significant environmental legislation by government on all levels and the launching of citizens programs that proved to be the driving forces behind getting that legislation.

Today, UH celebrates Earth Day with speakers all day in the University Center, most notably former Texas Sen. Ralph Yarborough at 12:30 p.m. and John Henry Faulk at 7:30 p.m. Yarborough is most noted for his successful efforts to create the Big Thicket, and Faulk for his outspoken crusades against land damage caused by strip mining.

The fight for a clean environment is just beginning. Research is making new technologies available to deal with a legacy of old problems that were staved off during the last decade. But there still remains the need for a comprehensive environmental policy, and that is impossible without public support. So investigate Earth Day today, for your own future is at stake.

## Responding to handicapped

In order to better respond to handicapped persons, one needs to know something about them. However, trying to describe what handicapped persons are like is as difficult as trying to describe what non-disabled persons are like.

Being handicapped does not give the person a separate and totally distinct personality unlike that of non-disabled persons. Disabled persons can and do fall in love, experience moments of happiness, times of sadness, and aspire to reach various goals. Contrary to a common misconception, most are capable of having sex.

If we try to respond to a "handicapped person," we may feel overwhelmed about how to deal with a type of person we know little about. But if we look at the person as a "person with a handicap," we can focus on and respond to the person as someone very much like others we are likely to meet. This can reduce awkward feelings when first interacting with a handicapped person because it may partially change our attitude

about them. Simply stated, the ease with which you respond to a handicapped person will in part be affected by your attitude toward the person.

Attitudes toward the disabled may be influenced by fear or simple lack of knowledge about disability. In spite of good intentions and adequate information, negative stereotyping still exists and often these attitudinal barriers go unrecognized. It may help to dispel some of the common myths about disability and replace these with some facts.

First is the myth that a disability is a constantly frustrating tragedy. The fact is that having a disability is more of an inconvenience than a tragedy. Most people with disabilities do not sit around and ponder their disability all the time.

The second myth is that all disabled persons are handicapped and—or crippled. These three words are often used interchangeably. The term crippled carries a strong negative connotation, usually implying that a

disability prevents someone from being a fully functioning member of society. It is important to note here that the person with a disability may have to do something differently from a non-disabled person, but that most activities of both have the same result and equal participation.

A third common myth is that abled-bodied people have an obligation to take care of people with disabilities. The fact is that some disabilities require a level of dependency on other persons and other disabilities do not.

There are other myths about disabled persons which could be dispelled with factual information. However, to discuss these probably would not add much to our knowledge of how to respond to disabled persons. Given all the similarities of non-disabled and disabled persons, it appears that the best rule of thumb when responding to a person with a disability is to respond to them as you would to anyone else.

john atkinson

## Crazies: it's too hard to tell

**How to deal with impossible situations:** There are really no good ways to deal with impossible situations.

Have you ever had an acquaintance that thought you were morally reprehensible for no particular reason? Something about your eyebrows, or maybe your walk, possibly the kind of shoes you wear, convinced a person that you were a mass murderer, biding your time and waiting for an opportunity or a clever jewel thief who the law has been unable to catch.

There is no way to deal with a person like this. I once had a Spanish teacher in high school who was convinced I was a bad egg. From the very first of the class, this guy constantly looked at me strangely and tried to ignore me. After a couple of semesters of

this, my grades dipped and I started ditching his class. I finally became the person he wanted me to be. He never gave me much choice, though. Letting a little poop like him get to me now would be highly unlikely.

More impossible stuff from we the people: I once had the opportunity to see two cousins trying to kill each other over a dollar one owed the other.

I was standing on the stage of a sleazy dive playing bass to a sleazy tune when the fight broke out. When the county boys separated the two, everyone in the band recognized them as cousins. We found out later that it was over a dollar.

Is this sort of behavior craziness? In this country, for a hell of a lot of people, it is the norm.

In the same club, an employee took a

regular (someone who hangs out in the bar a lot) out to a secluded area near the San Jacinto River and killed him with a pistol.

It was found out later that the guy took him out there under the pretext of selling him marijuana. On getting there, the guy took him into an old army ordinance shed where he had an altar set up and killed him as part of some sort of religious rite.

This guy, the murderer, was at the place every night. He played foosball with the members of our band and seemed like a good guy. The other guy was just passing through.

One summer in high school, I worked as an attendant in a parking garage. My night boss was the father of some current celebrities, but he was only famous for

giving crazy instructions and making ridiculous demands on the employees (except his cronies). His silliest demands were shoving dirt, with brooms, up and down the ramps of the garage. When he tired of this foolishness, he moved on to having us block off lanes, thereby screwing up traffic.

