UH entrepreneurs work on top male calendar

By WESLEY W. BUSCH
News Reporter

A new business, founded by two UH students, wants to find the best-looking men on campus to participate in a male beauty contest for which the company's founders believe American women have waited 200 years.

"Lean, sexy, intelligent male beauty" is the quality BMOC, Inc., is looking for, according to a press release from the company founded by John Anderson and Mike Strom. In August the results of the contest will be printed in a calendar featuring one of the 12 men selected as the best-looking for each month.

One of the promotional tools used by the young entrepreneurs' was the use of a royal blue limousine, acquired through a trade agreement with a local limousine service company. They used the limousine to slowly chauffeur three women around the esplanade in front of the University Center. The limousine was then parked in the driveway and idled for 10 to 15 minutes, in hopes of attracting bypassing students.

Several onlookers did try to peer through the limousine's darkly smoked windows. Most did not look too long as though they did not want to be seen straining to discover who was inside.

When the women were ushered out of the limousine, they strolled to the UC Baltic Room hoping to attract a following of males. Few males followed.

After the first three-hour registration session, only 12 men had signed up. By the end of the second session, 28 men had registered. BMOC, Inc., will open registration again Wednesday from 10 a.m. to 6 p.m. They hope another 30 people will register this week.

Of the 28 candidates, Strom believes that six or seven meet the qualifications for BMOC. Photo sessions will begin later this month. The winners will be chosen by a panel of five women,

Anderson and Strom.

The founders said they want to include a cross-section of the campus in the calendar, including students, professors and staff.

Anderson and Strom said they founded BMOC, Inc., because they needed money, but were too busy with their studies to start a larger business. Anderson, 22, is a graduate of the University of Delaware and will enter the UH Law Center in the fall. Strom, 24, is a graduate student in Business Administration.

Kevin Pehlman, 22, was one of the 28 candidates who registered Friday. Pehlman and Kevin Weido said they became curious after reading the ad in The Daily

Cougar. They said they saw BMOC, Inc., as something new at UH and believed the exposure would help their fraternity, Pi Kappa Alpha, which distributes a calendar featuring UH females.

Photographs for the BMOC calendar will be taken at various spots in Houston. Anderson and Strom plan to have the photos shot in May and June, the calendar printed in July and the package distributed in August. The projected price for the calendar is \$3-4, depending on advertisements sold. The founders said they hope to reach trade agreements with local clothing stores in order to outfit the calendar men.

New aid program will help troubled families

Six months ago Margaret Jones died of cancer, leaving her husband Jake, a 41-year-old janitor, to raise their four children ranging in age from 5 to 13.

To supplement the family's income, Margaret had worked part-time in the elementary school cafeteria until she became ill. The loss of his wife's income coupled with medical bills that accumulated during her illness has forced Jake to take an evening job at a local gas station.

Meanwhile, the absence of both parents from the home has left the children raising themselves. Eight-year-old Becky is charged with performing motherly duties for five-year-old Billy, and 13-year-old Frankie looks after the needs

of his severely retarded nine-year-old brother, Joey.

The children routinely prepare their own meals, which often consist of nothing more than cereal and jelly-bread; keep the house in order; take the laundry to the washateria eight blocks away, a task they accomplish with Frankie's wagon; and dress and get to the school bus on time. Joey's bus, which only picks up handicapped students, sometimes arrives later than Frankie's; on those days Frankie does not make it to school.

Elementary school personnel, having knowledge of Margaret's death and the family's tragic situation, become concerned — the younger children's ap-

pearances are extremely unkempt, their academic performances have gone steadily downhill and their attendance records are poor — and contacted the county welfare office. However, much to the dismay of the school principal, a spokesperson for child welfare could not promise how soon help can be extended to this family. Caseworkers are overloaded with priority cases, those involving life-threatening situations such as physical abuses.

The Jones family is not real; its circumstances, however, are typical of families assisted by the UH Parent Aide Program, a project of the Continuing Education Center.

Funded by the Texas Department of Human Resources with a

15-month, \$43,912 contract, this program helps parents who pose no immediate threat to the well-being of their children, but who have been identified as neglectful by TDHR and are in need of behavior modification.

