

J. S. CULLINAN
HOUSTON, TEXAS

February 21, 1931.

HOUSTON NEGRO HOSPITAL

Mr. Maurice J. Sullivan,
Second National Bank Bldg.,
Houston, Texas.

Dear Sir:

This owns receipt of yours
of February 20th.

I note the specifications
for flag pole, which seem to be in order
except for purpose added weight and
strength I would make foundation diam-
eter 3" instead of 2".

Regarding the drinking
fountains, you can plan for them as you
have suggested rather than adopting my
suggestion of placing one in the center
of the pavilion.

As to the other point, the
floor level of the Utilities building,
you may be governed by the information
received from the City Engineer, though
I would like to see this raised at
least six inches.

Yours very truly,

(Sgd) J. S. CULLINAN