One night, an employee in one of the booths was told to begin counting his money during one of the rush hours, thereby putting the stress on his buddy in the other booth. He wiggled out, screaming and waving his arms at the supervisor. It was the end of his run, though he was a speedy cashier. The supervisor continued there for years. Pick the crazy one.

I've never been able to tell much difference.

Corporations - a necessary evil

## Public mistrust unfounded

To the Editor:

The American public's mistrust of corporations is unfounded. Many people have gotten the idea that corporations act only in the interest of maximum profits. The big oil companies have in particular come under fire. We would do well to get energy costs in perspective. The profits of the oil companies were only ten percent of the profits reaped by OPEC last year. The American consumer needs to grow up and realize that the energy crisis is not caused by corporate manipulation. It is caused by our own excessive consumption and our subsequent dependence on foreign nations for half of our oil. At least when the oil companies make profits this money is reinvested in the search for energy. The 100 billion dollars we are sending to OPEC this year is lost forever and only serves to erode the dollar's value.

We must at least accept corporations as a necessary evil. Complex projects require huge investments of money and manpower. Mom and pop operations cannot finance the drilling of offshore oil wells or the construction of power plants. A company also needs to be large and sophisticated to compete on the international market against very able Japanese and European competitors. We must have substantial exports if we are to have any chance of being able to

pay for our huge oil imports. Huge balance of payments deficits will prevent us from ever getting a grip on inflation. The Japanese are our principal competitors and they are wise enough to know they cannot afford the luxury of harassing the corporations that are the backbone of their economy.

We already have so much government regulation that corporations have to hire armies of lawyers to deal with the bureaucracies. Government interference is a major drag on our corporations' ability to compete in the marketplace. This year the Japanese auto industry is replacing the American auto industry as the world's largest. I

suppose Nader's Raiders feel a deep sense of accomplishment in having brought a powerful American industry to its knees. However, I bet the 200,000 laid-off auto workers wish someone would bring Nader's Raiders to their knees. Is the consumer movement's goal that ultimately every corporation will moribund like Chrysler and have to lay off its workers? It is true that we can return to the romantic ideal of being a nation of small farmers and shopkeepers if we harass our corporations out of business. The only problem is that we will have to return to 1910 living standards in order to accomplish this.

## Police, beer goes together?

To the Editor:

I'd like to take the opportunity to praise our campus traffic and security on what a fine upstanding job they are doing! This past Sunday afternoon while walking through Lynn Eusan Park, I and a fellow dormie had a chance to see our great police force or whatever in action. Uniformed officers were polite enough to lower themselves to converse and drink beer among the common folk while they were

apparently on duty. This may be great for public relations, but I question their consumption of alcohol while on duty. I guess to each his own. I just hope those bullets are not really filled with gunpowder and they keep those damn guns pointed away from me if they are. I wonder if this is where Dibrell and Bell got their ideas!

## Briefly... from the Associated Press

### World

TEL AVIV, Israel —Tens of thousands of nationalist Israelis marched through the occupied West Bank to Jerusalem to mark the 32nd anniversary of the founding of the Jewish state.

### National

INDIANAPOLIS —Delegates representing 9.6 million United Methodists voted on whether to send a message to Ayatollah Khomeini regretting past Western imperialism and asking him to free the U.S. hostages. A vote is also planned on the issue of ordaining homosexual ministers.

WASHINGTON —The Supreme Court heard arguments in a case that could determine whether the government should pay for "medically necessary" abortions for poor women.

### State

AUSTIN —Railroad Commissioner Jim Nugent defended retroactive gas rate increases, announced five endorsements and contended his opponent, Jim Hightower, "represents the point of view of Northeast left-wingers."

LUXEMBOURG —Common Market foreign ministers met to discuss the U.S.-Iran crisis, and conference sources said the Europeans are leaning toward a two-step pressure campaign—reducing their diplomatic missions in Tehran, possibly followed by economic sanctions.

PHILADELPHIA —Sen. Edward M. Kennedy, "cheerfully uncertain" but hoping for an upset victory over President Carter, addressed a mass rally to cap an intensive campaign in Tuesday's Pennsylvania primary. For Republican George Bush it may be his last chance to overcome front-runner Ronald Reagan's drive toward the GOP nomination.

ATLANTA —With the judge telling them to "disregard any appeal to their sympathy," 12 jurors prepared to deliberate federal bank fraud charges against Bert Lance and three co-defendants.