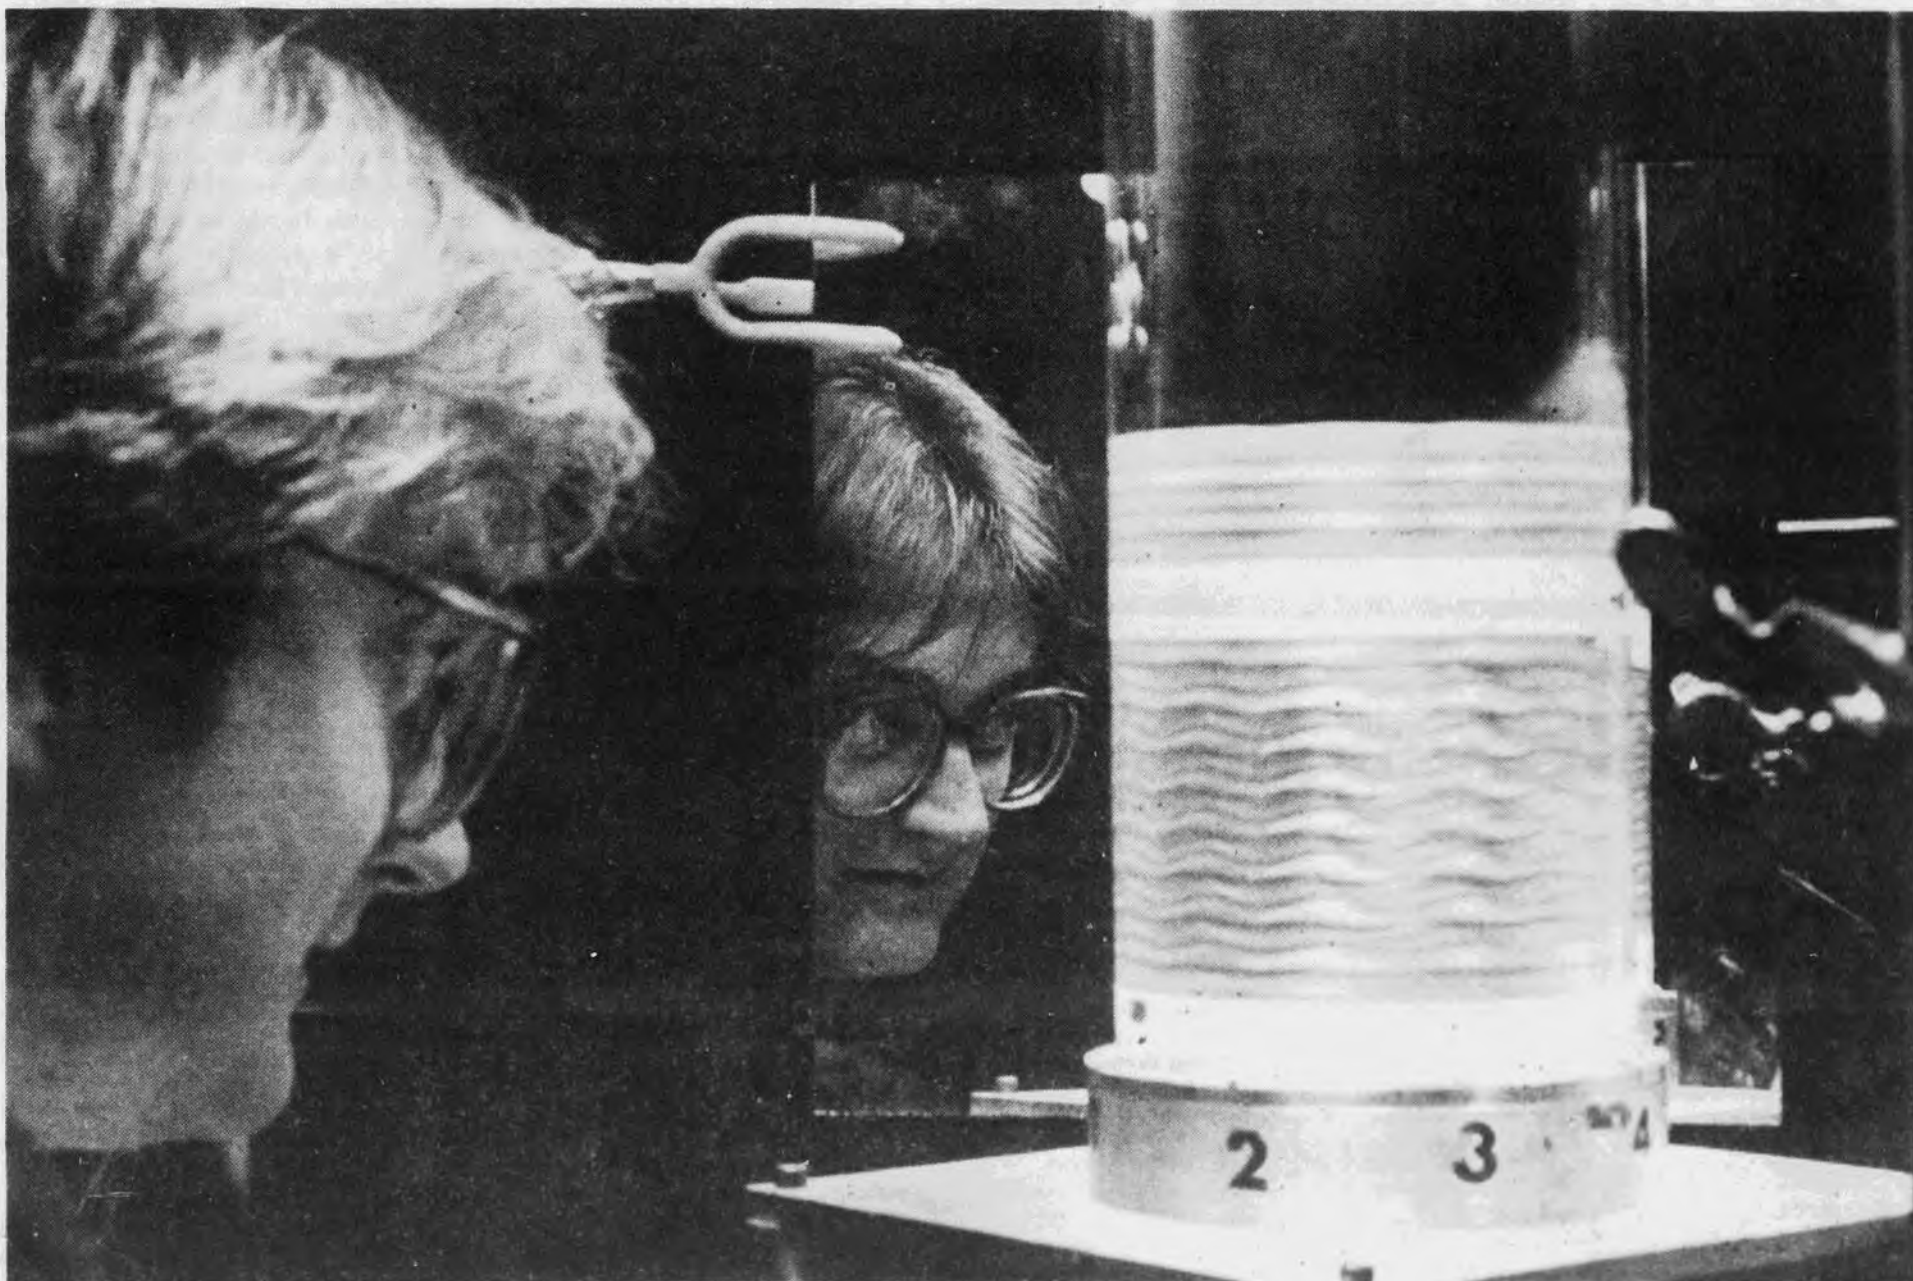

Most of the targeted families, according to Sharon Carey, coordinator of the Fort Bend County program, are composed of parents with infants and toddlers in need of learning stimulation and/or pre-schoolers and school-age children in need of more consistent behavior guidance and management than their parents are providing.

The program operates by training community volunteers with successful parenting and

home management skills to help parents in need of improving skills in these areas. The parent aides' work could include supplying these parents nutritional information, guidance in budgetary planning, housekeeping, personal hygiene and meal planning and preparation, as well as parenting skills. The aide is also the key to establishing an outside support system for the family by putting them in touch with resources they may be unaware of, such as free day care and medical services.

Additionally, Angie Grindon, coordinator of the Montgomery County program, notes, "An aide may also serve as a friend."

Piloted in Fort Bend County in
Continued on Page 7

UH physicist Dr. Michael Gorman is studying various turbulence systems in his lab in Science and Research I. According to Gorman, the cylinder shown is one of the simplest turbulent systems, which uses a fluid of fish scales and water. It consists of a clear stationary outer cylinder and a smaller black inner cylinder which rotates. The space between the cylinders is filled with the silvery fluid. The fluid's reflective properties make the turbulence and wave patterns visible.

