

**R. A. LOUCKS TO JOIN REFINERY STAFF  
AS MANAGER CONSTRUCTION-ONSITE ON JULY 16**

R. A.  
LOUCKS

R. A. Loucks has been appointed Manager Construction-Onsite in the Expansion-Construction organization, effective July 16, 1968, announced Refinery Manager Leonard T. Wilson.

Bob, who holds a B.S. degree in metallurgical engineering from the Montana School of Mines, joined Shell at the Anacortes Refinery in January, 1958, as an Engineer in the Engineering Office. Following technical experience in all of the Anacortes Engineering Departments, he was transferred to Head Office in October, 1964, as a Senior Engineer in the Manufacturing Engineering Department.

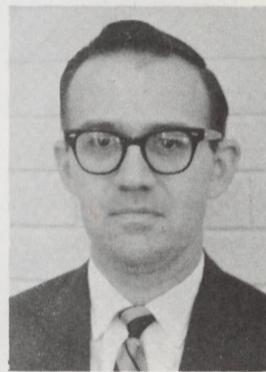

**RECEIVES COMMISSION ---** James L. Lemond, center, son of Refinery employee, J. L. Lemond, receives the bars of a Second Lieutenant in the United States Army Reserve Officers' Corps from his wife, Loretta. At right is James' brother Xavier, who is also an officer in the Army.

(See Page #3 for related story.)

DOERING RETURNS TO HOUSTON TO SUCCEED HIM**

LAITY

DOERING

T. H. Laity, Manager Computer Control Applications, will become Assistant Manager Supply Programming in the Transportation and Supplies Department, Head Office, effective August 1, 1968, announced Refinery Manager Leonard T. Wilson.

E. L. Doering, presently a Staff Engineer in the Technological Department at Wood River Refinery, will replace Laity as Manager Operations Analysis and Control effective the same date.

Tom Laity joined Shell at the Wood River Refinery in June, 1949, after receiving his B.S. and M.S. degrees in chemical engineering from the University of Michigan. In September, 1954, he went on a foreign assignment with BIPM. Upon completion of this assignment, he returned to Head Office Manufacturing Department, where he held various assignments until his return to Wood River Refinery in May, 1960, as Group Leader, Technological Department. He was named Assistant Manager Alkylation Department in 1961, followed by an assignment as Assistant Manager Dispatching in 1963. He was appointed Manager Economics and Scheduling Department at the same location in July, 1964. He transferred to

**SHELLEGRAPH**

No. 295 Friday, June 28, 1968

**TANK FARM CONTROL ---** A. W. Calhoun, at right, Dispatching Department, explains how about 200 storage tanks are controlled and gauged at the Tank Farm Control House to visitors from the 11th Annual Petroleum Institute for Educators. About 80 members of the Institute came to the Refinery on a field trip which was part of their three-week course on the petroleum industry. The group also visited the Main Shops, the wax plant, and were given a Fire and Safety Demonstration as part of their tour of the Refinery. See Page #2 for related pictures.

WAX PLANT TOURED---C. F. Toney, Engineer, Lubricating Oils Department, second from right, explains the operation of the Refinery's wax plant to members of the 11th Annual Petroleum Institute for Educators and told them about the various uses and applications of the different grades of wax produced at the plant.

LUNCH TIME --- Several teachers attending the Petroleum Institute for Educators are shown going through the Refinery Cafeteria line prior to their tour of the Refinery. Teachers from all over Texas attended the three-week institute to learn more about the petroleum industry which is of such vital concern to Texas' economy.

HOUSTON TEACHERS---Among the teachers attending the institute were several teachers from the Houston schools and posing with them are at left, L. N. Mancuso, and, second from left, W. G. Cannon, members of the Fire and Safety Department, who had just presented a Fire and Safety Demonstration to the educators.

TEXAS PARKS FACTS

Camping demand is expected to increase 3.5 times between 1964 and 1990, while camping facilities will increase only 0.4 times based on current supply rates.

LAITY - Continued from Page #1

Houston Refinery in his present position in August, 1966.

Egon Doering was employed at the Houston Refinery in June, 1953, following his graduation from the University of Missouri at Columbia. After serving in the U. S. Air Force and a continued assignment at the Houston Refinery, he held assignments in the Technological Departments at Shell Development at Emeryville, Houston Refinery, and Head Office. In June, 1965, he transferred to Wood River as Group Leader in the Technological Department. He was appointed to his present position of Staff Engineer in July, 1967.

VISITING TEACHERS---L. N. Mancuso, second from left, shows a safe gasoline can to some of the other teachers who attended the petroleum institute. The teachers are, from left to right, Mrs. Marion Adkins, Deer Park; Miss Helen Roberts, Nassau Bay; Mrs. Sarah E. Adams, Seabrook; and Royce E. Clark, Columbus, son of former Refinery Pipefitter Ed Clark.

HOUSTON REFINERY EMPLOYEE'S SON RECEIVES ROTC COMMISSION AT UNIVERSITY OF HOUSTON

James M. Lemond, the son of Houston Refinery employee, J. L. Lemond, Engineering Field Department, was the first Negro student commissioned by the Reserve Officers' Training Corps at the University of Houston, where he received the bars of a Second Lieutenant in the United States Army.

Lt. Lemond is a second-year law student at the University of Houston and received his appointment as a reserve commissioned officer in the Army Signal Corps from Major Warren S. Smith, assistant professor of military science at the university. Present at the ceremony were James' parents, wife and son, and his two brothers, one of whom is an Army Captain ROTC instructor at Booker T. Washington High School.

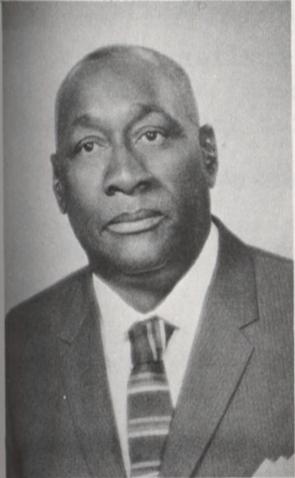

James expects to complete his requirements for his law degree in January, 1970,

and will then enter the Army for a two-year tour of duty. Following his term in the service, he plans to practice law in Houston.

REFINERY HOSTS

Four Refinery Engineers recently served as hosts and guides for the visiting group of teachers participating in the 11th Annual Petroleum Institute for Educators. The teachers toured the Refinery on a field trip in conjunction with the institute. The four were C. E. Dunagan and S. L. Miller, Technological; R. J. St. Pierre, Gas-Thermal Cracking; and R. C. Eisenmann, Aromatics.

**TYPICAL PICNIC** --- Four members of the Refinery's Personnel and Industrial Relations Department are waiting out the rain which hampered the group's safety picnic. From left to right are D. D. McCarty, J. M. Van Lauwe, J. R. Jones, and G. T. Herren. Other P&IR'ers are under the shed in the background.

**SAFETY PICNIC** --- Several members of the Personnel and Industrial Relations Department and their families are shown enjoying the department's safety picnic. The group was treated to the safety feast because no disabling injuries had occurred in the department during the past year.