PHARR —Public health officials, farmworkers and growers discussed potential hazards of pesticides at a two-day conference. An Environmental Protection Agency official said his office will investigate the problem more in the future after increased reports of illness from those working near and in sprayed fields.

Ex-President Hoffman honored

### Building dedication Sunday

By RHONDA EMERSON  
The Classroom and Office Building will be renamed Philip Guthrie Hoffman Hall in honor of President Emeritus Philip G. Hoffman in a dedication ceremony Sunday, April 27 at 3 p.m. in Butler Plaza.

Attendance for the dedication and following reception is by invitation only. Members of the faculty and administration, officers of the Students' Association and various friends of Hoffman are invited, Walter Williams, UH Director of Institutional Events, said.

Students were not invited, Williams said, because "it would be hard to have 30,000 students on hand. It is a logistics problem." Williams went said if anyone wanted to attend the dedication, they would not be turned away.

The building's design received the top award from the Texas Chapter of the American Institute of Architecture. It was designed by architect Kenneth Bentsen and Associates and was completed in 1974. Bentsen is an alumnus of the UH College of Architecture.

The C&O Building houses the departments of sociology,

geography, political science, anthropology, mathematics and computer science, as well as the office of the dean of the College of Social Sciences.

Speaking at the dedication will be Aaron Farfel, Chairman of the Board of Regents for 1971-1979;

Willard Walbridge of the Houston Chamber of Commerce Board of Directors; Allen Going, UH Professor of History; Charles Bishop, UH Systems President; Leonard Rauch, UH Board of Regents' Chairman; and Chancellor Barry Munitz.

### Panhellenic Association gives scholastic awards

The University of Houston Panhellenic Association honored members Wednesday with the presentation of scholarship awards, with most of the awards for GPA's above 3.5.

Karen Auffarber, President of Panhellenic and member of Alpha Chi Omega, opened the ceremony with the reading of the Panhellenic Creed which states the national organization's objectives: good scholarship, service in the college community and cooperation for furthering fraternity life. Auffarber said, "The ultimate goal of Panhellenic is to build a stronger Greek system on campus." The awards presentation served to recognize those Greek women who have achieved academic excellence.

Recipients of scholarship awards for the best pledge and best senior active were chosen on the basis of the number of hours taken and the semester GPA. Phi Mu's Denise Latham, with a GPA of 3.7, was presented the Best Pledge award. Tricia Balette of Delta Zeta won the Best Senior Active Scholarship title with a GPA of 3.83, and Chi Omega Sorority achieved the Highest Chapter GPA, 2.95.

Outstanding scholars, those with a GPA of 3.5 or higher, were presented certificates. Alpha Chi Omega's Dona Barclay, Carol Bert, Elizabeth Cosby and Patty Mayberry were recognized, as were Michelle Canales, Wilma Cartagena, Denise Claghorn, Carolyn Crofton, Patricia Balette, Barbara Duvall, Terri Larks and Brenda Tobias of Chi Omega. Award winners Denise Latham, Phi Mu, and Zeta Tau Alpha's Kellye McDade and Stephanie Myers were also presented certificates.

Robin Shornick of Delta Gamma was named Pledge of the Year and Chi Omega's Cathy Coers was chosen Senior of the Year. Brenda Tobias, Delta Zeta, received the Houston alumnae Panhellenic scholarship.

UH President Charles Bishop was guest speaker at the presentation, and stressed the importance of high standards of scholarship and noted the "fundamental prerequisite, self-esteem" was evident among those honored. "I support the Greek system; it's not well enough developed on this campus," Bishop said. "I wish we had a fraternity row and I'd like to bring that dream to reality."

## UH golf team captures SWC honors

By JULIE MAUDLIN  
Sports Writer for The Cougar

The Cougar golf team won its seventh consecutive SWC golf title this weekend in Tyler on the strength of Ray Barr's five-under-par 67 individual title.

After the first day of play, the Coogs were tied for third with Arkansas at 293, ten shots off the pace. TCU was sitting in first with a 283.

TCU's John Tetens finished Friday with a 69, three-under-par, after he eagled the 472-yard par-5 14th hole. UH's Terry Snodgrass was the leading Cougar with a 72.

Saturday Snodgrass and Ray Barr came back shooting a five-under-par-67 to put the Coog team total in first place with a nine shot lead. The Cougars

finished Saturday's play with a 13-under-par total of 275.