Gorman positions mirrors behind and to the side of the cylinder. When he films the waves for later analysis, the mirrors enable him to view all around the cylinder from the camera position. (Photo by David Cortner)

Opinion

At random Justin Leiber

Late this afternoon flying out to England to give some lectures at Oxford University and to settle in for a few weeks at Linacre College, my other academic appointment. Cleaning up the desk, spreading eraser dust and odd paperclips on the floor, and you're reading the last philosophic rambling column for the academic year. I hope you've enjoyed this. What you have here are the pencil shavings, eraser dust, and odd paperclips of my mind, the random notes...

My favorite wall in the world is in Balliol College, close to being Oxford University's oldest (14th Century) and arguably its most distinguished College. The wall is one side of a narrow passage from immaculate quadrangle to magnificent gardens. What is on the wall reminds one for a moment of small, sleepy American town centers: a list of war dead. The Great War (WWI), the war in which Britain lost a generation, twenty times the soldiers we lost in both wars or what the Brits themselves lost in WWII. As you read down the list of Balliol College's war dead, full of Hawkins and James, one comes upon one oddity, one that will NOT remind you of any American memorial I know about. The last half dozen names on the list are German. They were Balliol students and they died in the war. Besides that the mere matter of the silliness of nations, and which side one was on, could not be allowed to matter. The townspeople protested this plaque, as they did a similar one established shortly after WWII. Balliol, an independent community of scholars with massive real state holdings, did not blink.

My friend L.J. Cohen, of Queens College, Oxford, once remarked while in New Haven that it was unspeakably outrageous that the distinguished faculty of Yale University should be ruled by a board of trustees rather than by the faculty themselves. Each Oxford College, like Balliol, is a fully independent, faculty owned and governed, institution. The University, a loose federation of the Colleges ruled by the faculty, maintains its own enforcers, the policepersons of a semi-independent principality of scholars.

This century is sick to death of nations, each a hot bed of jealous,

furious, often racist, selfish, lowest-common-denominator rinkydink solidarity. I recall a recent president of Ecuador saying "I am not a communist, I am not a capitalist, I am an Equadorianist." He might as well have said, "I am not a philosopher, I am not an animal lover, I am not an engineer, I am not a striver after moral excellence, I am not a democrat, I am not a believer in human rights, I am not a healer, I am not a lover, I am not a peacemaker, I am not religious, no, fundamentally I am of some stretch of land that the accidents of recent history have given a name to." I think that it is degrading and unbelievably dangerous for people instead to be committed to mere accidental stretches of land.

Any reasonable person agrees that the world may be an H-bomb cinder by 2000 and that it will be the fanaticism, paranoia and monomania of nation states that will spark this event. Many argue that the solution will be in the growth of world government, others maintain that this is fine in theory but impossible in practice. I say that another way to work at this problem is to rob nationalism of its power from the bottom, to commit one's honor and identity to sub- or extranational loyalties. Consider ourselves members of the University of Houston, with of course other loyalties and commitments, the very least of which is some incidental accident of birth and artificial borders. Republics of knowledge are the very best republics.

This fall I move across one of our internal boundaries. I will be joining the creative writing program, offering English 3395, "Topics: Writing Fantasy and Science Fiction" (W6-9PM). Accidentally, it got left out of the recent course roster but it will run and you can use Priority Registration to ensure a place. I'll also be offering PHI 3311, "Human Nature and Linguistics," in which we argue about citizenship for chimpanzees and computers. Now come to think of it, that's another way to work on our difficulties — if we demanded self-determination for the sheep, ("We are not Argentinians, We are not Brits, We are SHEEP!") we might lose the war in the shuffle.

WHAT'D I TELL YOU? APRIL SHOWERS DO BRING MAYFLOWERS...

Letters

Jewish groups vs. the palestinians

To the editor:

We were pleased to see the local GUPS ad in Friday's Daily Cougar which recognizes the Camp David accords as the sole legitimate route for achieving peace in the Middle East. For any treaty or negotiation to succeed, compromises must be reached and sacrifices made by both parties. The GUP's contention that Israel has not made any sacrifices for peace is both misleading and fallacious.

While it is true that America is contributing to the cost of Israel's withdrawal from the Sinai, it is untrue that the U.S. will pay the total cost. The U.S. has granted Israel \$800 million and loaned her \$3.2 billion at commercial interest rates. The U.S. did not pay for the economic loss due to the dismantling of Jewish settlement in the Sinai or the relocation of its inhabitants.

While it is true that the U.S. guaranteed Israel's access to oil supplies, it is untrue that the U.S. is paying the bill. Israel returned the Sinai oil fields which it had developed and which had supplied 60 percent of its energy needs. Now Israel must purchase oil on the spot market and bear the increase in its energy bill from \$600 million to nearly \$3 billion a year.

While it is true that the Camp David accords require various

types of demilitarized zones in the Sinai, it is untrue that this guarantees Israel's security. Israel's return of the Sinai to Egypt following the 1956 Suez War did not prevent Nasser from closing the Straits of Tiran or massing troops on Israel's border in 1967. Israel has compromised its strategic depth, dismantled modern air bases costing \$10 billion, and lost valuable training areas for the promise of peace.

Thus, Israel has not only wished for peace but made substantial sacrifices in pursuit of it.

Hopefully, this will inspire other Arab nations to seek peace through negotiations.

While the local GUPS chapter may minimize Israel's sacrifices for peace, we are pleased that they have recognized them and further stated that "any peace process must satisfy all parties of the conflict." We urge them to encourage their PLO counterparts to recognize Israel's right to exist as a prelude to negotiations for a lasting peace in the Middle East.

Mad as hell about fines

To the editor:

I am as mad as hell and I'm not going to take it anymore! My gripes concern the UH Parking Division.

Admittedly in the past, I have cursed the parking division even when I lay at fault. I know it is not their fault or problem that there is not enough parking spaces at 10 a.m. within a 20 minute walking distance of campus. Of course, I am supposed to deal with that problem. After all for \$10 a semester they cannot be expected to do everything!

However... I've tried to be so good this semester.

I guess during the last week of

school when there are more spaces available due to dropouts, the parking violation business is a little slow. So what do they do? They spend their time taking one last stab at the student body.

For seven semesters I have placed my beloved parking sticker three-fourths of the way on my car so it is easier to peel off. The numbers are clearly visible. I even have it in the right place on my window. Believe it or not I got a ticket Monday because my sticker is improperly placed on my car!

