

## IT'S YOUR PAPER, LADIES!

The Houston Refinery Management takes this opportunity to extend its appreciation to the hundreds of wonderful Shell Refinery and Chemical Plant ladies who participated in the Carol Lane program on Tuesday night. It was a pleasant and refreshing experience to note the enthusiastic response and interest expressed for this event, and it gave us a great deal of pride to be able to sponsor with the Chemical Plant a dinner program which was so well received. The cooperation and courtesy shown by the attendees make one truly glad that these ladies are members of the "Shell family." Because they are such a pleasant and vivid group, and represent half of the Shell family, we thought that this week's SHELLEGRAPH should be dedicated to them.

We wish it were possible to picture every Shell lady and to identify each one who attended the dinner, but unfortunately this is not possible. This issue of the SHELLEGRAPH is, however, filled with as many as possible of the pictures which were taken that evening.

**PINNING TIME**---Refinery Superintendent Tom C. Graham pins a corsage on Carol Lane just before the Tuesday night buffet dinner party for Houston Refinery and Chemical Plant ladies. Miss Lane was the speaker and talked about vacationing and presented travel tips.

### PAPER NOTES

Because this paper is dedicated to the Shell ladies, the regular news coverage and classified ads have been suspended for the week. Next week's paper will carry the classifieds intended for this issue, as well as other news stories and items of interest.

**"INTRODUCING MISS CAROL LANE"**---Refinery Superintendent Tom C. Graham, at right, makes the introduction of Shell's Women's Travel Director Carol Lane at the buffet dinner party Tuesday night. These are about half of the Shell ladies who attended the event. The people who were invited to the party included the wives of retirees and retired female employees in addition to active lady employees and wives of employees from the Refinery and Chemical Plant.

"AND THEN YOU..."---Carol Lane, Shell's Women's Travel Director, makes a point on preparing for a vacation during the Shell Ladies' Carol Lane Party held at the Executive Country Club on Tuesday night. In the foreground is Houston Refinery Superintendent Tom C. Graham who introduced Carol Lane to the Shell ladies.

PARTY ACTIVITIES---Some of the activities at the Carol Lane Party are shown above: Meeting Carol Lane, taking advantage of the buffet, and registering.

SCENES AT THE PARTY --- The pictures above are some of the sights seen at the Carol Lane meeting Tuesday night as Miss Lane presented her program on travel and vacationing.

possibly answer also be second

participation see - I read an interesting  
function at one time

SIGN IN, PLEASE---Several ladies are shown registering (in the lower picture) at the Carol Lane Party, while Bill Gabig, Houston Chemical Plant Manager, welcomes some of the Shell gals to the party (picture at top).

RENEWING FRIENDSHIPS---Carol Lane, center, chats with Lois Hallmark, wife of Manager Personnel L. J. Hallmark, at the Carol Lane buffet dinner this week. At right is Ety Mathews, one of the hostesses for the party.

CAROL LANE PACKETS AVAILABLE

If any of the ladies who attended the recent Carol Lane Party desire more of the Happy Vacation Kits for themselves or their friends, please write to HAPPY VACATION KIT, Shell Oil Company, P. O. Box 100, Deer Park, Texas 77536, and you will receive your kits by return mail. This offer is open also to any Shell employee family who would like a vacation packet.

CONCENTRATION---These tables of guests at the Houston Refinery and Chemical Plant sponsored Carol Lane presentation, listed intently during one part of the program. Approximately 600 Shell ladies came to the event for which plans were started over a year ago. This was the largest concentration of Shell women in this area, and possibly anywhere else, to attend a single function at one time.