Tetens, who was individual leader on Friday, shot a 76 Saturday and fell into a three way tie for seventh. Coog Snodgrass, who had won the tournament two years ago, sat alone in first place. Snodgrass shot a 67 Saturday and with his even-par 72 on Friday he sat at 139, five-under-par and one stroke ahead of teammate Barr who shot a 73 on Friday.

Cougar Fred Couples, defending individual champion, had a bad opening day on Friday shooting a 75 but came back on Saturday to shoot a three-under-par 69 putting him at 144.

On Sunday Barr won the individual title and led the Cougars to a record low score for the SWC

championship. Barr shot a 71 on the final round putting him at a 211 total for the 54 hole tournament. Barr was one shot ahead of teammates Snodgrass and Couples.

UH finished the tourney with an 854, 16 strokes ahead of second place TCU with an 870. Texas finished third shooting an 889 and A&M finished fourth with an 897.

Barr's final round of a 71 gave him the individual title and earned him a spot in the National Invitational Tournament at the Colonial Country Club in Fort Worth May 1.

"After my eagle on 14, I started thinking about the individual title," Barr said. "I wanted this badly and I got it."

## Stars take regional title; head for nationals

The Houston Stars, an amateur volleyball team consisting of members of the UH volleyball team, won their regional tournament this past weekend in San Antonio.

San Antonio was the first team that the Stars defeated on their way to the regional title, 15-2, 15-3. St. Phillips College was the next team the Stars took on, defeating them 15-9, 15-12. The Stars played Texas Lutheran College and beat them 15-10, 15-8. In the semifinals, the Stars defeated Lamar 15-6, 15-6. The Stars played UT in the finals to take the tournament 15-9, 15-12.

"We really did well in this tournament," Coach and Player Ruth Nelson said. "I think what helped was that everyone was healthy and we had a full squad playing."

The 12 members of the team are Donna Dusek, Cindy Gregory, Pattie Richards, Rosie

Eichenhorst, Glinda Halamicker, Darlene Meyer, Rose Magers, Sherryl Moore, Debbie Sokol, Jennifer Giese (a freshman recruit who will be playing for the Cougar team in the fall), Claudia Lee and Coach Nelson. Loren Za-

wolinski, a member of the Stars, did not play because of torn ligaments in her ankle and will be out for the rest of the season.

The Stars will be leaving May 8 for the nationals May 13-17 in Portland, Oregon.

## Cougars play Pan Am today

The Cougar baseball team will take on Pan American today at 1 p.m. at Cougar Field.

After taking a doubleheader from the Owls on Saturday, they are hoping to continue their winning streak. A win will give momentum to the ailing Coogs who finish Southwest Conference play at home this weekend against Baylor.

Coog Terry Bryum's home run on Saturday puts him two short of tying the record set by Tom Paciorek during a three year span 1966-68.

The last time the two teams met the Cougars stopped a Pan American 16-game winning streak by defeating Pan Am 3-2.

# Wheelchair Olympics fulfill dreams

By FRIEDA BEATY  
Staff Writer for The Cougar

Over 125 people, from as far away as California participated in the 5th annual Wheelchair Olympics over the weekend, sponsored by the Southwest Wheelchair Athletic Association.

Contestants from around the country met at the Robertson Field House parking lot Saturday and Sunday to participate in track and field events, swimming, table tennis, weightlifting and a wrap-up barbeque.