Does the parking Division need my \$5 that bad?

Mayor, regent honored by alumni

Houston mayor Kathryn J. Whitmire and oil executive Charles B. Marino are the recipients of the 1982 University of Houston Alumni Organization's Distinguished Alumnus Award. The awards will be presented May 7, at Stouffer's Hotel, Greenway Plaza, at 7 p.m.

A 1968 magna cum laude graduate of UH, Whitmire received her master's degree in accounting from UH in 1970. After working for several years in public accounting firms in Houston, she was elected city controller in 1977. She was the first woman elected to any city office in Houston's 142-year

history and its first woman mayor.

Marino, an independent oil and gas producer and President of Power Oil Company of West Virginia, received a bachelor's degree in geology from UH in 1950. In 1979 he was appointed to the UH System Board of Regents by Governor William P. Clements. A dedicated UH booster, Marino is a member of the Cougar Club and is on the UH Taxi board. As a member of the board of regents, he serves on the Audit, Broadcast and Athletic Committees. He also holds membership in the All-American Intercollegiate Hall of Fame.

Kathryn J. Whitmire

Hannah presented service award

Mack H. Hannah Jr. chairman of the University of Houston Board of Regents is the recipient of a 1982 UH Alumni President's Service Award.

The award recognizes non-alumni who have made outstanding contributions to the university. Jack Fox, director of the Alumni Organization, said, "Mack Hannah has served higher education well through his long and distinguished career. He has been a particular friend of UH, serving for two terms on the Board of Regents. In 1981 he was elected chairman of the board, making him the only person in Texas to have served as chair of two separate state university boards."

A land developer and founder and senior board chairman of Standard Savings Association and president of Hannah Life Insurance Company,

Hannah received his bachelor of science degree from Bishop College in Dallas. He was later honored with a law doctorate from Bishop and is in his 32nd year of service as a member of the college's board.

In addition, he served on the board at Texas Southern University for 12 years.

George A. Butler is also a recipient of the UH Alumni President's Service Award.

Butler, who received his law degree in 1925 from George Washington University, is chairman of the board and co-founder of the Children's Hospital, now St. Luke's. He has also served as president of the Houston YMCA.

He is the founder and senior partner of Butler, Binion, Rice, Cook, and Knapp, Attorneys at Law.

Movin' out? RENT A RYDER TRUCK

If you're 18 or over you can rent a Ryder truck to use locally or on a one-way (rent-it-here, leave-it-there) trip to another city.

Compare costs before you make plans for moving at the end of the semester. With a truck you can take along your stereo, 10-speed, clothes, all your stuff, and still have plenty of room for one or two other people and their things, so you can share the costs. Compare that to a plane ticket. Or even a bus.

Rent from the best-maintained, most dependable fleet in the world - Ryder. The best truck money can rent.

"NOT AN AGENCY - NEVER A FEE"
EQUAL OPPORTUNITY EMPLOYER M/F

(Top left) UH police officers Sgt. Robinson and Patrol officer W. F. Young check over a "suspect," played by a member of the UH Cougar Patrol. After being arrested, the "accused" is brought to the UH Police station where he is fingerprinted (top). (Left) Officer Lt. Rayford Stephens demonstrates how mug shots are taken with student Mike Lenfest playing the prisoner. (Above) Finally, the "prisoner" is handcuffed and placed in a holding cell. (Photos by Dave Parrington)

Cops 'n' suspects

Every Wednesday a group of UH Police Department officers has a training exercise in which they are presented with a crime and are required to solve it. The object of the exercise is to put the officers through a potentially dangerous situation and give them the training to deal with it.

To conduct the exercise, one of the department's senior representatives plays the role of a

criminal. The department is then given a report of the crime. The training officers respond to the call and proceed to take the initial report, check suspects, arrest the accused, fingerprint, take mug shots and place handcuffs on the suspect in the holding cell until further action is taken. A senior officer accompanies the training team and evaluates them as they proceed through the investigation.

Fall 1982

COURSE ROSTER

for

ADVISING

University of Houston

Central Campus

West Houston Institute

The Woodlands Institute

This is a preliminary Fall 1982 Course Roster for advising through May 4, 1982.

Your final Fall 1982 Class Schedule will be mailed to you in July for registration by mail.

FALL '82 PRIORITY ADVISING FOR UNDERGRADUATES

Increased chances for getting Fall Semester classes

If you participate in Priority Advising, you will receive special priority in assignment to classes for the Fall Semester. After determining your course options with an advisor, you will keep a copy of your approved student Program Advising Slip. When you receive the Priority Registration packet in the mail this Summer, you then will use this slip to fill out your section request form. Returning the section request form before the August deadline for Priority Registration will automatically place you in a preferred position for class selection above those students who did not participate in Priority Advising.

STEPS TO FOLLOW

STEP 1: Make an appointment to see your advisor. Some departments will have open time periods for advising. See the Advisor Locations listed below.

STEP 2: Obtain a Fall Semester Course Roster. This roster is printed on the following pages as a special insert. This is **not** a final Class Schedule. Because of this early printing, the actual class times may change between now and July. Use this Course Roster to determine your course options with your advisor. You will receive an up-to-date Class Schedule by mail in your Priority Registration packet.

STEP 3: Fill out your Student Program Advising Slip with your advisor. The advisor will approve the courses only, not the specific sections of courses with several sections. Therefore, do not select actual sections, instructors, and times now. Wait to do this until you receive the final Class Schedule in July. The advisor will give you a copy of the Program Advising Slip listing your approved courses or options. The signed advisor's copy will be the record that you have participated in priority Advising; your name will then be entered in the computer data base for priority class section assignment.

STEP 4: Keep your copy of the Student Program Advising Slip in a safe place until you receive the Priority Registration packet in July.

STEP 5: Fill out and return your section request before the August 2 deadline. Use your Student Program Advising Slip containing the approved courses

or options. Select your class sections from the Fall '82 Class Schedule you receive in the mail.

STEP 6: Pay your tuition and fees at Hofheinz Pavilion during the Fee Payment Period, August 23-27, 1982. Your specific time will be listed in the Fall Class Schedule you receive in the mail. Classes for the Fall Semester start on August 30.

If you participate in Priority Registration by mail in July, the University will better be able to satisfy your requests for class section assignments. All students going through Priority Advising will be assigned class sections first. Next, other students registering in Priority Registration will be assigned class sections as a group. The last group to be assigned will be all students who register in Regular Registration, August 17-18, 1982.

