'67 Alumni Campaign Report

The 1967 University of Houston Alumni Campaign closed Dec. 31, 1967, with a record \$49,572.36 invested by former students in their Alma Mater—more than a 100 percent increase above the 1966 campaign which produced somewhat in excess of \$23,000.

We believe that joining the University's annual Excellence Campaign as its fifth division—for the first time in 1967—helped greatly in bringing the proper stature to the Alumni Division and in producing the significant increase in funds.

In '67 we developed five units to contact alumni to make their investment in the University. The units were as follows:

1. Special Gifts Unit, chaired by Ralph O. Shepley, visited some 400 alumni and asked them to consider gifts in the amount of \$100 or better. This unit was the outstanding producer in terms of dollars for the Campaign.

2. In/Firm Solicitation Unit, chaired by Granville Knight, was developed to call on Houston area firms with a large number of UH graduates employed; this unit attempted to visit personally with each alumnus, through a chairman or a worker in the firm, to encourage their participation in the annual campaign and to help develop the matching gift dollars which many corporations will contribute if their employees invest in their Alma Mater.

3. Houston Area Unit was organized and chaired by Mrs. Jeanette Hunnicutt to call on Houston area alumni.

4. State and National Unit was organized and chaired by Jack Valenti to write to all other alumni in the state and nation asking for their support.

5. Parent Solicitation Unit was headed by Lawrence Marcus of Nieman-Marcus to develop support from parents of students now attending the University.

Alumni officers and some 1000 workers—to whom we owe more thanks than we can possibly give—laid a great deal of groundwork for future campaigns, and the spectacular increase in dollars contributed can be described as a significant sign that UH alumni are becoming increasingly aware of the tremendous growth of their University and of its importance to each and every alumnus as UH

May, 1968

takes its place among outstanding institutions of higher education in the nation.

Furthermore, we believe that future campaigns supported by the organization started in 1967 will produce tremendous results, and that the University will soon draw as strong support from its alumni as do other major public and private universities in the State of Texas and from throughout the country.

Don Tomasco
Chairman
'67 Alumni Campaign

... And On Into '68 ...

The organization of the '68 Alumni Campaign is already underway with the announcement by *Max Levine*, 1968 chairman of the University of Houston Excellence Campaign, that *Robert L. Grainger*, vice president of Underwood, Neuhaus and Company, Inc., has accepted this year's chairmanship of the Alumni Division.

Grainger has announced the following appointments in the 1968 Alumni Division:

Vice chairman: William W. Vann, vice president of Anderson, Clayton and Company, Inc.

Special Gifts Unit—Chairman, Ralph O. Shepley, managing partner, Inca Investment Company; *Vice Chairman, William M. Ryan*, partner and attorney at Fulbright, Crooker, Freeman, Bates and Jaworski; *Coordinator, Mrs. Hilda Hall*, campaign di-

Growth of a Mega-*

1967 was a banner year for the University of Houston; it—in the parlance of the Far East—was the “Year of the Cougar.”

The most publicized and widely touted aspects of the 34-year-old University was, needless to say, its first-rate deeds of derring-do in the field of athletics, most recently the snatching of the Number One spot in the U.S. collegiate basketball ratings from UCLA in February and taking fourth place in the NCAA Tournament in March.

But less publicized and more in keeping with the basic function of education is the dynamic growth of academic UH.

An intensive and selective faculty-recruiting program has resulted in a current full-time and part-time faculty of almost 1200, giving a favorable teaching ratio to the 22,000 UH students. Backing faculty and students are more than 1800 University employees to provide necessary services for the academic community.

The most striking and visible signs of UH growth, of course, are the many new structures that have risen on the campus during the past year, or are under construction.

The \$5 million University Center was completed in February. Following closely were the \$3.3 million M. D. Anderson Memorial Library Addition with its current holdings of nearly a half million volumes, the \$5 million Liberal Arts Building with its two separate auditoriums, the \$.4 million underground Computing Center boasting more than \$1.5 million in leased SIGMA 7 computing equipment, and the \$4.6 million Cullen College of Engineering Building housing esoteric, complex equipment in many new laboratories and classrooms for the rapidly expanding engineering departments.

Currently under construction and planned are many more millions of dollars in buildings and facilities. New buildings and facilities, completed, being built and planned for construction, are listed separately in another section of this edition.

All in all, the UH campus will have a physical plant in the early 1970's of more than \$100 million, as compared to the \$33 million evaluation in 1963 when the University became a state institution.

Economically, Cougarland is responsible for many millions of dollars being poured into the collective Metropolitan Houston pocketbook. It is estimated that students, faculty and staff channel well over \$4 million a month into the community of which it is a part.