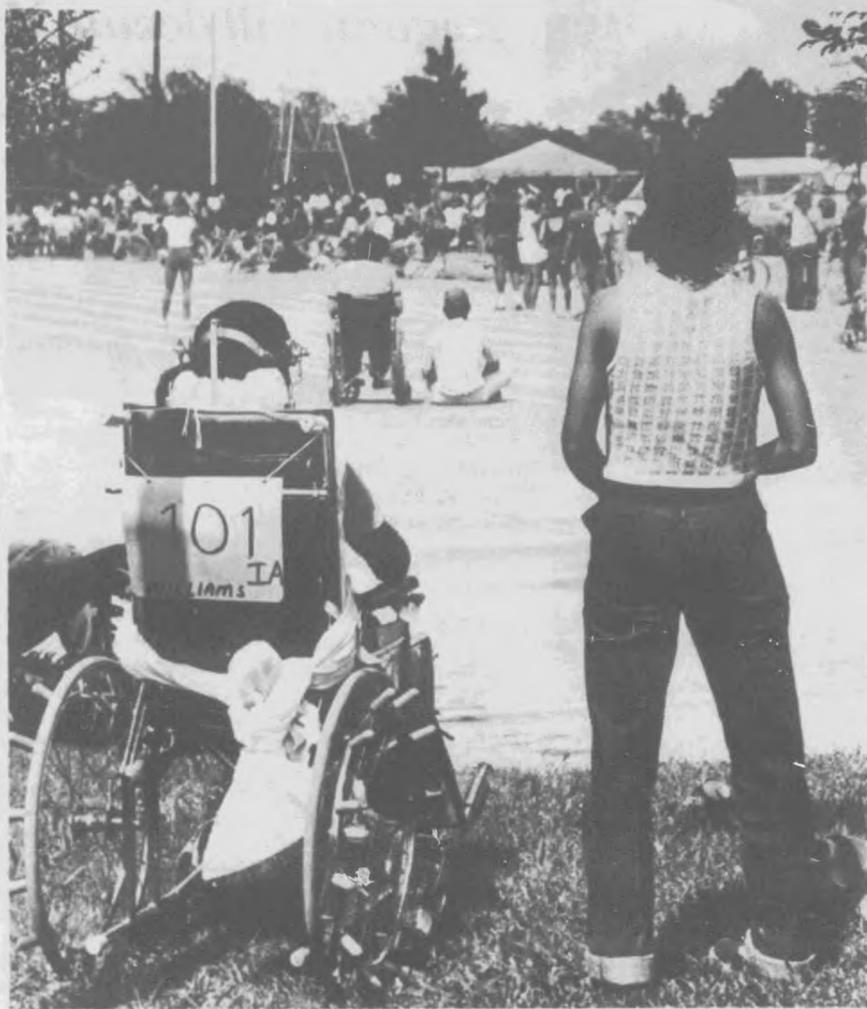

From the competition, 10 participants will go on to regional meet in Ohio next week. Judy Einbinder, a committee member of the SWAA, said the committee had planned to pick 10 people to go on to regionals, and fortunately exactly 10 people qualified. Einbinder said qualifications included top finishing times in more than one event.

Participants who will go to regionals include Don Rogers, Janie Robinson, Connie Head, Ernie Townsend, Jack Hasenyager, Steve Currier, Randy Snow, Eddie Espinosa, Jim Hayes and Bobby Richardson.

If the regionals, could go to and then represent the international

he participants qualify at  
als, Einbinder said they  
go to nationals in Illinois,  
hen may be selected to  
ent the United States at the  
tional games in Holland.  
k and Field events in the  
hair Olympics included 100  
200 meter, 400 meter, and  
eter races; shot put; discus,  
and club throws.  
e weightlifting competition  
Townsend lifted all the  
le weights, 300 lbs. "If we  
have had more weights, he  
have probably lifted more  
at," Einbinder said.  
er events included swim-  
tabletennis, archery,  
g and slalom.  
e slalom course is about  
fourths the size of a  
ball court, and it has  
flags, and other obstacles  
ave to go through." Ein-  
said. In the slalom, the  
pant goes forward and  
ard throughout the course,  
over ramps, and under  
in the fastest time possible.  
aid the participant is also  
ed to do wheelies and 360-  
turns on the two back  
of the wheelchair.

## ACADEMIC ADVISING AVAILABLE

*for Unspecified Majors  
and pre-health  
profession majors*

**The  
Academic Advising Center**  
The Academic Advising Center  
Drop In: 125 E. Cullen

By Appointment:  
749-2401

Mon.-Tues.: 8 a.m.-7 p.m.  
Wed.-Fri.: 8 a.m.-5 p.m.

# ATTENTION!

**Nigerian or other students**

from

**U of H, Prairie View, UT  
and Texas Southern traveling  
home this summer:**

Pan American is offering a special  
low fare of **\$999.00** for the  
round trip from Houston to Lagos.  
The **deadline** for the \$100 deposit  
is Monday, April 28. Departure  
from Houston is May 20,  
returning August 23.