GENERAL INFORMATION

Advisors' Locations

If you have selected a major, you may see an advisor in the location below. Advising hours will be posted. If you are pre-med, pre-dentistry, or undeclared in choice of major field of study, contact the Academic Advising Center, Room 34, CUA, extension 4170.

FOOTNOTES

- A— Official approval is needed from the instructor, department head or dean of the college prior to registration for this course.
- F— For international students only.
- J— Additional hour or hours to be arranged with instructor before registration.
- H— This open honors class is open to any student who can meet the special requirements for this course only. Inquire at the University Honors Office, 14-L, or at the appropriate departmental office.
- K— Additional hour or hours to be arranged at first class meeting.
- L— This class has a laboratory or additional lecture hours. Select a laboratory section from those listed below the class.
- M— This is a Mexican-American Studies course. For additional information contact the Mexican-American Studies Program Office, Room 612-AH, or call 749-4841.
- N— Courses with linguistics content are found in various colleges and departments, although they are not listed together in one part of the class schedule. All courses in the class schedule with an "N" footnote under the course number have linguistics content. Degree programs are available through the English Department at the BA, MA, and PhD levels. Areas of study include general linguistics, applied linguistics, and interdisciplinary fields. Contact Mrs. Leonino, 205-C or call 749-3431.
- O— This is an off-campus course. For specific information on location call the appropriate college or institute listed below:
Business 749-7111 Law 749-1275
Education 749-7402 Social Sciences 749-2263
Engineering 749-4407 Social Work 749-3814
Humanities and Fine Arts 749-4425
The Woodlands Institute (WOODS-OFF) 367-0717
West Houston Institute (WHOUST-OFF) 496-5344
- P— Only a grade of S, U, or I will be awarded for this course and it will not be counted in calculating the grade point average. "Work in progress" will be shown for students having certain remaining assignments and they will be required to re-enroll to complete the work already begun. "Work in progress" status may be allowed only once.
- Q— Only a grade of S or U will be awarded for this course and it will not be counted in calculating the grade-point average.
- R— Only a grade of S, U, or I will be awarded for this course and it will not be counted in calculating the grade-point average.
- S— Students enrolling in this course have the option of being awarded S, U grades or letter grades. S, U, grades will not be counted in calculating the grade-point average.
- T— Students must have completed the introductory professional education course, all prerequisites and have been admitted to teacher education.
- V— This section is self-paced.
- W— Women's Studies. For additional information call Women's Affairs Department, Students' Association Office, 749-1366.
- X— Follow the directions below to register for the proper language courses:
1. If you register for a foreign language in which you have less than two years high school credit and no college credit, you must register for the introductory course.
2. If you register for a foreign language in which you have college credit, you must register for the next highest level course.
3. If you register for a foreign language in which you have two years high school credit, you must be placed by test. Consult the Counseling and Testing Office for information and/or consult the appropriate language department.
- If you have any questions please contact the chairperson of the appropriate language department.
- Y— African and Afro-American Studies. For additional information contact the African and Afro-American Studies Program, Room 312-AH, or call 749-1772.
- Z— The University of Houston Central Campus now offers more than 120 hours in multicultural/bilingual education. For a complete list of courses offered during the Fall 1982 semester contact the Multicultural/Bilingual Education Program Office, Room 452-FH, or call 749-4973 or 749-3612.

MECHANICAL ENGINEERING (CODE: MECE)
PROF. R. M. NEREM, CHAIRPERSON, N207-D

MORNING CLASSES

MECE 2336 MECHANICS I
H - 9-10AM MW CASEY
303-D 11-12 MW
- 10-1130 TTH
MECE 3300 MECHANICS OF SOLIDS
12-H 9-10AM MW ROOZ
MECE 3336 MECHANICS II
- 10-11AM MW KUNIN
MECE 3361 MECHANICAL DESIGN I
304-D 10-1130 TTH MISTREE
MECE 3399 SENIOR HONORS THESIS
N207-D ARRANGE TIME NEREM
MECE 3445 MATERIAL SCIENCE
L 303-D 9-10AM MW SALAMA
MECE 4198 SPECIAL PROBLEMS
AS N207-D ARRANGE TIME NEREM
MECE 4298 SPECIAL PROBLEMS
AS N207-D ARRANGE TIME NEREM
MECE 4332 MECHANICAL DESIGN II
N61-D 830-10AM MW FINCH
MECE 4334 APPLICATNS MECHNCL ENGR
344-PGH 830-11AM MW MISTREE
MECE 4361 UTILIZTN OF SOLAR ENERGY
304-D 11-12 MW BANNEROT
MECE 4364 HEAT TRANSFER
N284-D 10-11AM MW NEREM
MECE 4372 MECHANICS-VIBRTNS LAB
N66-D 9-12 T WINTER
MECE 4398 SPECIAL PROBLEMS
AS N207-D ARRANGE TIME NEREM
MECE 4399 SENIOR HONORS THESIS
N207-D ARRANGE TIME NEREM
MECE 4498 SPECIAL PROBLEMS
AS N207-D ARRANGE TIME NEREM
MECE 4598 SPECIAL PROBLEMS
AS N207-D ARRANGE TIME NEREM
MECE 5371 VIBRATION ANALYSIS
- 10-1130 TTH
MECE 6198 RESEARCH
AS N207-D ARRANGE TIME NEREM
MECE 6298 RESEARCH
AS N207-D ARRANGE TIME NEREM
MECE 6331 ADV THERMODYN I-CLASSIC
N367-D 10-11AM MW LIENHARD
MECE 6341 VISCOUS FLOW THEORY
N367-D 11-12 MW POPEL
MECE 6368 MECHANICAL DESIGN PROJ
S N207-D ARRANGE TIME NEREM
MECE 6369 MECHANICAL DESIGN PROJ
S N207-D ARRANGE TIME LIENHARD
MECE 6398 RESEARCH
AS N207-D ARRANGE TIME NEREM
MECE 6399 MASTERS THESIS
N207-D ARRANGE TIME NEREM
MECE 6498 RESEARCH
AS N207-D ARRANGE TIME NEREM
MECE 6598 RESEARCH
AS N207-D ARRANGE TIME NEREM

N207-D ARRANGE TIME NEREM

MORNING LABORATORIES

MECE 3360 EXPERIMENTAL METHODS
N66-D 9-12 F FINCH
N66-D 9-12 TH FINCH
MECE 3445 MATERIAL SCIENCE
S68-D 10-12 F
MECE 4371 THERML-FLUIDS LAB
N66-D 10-12 W KLEIS

