Dear W. F. C.

Letter forwarded from small sister was a joy. She enclosed sample of pure "from gold" hair and a poem to the effect that "much can be done with good peroxide". Young devil! am saving poem to show you.

This morning's paper had article about Mrs Ward. I'll just clip it altho I expect you have it. What did you do with Sisters Ring & Thompson? And won't the county work keep her from going on our L. L. L. trip?

I can go to Edna & Galveston on early morning trains & return at night so will make this head quarters until Thurs.

at least. Such a relief not to have to pack & move each morning and to have a comfortable bed at night. So far a day to each town has been time enough but I can't expect that to keep up. I rather look for the first to arrive in Cuernavaca.

Enclosed poem has my hearty approval. Most of the hotels on this trip have gone up on prices and down on food. I am supplementing hotel rations with milk chocolate and apples. The travelling man in Brenham ate his dinner & then had another served & announced he was "reasonably" satisfied at the end of the second. We all sympathized but lacked the nerve.

By the way all the women

with whom I have talked have
felt that the House to House
cavass in both city & country
was good. Have we an outline
for that? If not I'll make
one. That ought to make a
great publicity story. "A House
to House Cavass of State of
Texas by Women". Sound like
a big story to me.

She is one of the most popular
women in town. Managed a
house to house cavass during
the last term. Knows women
all over the county and apprecia-
tes the fact that there will
be work to do.

She wants an outline of a
county campaign to give her
precinct chairman and I

have promised her one. So shall
spend the rest of this
evening making one and
send it to you for O. B.

I had hoped to type
these reports but cannot get
a machine so send them
long hand.

Love to the family
yours,

L. M. E.

Will send report in next letter
as I want you to have this
on Tuesday.