*For more information or reservations, contact:*

**Carol McCown at ABC Travels,  
977-9802 or evenings at 376-9932**

*If unavailable please contact:*

**Leo Aham at 749-4956 days, or  
643-9778 evenings.**

## REGISTRATION

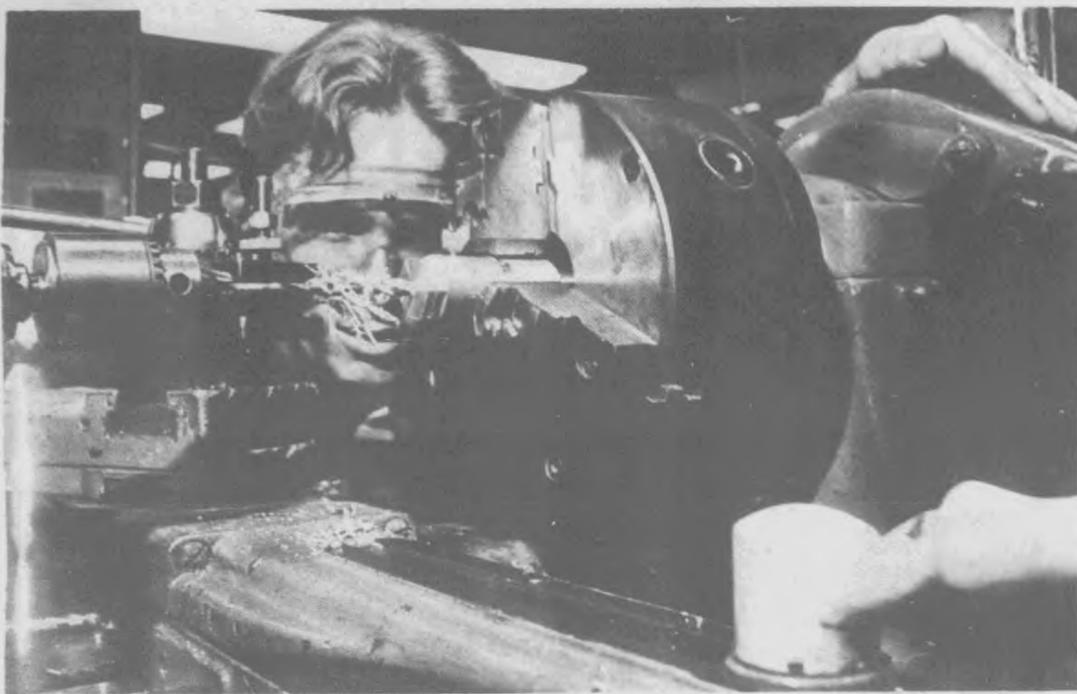

April 22

for former and currently enrolled UHCC students

- 1980 First Summer and  
12-Week Sessions

- Payment due:  
May 29-30

Class schedules available  
after April 14 in Room 108  
Ezekiel Cullen Building  
Registration and Academic Records

### Lathing away...

Photo by Betsy Brill

While most students are concentrating on term papers, projects, and finals, Jim Ward has his mind on other pursuits. Ward, a student in the School of

Technology, here practices center drilling on this metal lathe in the technology shop.

## Regents will decide May 5 on fate of dormitory project

By ALLISON TITCHENER

The UH Board of Regents will decide May 5 whether to build new dormitories at the intersection of Cullen and Wheeler.

"The May Construction Company has so far offered the lowest bid for the contract at \$4,190,000," Tom Martz, staff architect at UH Facilities and Planning, said.

Jerry Meyerson, project manager of May Construction Co., said the company had participated at the first bidding in late January this semester, but had dropped out because the bids were too high.

Meyerson said the May Co. bid was the only one turned in at the second bidding. There had been several other bids in the works, but the companies dropped out.

Martz said Facilities and Planning will recommend that the bid be awarded to May Construction, Co. along with the three alternate bids.

"The alternates recommended would cover additional service facilities such as office areas, laundry rooms and housing for the managers," Martz said.

"Construction should begin at

the end of May or the beginning of June," Martz said. "We still anticipate completion in August 1981." The housing project would be ready for student occupancy in the fall semester of 1981.

The new housing complex would replace the old soccer field and consist of ten, two-story buildings. Each building will have forty units and house 400 students.

"The total recommendation for the bid, including the alternates, will be \$4,734,700," Martz said.

The garden-type, two-story buildings, designed by Bernard Johnson, Inc. architects, will resemble an apartment complex as opposed to structures like the Moody Towers.

One bedroom suites with shared bathroom facilities will be available, and 20 units will be provided with special facilities for the handicapped.

Only the bleachers will need to be removed from the soccer field. The existing trees have been worked into the major landscaping plans for the building and the surrounding area.

Current dormitory facilities house 2,100 students.

### Production Coordinator

Geosource is a multi-national, NYSE listed corporation which utilizes state of the art electronic technology for the exploration, production and processing of natural resources.

Our electronic systems division currently has an excellent opportunity for an entry level production coordinator. A production/logistics management degree or related discipline is preferred.

Responsibilities will include production planning and control in a high technology job shop environment. General working knowledge of MRP and PERT is required.