AFTERNOON CLASSES

MECE 2336 MECHANICS I
N61-D 1-2PM MW
- 1-230PM TTH
MECE 3334 THERMODYNAMICS II
S343-D 1-2PM MW BANNEROT
MECE 3336 MECHANICS II
N61-D 230-4PM TTH
MECE 3360 EXPERIMENTAL METHODS
L 303-D 4-5PM T FINCH
MECE 3369 STRNGTH OF MATERIALS
S343-D 2-3PM MW VAN ARSDALE
MECE 3445 MATERIAL SCIENCE
L - 4-530PM TTH
MECE 4332 MECHANICAL DESIGN II
N61-D 230-4PM MW MUSTER
MECE 4364 HEAT TRANSFER
- 1-2PM MW POPEL
MECE 4372 MECHANICS-VIBRTNS LAB
N66-D 1-4PM T WINTER
N66-D 4-7PM T WINTER
MECE 5362 APPLCTNS OF FLUID MECHS
- 1-230PM TTH SHAMSUNDAR
MECE 5366 NOISE CONTROL
- 1-2PM MW FINCH
MECE 5377 FNDMTL NONDSTRCTV TSTNG
LEC-T2D2 4-530PM TTH SALAMA
MECE 5397 INTRO TO BIOMECHANICS
N367-D 4-530PM MW
MECE 6111 GRADUATE SEMINAR
S LECT2-D2 230-4PM TH NEREM
MECE 6343 BOUNDARY LAYERS
N284-D 4-530PM MW
MECE 6365 STRESS WAVES-CONTIN MED
- 4-530PM TTH COOK
MECE 7397 PLASTICITY
- 2-3PM MW CASEY

AFTERNOON LABORATORIES

MECE 3360 EXPERIMENTAL METHODS
N66-D 1-4PM TH FINCH
N66-D 4-7PM TH FINCH
MECE 3445 MATERIAL SCIENCE
S68-D 1-3PM W
S68-D 1-3PM F
S68-D 3-5PM F
MECE 4371 THERML-FLUIDS LAB
N66-D 1-3PM W KLEIS
N66-D 3-5PM W KLEIS

EVENING CLASSES

MECE 2336 MECHANICS I
N61-D 530-7PM MW
S343-D 7-830PM TTH

MECE 3300 MECHANICS OF SOLIDS
303-D 530-7PM TTH
MECE 3334 THERMODYNAMICS II
- 530-7PM TTH
MECE 3360 EXPERIMENTAL METHODS
L - 530-630 T FINCH
MECE 3361 MECHANICAL DESIGN I
- 530-7PM TTH MISTREE
MECE 3369 STRNGTH OF MATERIALS
- 530-7PM MW
MECE 4371 THERML-FLUIDS LAB
N61-D 530-630 MW KLEIS
MECE 5360 APPLIED HEAT TRANSFER
- 7-830PM MW
MECE 6333 CONDUCTN HEAT TRANSFER
N367-D 7-830PM MW SHAMSUNDAR
MECE 6382 APPLIED ELASTICITY I
- 530-7PM MW
MECE 7397 ANLYT-MTDS-CONT MECHS
- 530-7PM MW KUNIN
MECE 7397 MECH BEHAVIOR OF SOLIDS
S246-D 530-7PM TTH
MECE 7397 BOILING HEAT TRANSFER
- 530-7PM TTH LIENHARD

EVENING LABORATORIES

MECE 4371 THERML-FLUIDS LAB
N66-D 7-9PM M KLEIS

Hotel & Restaurant Management

HOTEL AND RESTAURANT MANAGEMENT (CODE: HRMA)
DEAN JAMES C. TAYLOR, 219-CEC

MORNING CLASSES

HRMA 1337 INTRO TO HRM
180-CEC 11-12 MW KEISTER
HRMA 1338 INTRO TO TRAVEL INDUST
180-CEC 10-11AM MW WASKEY
HRMA 2335 BASIC HOTEL EGR TECH
180-CEC 9-10AM MW BARRETT
HRMA 2337 QUANT FOOD&BEV PURCHAS
101-CEC 1130-1 TTH WASKEY

This is a preliminary Fall 1982 Course Roster for advising through May 4, 1982.

Your final Fall 1982 Class Schedule will be mailed to you in July for registration by mail.

This Course Roster for Fall 1982, a preliminary listing of courses to be used for advisement, has been placed in The Daily Cougar by the Academic Advising Center, 34CUA. For inquiry, call 749-4170.

Elthon can be found in class and on mountains

By KANDY HECKATHORN
News Reporter

When he's not teaching in the classroom, Dr. Don Elthon, associate professor of geology, might be found on a mountaintop in Chile collecting rock samples from an ancient ocean basin.

Elthon currently is involved in two research projects, one located in southern Chile and the other in Newfoundland. Both are concerned with the geochemical evolution of the oceanic crust and the Earth's upper mantle.

"We are trying to gain a general

understanding of the way the oceanic crust in these areas formed," Elthon said.

The areas being studied are no longer ocean basins, he explained, but have been lifted up into mountains. He said he would rather sample the ancient remains of what were once ocean basins than the present day oceanic crust because of the technical limitations involved in sampling today's crust. "With the present day crust you are dealing with kilometer upon kilometer of water" on top of the crust, he said. To take a sample, the ocean

floor would have to be dredged with a bucket and the contents examined, which would make it impossible to tell the exact locations of the samples.

In his experiments Elthon collects rock samples and then tests for their chemical content. From these findings, he said, it is possible to "make an estimate as to the pressure, temperature and conditions of the rock" when it was formed.

Elthon said he usually works on the projects during the summer: "I try to take one or two months and backpack into the area." He

added that he plans to be working on these projects, funded by the National Science Foundation, for at least the next two years.

Elthon said the projects he has been involved in "all stem from my interest in the ocean floor." One of his main geologic interests is the processes by which the ocean floor has developed through time.

Elthon received his bachelor's degree from the University of Iowa and his master's degree and doctorate from Columbia University. This has been his first year at UH, where he teaches

historical geology and geochemistry.

Before coming to UH, Elton worked at the Smithsonian Institution and the Carnegie Institute in Washington, where he studied problems related to the development of oceanic basins.

Elton said he was originally a chemical engineering major, but decided to go into geology instead when he took a physical geology course. "I was turned off about sitting behind a desk, although that's what I do a large percentage of the time now," he said.

