

April 27-1919

My dear Mrs. Cunningham:

From enclosed, looks as if our idea of calling special session of legislature in behalf of soldier was not impossible after all.

Why do suffrajists always think it so necessary to announce in haste they are not going on with their campaign until after something else is finished. They ought to carry suffrage work right along with war work. Men always push both their political aspirations with every step they make for any purpose.

Is there any point I can cover on my way from McKinney April 30, to Stamford May 2nd or doesn't consume most of time to reach my destination. I can fill a Sunday engagement whenever you know of me. Mrs. Armstrong former Pres. of Dallas Suffrage Club was at Kaufman and said she wished I could come to Dallas and give a talk. Give you this fact so if occasion should arise when I am in vicinity of that city, you may wish to name me to fill it.

I have talked and urged work on part of
all the women at Federations as I meet them
during day, put before them too the obstacles they
have to face so they may know they must not
be apathetic about this election but get busy
and do something right away.

Enclose expense account for past week.

Very cordially yours

Edna Annette Beveridge.

P.S.

Do not remember if I asked that you send some
literatures and a few petitions to Mrs. E. F. McCarty
Caldwells, Burlington Co. who promises (she volunteered) to
give it out and secure some signatures there. Says Co. Ch.
has done nothing. I give you what she says.