This is a permanent position and offers an excellent opportunity for a career in manufacturing. We offer an excellent salary/benefits program and a convenient southwest Houston location. If interested, please send your resume to:

Supervisor of Employment  
Geosource, Inc.  
Electronic Systems Division

## Neighborhood built over chemical waste dump

# Some families still fighting at Love Canal

NIAGARA FALLS, N.Y. (AP) —Love Canal, once a neighborhood of modest homes, crab-grassed lawns and playing children, is now an eerie place. It looks like a forgotten prison camp.

An abandoned elementary school and 239 houses, their doors and windows covered with sheets of plywood, are ringed by a chain-link fence. No life stirs inside the fence, three-quarters of a mile long and two blocks wide, four miles from downtown Niagara Falls.

Underneath are the remains of more than 80 chemicals, the poisons that made children sick, caused miscarriages and birth defects and ultimately forced hundreds to desert their homes.

Love Canal was a man-made horror, an environmental disaster that occurred in a decade full of environmental progress following the first Earth Day on April 22, 1970.

New York state called it "a great and imminent peril to the health of the general public." President Carter declared the area a national emergency. It was featured on CBS-TV's "60 Minutes" and in an ABC-TV documentary called "The Killing Ground."

But more than 1½ years later, 750 families still live near the Love Canal, a former dumping ground for hazardous wastes produced by

the Hooker Chemical Co.

Of them, 550 want out. They feel their surroundings are contaminated by potentially lethal chemicals and fumes. But, they say, none can afford to move without compensation for their homes.

In 1978 and 1979, the state bought 239 homes within the site's "inner ring" and moved the families. Last November, the state promised \$5 million to move the 550 who lived several blocks away but also felt endangered.

Bureaucratic snags have slowed the process.

"They're not living here. Their families are not living here. If they were, they'd be off and running," Marie Pozniak, a spokeswoman for the Love Canal Homeowners Association, said of public officials involved.

"At this rate, we may not be seeing any of that money until August."

Part of the delay is because there had never been a problem like Love Canal with its questions

of corporate and governmental responsibility and of legislation that couldn't cope.

Other delays stem from unresolved lawsuits against what is now the Hooker Chemicals & Plastics Co. The state sued Hooker to try to recover some of its \$35 million costs. The EPA sued Hooker for \$124 million. And citizens have sued Hooker, the city of Niagara Falls, the city board of education and the state in actions totaling \$2.5 billion.

The canal was dug as part of a grandiose scheme by entrepreneur William Love to generate electricity for a model city.

When Love started excavation in 1892, electricity ran only on direct current, which was limited to short distances. His scheme was to produce power for his city from water falling from the canal into Lake Ontario.

But his plans collapsed with the development of alternating current. By 1910, when Love's 20,000-acre site was sold at auction, the Love Canal was just

an open trough.

In the 1920s, the canal was a swimming hole. In the '30s, the city used it as a municipal dump.

Then, for 10 years starting during World War II, Hooker dumped chemical waste into the ditch. In 1935 the company sold the site to the city for the token price of \$1. Against objections from Hooker and some citizens, the city covered it with landfill and planned a new neighborhood.

During hearings in 1953, Hooker said it had sealed the dump with only a clay cap but warned it could not guarantee the cap if the canal became a construction site.

Nevertheless, the city built a school—directly over the canal itself—and residents built houses.

Early on, homeowners complained of noxious odors. Kids played with "fire rocks"—stones that exploded in flame when thrown to the ground. Parents noticed rashes on their children's bodies.

In 1976, the first published

reports appeared, newspaper articles describing dangerous compounds—among them highly toxic PCBs and C-56—found in at least one home and in nearby sewers.

No government agency reacted. In March 1978, federal Environmental Protection Agency tests made at the urging of Rep. John LaFalce, D-N.Y., found extraordinarily high levels of benzene gas, a known carcinogen, in Love Canal basements.

The EPA reported the results to the state, but no immediate action was taken. Niagara County officials said the results didn't merit serious concern.

In May, as other studies produced evidence of at least 10 potential carcinogens, the state began its series of health tests.

The results, released in July, revealed an abnormally high number of birth defects and miscarriages, two to three times the norm, according to Dr. David Axelrod, state commissioner of health.

## Tours of campus made available by Host Program

UH is offering tours of the campus. The University Host Program, a newly founded service at UH, is running the tours.

"The Host Program is a service to citizens of Houston, prospective students and anyone else or any group interested in UH," Veronica Jacobs of admissions said.

Jacobs started the tour program March 1. "Since we started the program we've had Girl Scouts, senior classes (one class from Oklahoma), and even elementary school students," Jacobs added.