Spanish professor loves teaching and research

By LISA GREGORY
News Reporter

Samye Mott Cimerhanel-Nestlerode, a professor of Spanish, said, "I teach people all the time, whether they want to hear it or not." Her love of teaching has lead her to research in methodology or how to teach better. She sets up control classes to find out the best way to teach students, and studies students' attitudes.

Cimerhanel-Nestlerode won the Teaching Excellence Award at UH in 1975.

Cimerhanel-Nestlerode, who teaches everything from beginning to graduate Spanish classes, specializes in finding better ways to teach foreign languages. "I teach my language classes like history classes. I teach the history of Mexico, and I teach it in Spanish. You could do it with any subject, for example teach chemistry in French," she said.

She speaks all over the country on her teaching research.

Cimerhanel-Nestlerode also is involved in archeological research, which she said she does solely out of her own interest in the subject. She is not affiliated with any academic archeology department.

Her grandmother lived in Mexico, and while on a visit there at 14, Cimerhanel-Nestlerode went on her first dig. Since then she said she has been on digs in almost every country in the world.

Cimerhanel-Nestlerode said she hopes through her research to relate the Greek and Venetian cultures to the Classical culture in Mexico. She also is trying to find proof of the city of Atlantis and the idea that all continents were joined at one time. Her research has uncovered some evidence that African tribes came to Mexico long before the time now believed.

Other interests include uncovering her own lineage. Cimerhanel-Nestlerode's father owns Mott Oil Co. and was one of the founders of Humble Oil, and her grandfather, Albert Mott, was the first attorney general of Texas.

She can trace her family back to Jefferson Davis, Thomas Jefferson and many of the first settlers and much of English monarchy.

Cimerhanel-Nestlerode's great aunt on her mother's side was Elizabeth Anne Seaton, the first American saint of the Roman Catholic Church.

She now is writing a book about one of her ancestors, Lucretia Mott, one of the first women's suffragists.

Cimerhanel-Nestlerode, a native Houstonian, attended UH where she originally studied psychology, but after taking one Spanish class she changed her major to Spanish. She completed both a bachelor of arts degree in Spanish and English, received the top 10 students award twice, won numerous Spanish awards and was listed in Who's Who in American Colleges and Universities.

In 1968, she began a teaching fellowship at UH, teaching writing.

Cimerhanel-Nestlerode earned her master's in both English and Spanish in 1970 from UH and in 1972 her doctorate in Spanish from the University of Mexico.

She maintained straight A's throughout graduate school studies, said she has an IQ of 165 and is a member of MENSA, a group of people with IQ's of 140 or over.

Program helps troubled families

Continued from Page 1

the summer of 1981 and expanded to Montgomery County last fall, this program has served 14 TDHR client families in both counties since it began operating — nine in Fort Bend and five in Montgomery County.

"The state recognizes us as successful, as our program is being reviewed by TDHR as a possible model for a statewide Parent Aide Program," Carey

said. She noted that the project will begin its final round of parent aide training under the current contract on May 13. "But whether or not we get refunded is still questionable. Reagan is cutting the National Center for Child Abuse and Neglect from \$2.1 billion annually to \$4 million. This is the federal agency that develops and tests model programs," she said.

"Our current volunteers run the

gamut," she said. "We have parent aides in their 20s and some in their 60s. Some are housewives and others are professionals. Being a parent aide requires about six hours weekly with a family for a period of about three months, but that doesn't eliminate participation by working people." "Our aides that hold jobs outside of the home spend time with their families on weekends or a few evenings a week," Carey said.

Calendar

TOMORROW

SIGMA GAMMA RHO SORORITY has bake sale at 9 a.m. in Arnold Hall, open to all.

FACULTY-STAFF CHRISTIAN FELLOWSHIP will have the 4th annual luncheon meeting at 11:30 a.m. in the Parliament Room, open to all.

PHI KAPPA THETA will have the 2nd annual all school closeout blast '82 at noon in the Phi Kappa Theta House, open to all.

U OF H FINANCE CLUB will have final meeting of this semester at 1 p.m. in Room 256 M, open to all.

SOON

INDIA STUDENT ASSOCIATION will have a picnic on May 15, for more information, call 11a at 481-8702.

EPISCOPAL CHAPLAINCY will have Episcopal Eucharist on May 5 at 12:10 p.m. in Room 205, A.D. Bruce Religion Center, open to everyone.

CAMPUS MINISTERS ASSOCIATION will have "modern theological options" on May 6 at noon in the Upstairs Lounge of A.D. Bruce Religion Center, open to all.

CHI ALPHA CHRISTIAN FELLOWSHIP will have worship service on May 6 at 7:30 p.m. in the Caribbean Rm, UC, open to all.

ECUMENICAL UNIVERSITY MINISTRY will have "teach-in", speakers and films on South African problem on May 12 at 10 p.m. in A.D. Bruce Religion Center, upstairs lounge.

SIGMA GAMMA RHO SORORITY will have last Jam before exams on May 7 at 10 p.m. in the UC Houston Room, open to all.

Baylor, rain drown Cougars' SWC title hopes

By DOUG DODSON
Sports Writer

The UH baseball team lost any hopes of gaining their first-ever Southwest Conference title, thanks to Baylor left fielder Jay Jeffery and a lot of Lubbock rain.

Jeffery nailed Coog center fielder Mark Lavespere at the plate with a pinpoint throw from left field in the second inning of Saturday's opening game of a double-header, giving the Bears a 2-1 win.

For the Coogs to nab the SWC crown, they had to sweep the Bears and rely on Texas Tech to upset Texas one time in Lubbock. But, the Coog aspirations were sent down the drain when rain cancelled the Tech-Longhorn double-header Saturday, giving Texas the title by percentage points.

UH found little consolation in beating Baylor on Friday 4-3 and taking the nightcap Saturday 3-2.

Assistant Coach Bragg Stockton

was obviously frustrated by the outcome of the SWC race. The Horns didn't play five games due to rain.

"It just isn't fair," he said of the SWC rule that prohibits a game to be made up after three days. "Skill becomes secondary, when it should be skill that is the primary consideration."

If skill was all that was needed, Coog hurler Doug Drabek could have taken the title himself this weekend. He pitched in every game and picked up the wins in the two UH victories.

"I think we've found Doug Drabek again," Stockton said. "We found a flaw in his delivery in the bullpen and we were able to correct it. He came out and did the job for us."

Drabek, 9-4, even amazed himself with his durability. The right hander tossed a total of 11 innings, surrendering only one earned run.

"I'm surprised I didn't stiffen up," he said. "I didn't lose any of

my stuff. It also helped for me to pitch all three games because I was able to learn the hitters first hand, so I knew what to throw to them."

Drabek made his initial mound appearance in the first game, relieving Rayner Noble in the eighth with the Coogs up 3-2. He gave up a walk and a double in the ninth, allowing Baylor to knot the score at 3-3 and send the game into extra innings.

With one out in the bottom of the 11th inning, shortstop Brett Baker sent an Alan Koonce fastball into foul territory over the left field fence. He didn't waste Koonce's next pitch, though, blasting a fastball to the right of the foul line for his third home run of the year.

"He threw me another fastball not an inch away from the first one," Baker said. "I didn't know if it was going to go out because I didn't hit it that well."

Baker hit it well enough to give the Coogs the opening game

victory. The win was especially sweet for left fielder Wesley Gregersen, who ripped a double into the left field power alley for his 16th two-bagger of the year. The double tied Gregersen with Jay Beard, who set the record three seasons ago.

Mark Hall took the loss in the first game of Saturday's double-header when he gave up two runs in four innings before being lifted for Kyle Channing.

It wasn't Hall's best outing of the year, nor was it the Coogs best showing at the plate. UH put their lone run on the board in the third when first baseman Jeff Achilles knocked in Gregersen from second base. The hit extended Achilles' season RBI record to 41. Gregersen reached second on a throwing error by shortstop James Woods after a base hit to left.

The Coogs narrowly escaped with the nightcap that was marred by heavy rain in the seventh. With the score tied 1-1 after the sixth inning, rains stopped the action

for 30 minutes. Play resumed for the top half of the seventh before the game was delayed for another 39 minutes.

Baylor managed to punch a run across in the ninth when Jeffery tripled into left field. Jeffery was allowed to slosh across the plate when Lavespere's throw to third sailed wide and landed in the Houston dug out.

The Coogs avoided embarrassment, though, scoring two runs in the bottom of the ninth to take the win.

Lavespere opened with a single to right field and moved to second on Corky Swindell's sacrifice bunt. Gregersen followed with a single to put runners at the corners. Lavespere scored when Baylor pitcher Paul Farmer made a wild pitch, tying the game at 3-3.

Gregersen scored the winning run from third when Steve Seberger hit a fielders choice to second baseman Steve Ecton with the bases loaded. Ecton's throw was too late to get Gregersen.

"Finishing second is not all that bad," Gregersen said of the Coog's second-place finish, its highest in SWC play. "But it is very disappointing to come so close, then lose out."

UH finished the regular season with a 37-10-2 record, 13-6 in the SWC.

Doolittle chooses her own niche

By THERESA SEEGER
Sports Writer

The University of Houston track program is one of the few in the nation that has a single coaching staff for both men and women. Head Coach Tom Tellez is assisted by Clyde Duncan (sprinters), Howie Ryan (distance runners) and Dorothy Doolittle (field events and hurdlers).

Fans and media alike tend to categorize the three male coaches with the male athletes and "Coach Doo" with the female athletes. That's exactly how she explains it.

"It's just the assumption by most people that I'm the women's coach," said Doolittle, who was recently selected as the women's assistant manager for the United States team in three international track and field meets in June and July.

She doesn't get offended or defensive about her mistaken identity, but calmly says who she is:

"I guess I'm a women's activist, if you count that I want to have a choice in what I do. I don't want to run into limitations of what's for men and what's for women."

Coach Doo came into recognition as a UH track coach last year when she guided senior David Saye to a fifth-place finish in the decathlon at the NCAA Outdoor Track and Field Championships.

"Sometimes you just want to give up and get out of coaching completely, but then there are times that make it all worthwhile," Doolittle said. "As long as the athlete feels you are helping them, that's what counts."

Born in Taylor, she grew up in Elgin and competed in track and basketball while in high school. Standing only five feet tall and weighing about 100 pounds when soaking wet, Doolittle turned to distance running. She later went on to become an internationally-ranked marathoner from 1975-77. Her best year was 1977 when she was ranked fifth in the nation and sixth in the world with a best of 2:50.48.

After graduating from Mary Hardin Baylor in 1969, Doolittle coached basketball, volleyball and track and taught English at H.G. Isbill Junior High School in McGregor. She then went back to the old hometown and coached track and volleyball for five years.

She coached at Westlake High School in Austin, and received her masters from Southwest Texas State before moving into the college coaching ranks in

1977, becoming the women's head cross country and assistant track coach for two years at the University of Missouri.

Her teams won the Missouri Association of Intercollegiate Athletics for Women cross country championship both years. The track squad also won the MAIAW title both years, plus the Region VI championship in 1978.

Coach Doo joined the Cougars in 1979 and took on women's cross country duties again, along with assisting Tellez with the field events. She found she preferred coaching field event athletes rather than distance runners because a more scientific approach can be used in field events.

"With field events you can coach more without so many variables," she said. "You can narrow problems down mechanically, whereas distance running involves more emotion. One day the athlete may run great, the next day lousy."

Granted, field athletes have their ups and downs as well, but Doolittle feels one can pinpoint the athlete's problem more times than not by applying a little logic and science.

Working with an athlete on a technique doesn't happen in a week's time before the big meet. Doolittle says it may take 18 months before the athlete solidifies his or her event. Even when athletes with natural ability enter college, such as Carl Lewis, it takes a while to develop that ability.

"Carl was a 26-foot jumper out of high school," she said, "but there were some things to change, such as his idea of acceleration. He had to put complete faith in us."

When Lewis had the longest sea level jump of 28 feet, 3½ inches last summer, Coach Doo cringed a bit and said that he still committed some errors.

She tries to find these errors by filming athletes in action, then drawing from the print various stages of the movements.

"You can miss a lot with the naked eye," she said as she pointed out a drawing depicting a Lewis long jump. "For example, it would appear that he lands on his foot — heel-ball-toe — before taking off into the jump, but he doesn't. The film can show that he actually lands flat before going up. Catching things like that can help in developing the technique."

As for the UH program, she thinks it's the way a department should be run, with no animosity between the men and women athletes and men and women coaches.

Changes in ticket books

The University of Houston athletic department announced Friday a revision in the price structure and content of student athletic ticket books for the 1982-83 school year.

Instead of the full-year student ticket books issued in the past, a basketball ticket book will be available separately from the football book. The football book will be sold during pre-fall

registration, while the basketball book will not be put on sale until early October at the UH ticket office in Hofheinz Pavilion.

After a review of operating expenses with the Student Service Fee Planning and Allocation Committee and student senate representatives, the athletic department has established a price of \$33.00 for each ticket book.