The tours are given every weekday at noon and 3 p.m. On Saturdays tours are given at noon only.

"The tours begin in the lobby of the Ezekiel Cullen Building at the information booth," Jacobs said.

"A person doesn't even need to call in advance for a tour, but if it's a group and especially more than 25 people it's a good idea to give us a call so we can get two tour guides lined up," she added.

"The tour guides are specially trained UH students that have been past orientation advisors or students trained to give the tours," Jacobs said.

### ENTRY LEVEL Oil & Gas Accountant

## Real Detective Comics Dibrell and Bell

McGINTY STOOD MUNTZ AGAINST THE WALL AND PISTOL-WHIPPED HIM. I LIKE COPS WHO CAN GIVE A THOROUGH INTERROGATION. "YOU'D BEST BE TALKIN' LADY," HE SAID.

"OKAY, OKAY!" MUNTZ GURGLING THROUGH A FACE FULL OF BLOOD. "WE WAS TRYIN' TO GET MORE MILEAGE OUT OF OUR GIRLS, SO THIS SHYSTER MOUTHPIECE TOLD US ABOUT THE BABY SCHEME."

I KICKED HIM IN THE GUTS. "WHAT'S HIS NAME?" "HIS NAME IS LEVITT, ABE LEVITT. HE WAS THE ONE WHO HAD THE GIRL'S MOM KNOCKED OVER. WE WAS GETTIN' LUSH UP FOR THE FALL..."

Massenet: WERTHER  
Elena Obrastzova, Placido Domingo-  
Riccardo Chailly: Cologne  
Radio Symphony Orchestra  
Angel DGG 2709091

Massenet: WERTHER  
Tatiana Troyanos, Alfredo Kraus-Michael  
Plasson: London Philharmonic  
Angel SZCX-3894

Massenet's melodramatic tear-jerker seems to be having a revival in recent years with numerous productions around the country (like Houston's own last season) as well as these two new complete recordings (with another on the way from Phillips and possibly CBS). This is not a revival of a justifiably forgotten creaker for the edification of an aging soprano who has to find something no one else sings (or would even touch).

The story is by Goethe and involves a young poet who is in love with Charlotte. However, she is married though (of course) she loves Werther but would never disgrace her husband. Anyway, this mess ends with Werther shooting himself amidst snow falling. He dies in Charlotte's arms. No social commentary but a moving work (in the right hands).

The DGG set can be quickly and safely disposed of. The Cologne Radio Symphony plays marvelously and makes rich, lush sound under the direction of Riccardo Chailly. He leads with fast tempo but, regrettably, little poetry or pathos. This score calls for and demands both.

The singing doesn't save it either. Elena Obrastzova is a superb artist but her ill-considered phrasing and vibrato-laden voice are all wrong for Charlotte.

Placido Domingo is in excellent voice but his voice is simply too big for Werther and lacks the flexibility to deal with the soft dynamics of the score. His characterization is drawn in the big scope of Otello or Andrea Chenier while much more delicacy and finesse are required.

The German supporting cast simply doesn't have the right "sound" here and is the last stroke in the death knell. Fans of Obrastzova and Domingo will want this set for their singing but those interested in the opera itself are urged to read on.

The London Symphony is led by Michael Plasson in a performance that is leisurely but never "slow." It is full of life and passion with an inner fire that glows from the pages of Massenet's score.

The singing is as perfect as possible. Tatiana Troyanos uses her dark, burnished silver voice with sympathy and imagination that is perfect for the role. Her vocal acting is the last ingredient needed to breathe life into Charlotte.

Her Werther is superbly sung by Alfredo Kraus, whose vocal in-

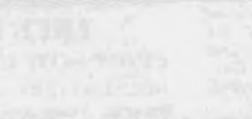

telligence is legendary. He is an excellent actor with an uncanny sense of grace and style not heard since the long-gone bel canto era. His many stage appearances in the opera contribute to his knowledge of the character and his motivations. The supporting cast is led by the Albert of Matteo Manuguerra, singing with authentic style. The other minor roles are brought off just as well and contribute immensely to the overall effect.

The only competition is the older Angel set which is still enjoyed for the beautiful singing of Victoria De Los Angeles and Nicolai Gedda. However, the passion in that set is definitely on the tepid side. Not at all the passionate love triangle Massenet wrote. For a true idea of what may be Massenet's masterpiece, the new Angel set is recommended hands down over any current competition and will likely be the preferred choice for some time to come.

BILL RUSSELL