In addition, the largest portion of money for the

current building program will remain in the Greater Houston area as will many millions more spent in services, on utilities and for miscellaneous equipment.

Academically, the quality of students at UH has maintained the steady climb it began some years ago. For example, more than 80 percent of 1967's entering fall freshmen were in the upper half of their high school graduating class and more than 50 percent were in the upper quarter.

1967 saw record numbers of graduate students receiving master's degrees (863)—and Ph.D. degrees (137). Today UH offers doctorates in 14 fields, with several more under immediate consideration, and 34 master's degrees.

A program intended for unusually gifted and intelligent students, the UH Honors Program, has almost doubled in the past year, with over 100 outstanding students now enrolled in the special curriculum which emphasizes preparation for graduate study.

The UH Honors Program, stressing science and mathematics as well as the humanities in the belief that leaders-to-be in any field in the world today must have extensive knowledge of the physical sciences, is one of the few of its kind in the country.

In research and special projects, grants totaling almost \$7 million are currently in effect at the 300-acre campus. Of this, \$5.6 million is in research funds, reflecting the tremendous growth in this area alone. Virtually all disciplines of the UH community are involved in at least one area of research.

Special projects through the UH Office of International Affairs include assistance to a number of our Latin American neighbors' educational systems through advisors on the site and providing technical assistance.

Also, a great deal of research will be carried out by UH's newly organized Institute for Urban Studies, a program whose objective is to contribute to the solution of problems brought on by increasing urbanization. It will use Metropolitan Houston as a developmental laboratory and concentrate on such diverse problems as racial tensions, high taxes and pollution.

Other new areas recently created include the department of computing sciences, a department of geography and a Graduate School of Social Work which will grant a master's degree to a graduate of the two-year program.

International students' numbers continue to in-

Versity...

*mega- (meg'a-), . . . meaning great, mighty, signifying: a great, extended, powerful . . .

—Webster's New International Dictionary,
Second Edition, Unabridged

crease at UH with more than 700 internationals representing some 60 countries and 1967 found a larger percentage of these students engaged in graduate work than heretofore.

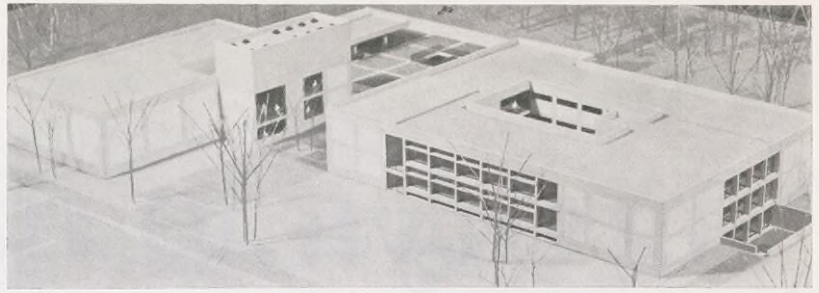

Located less than three miles from the heart of Downtown Houston and with the majority of its students from the immediate environs, the UH community has a firm standing school policy in every academic and administrative area that emphasizes service, cooperation and mutual respect with its alumni, supporters, Metropolitan Houston and the entire area it serves.

H. S. Bonney
Editor

UH's 18-story Twin Tower Dormitories complex now under construction will house 1200 additional on-campus students and its towering height will be a highly observable landmark in south-central Houston.

Under construction now is the first part of the Bates College of Law complex, including an underground law library, administrative offices and the first of five classroom buildings.

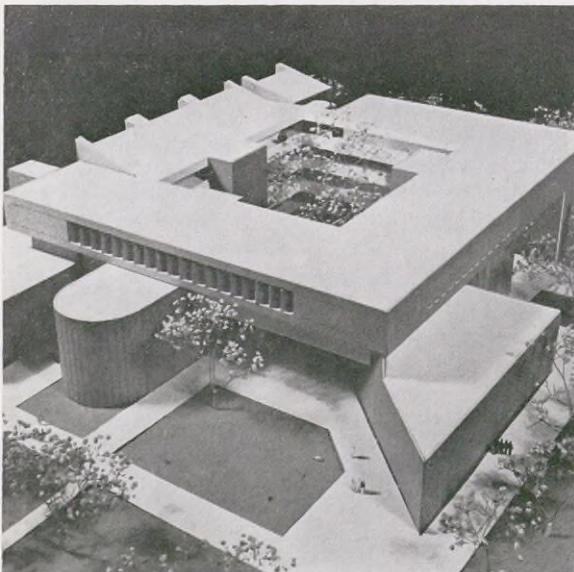

The Auditorium & Physical Education Facility, shown here in the architects' drawing, is under construction currently and will seat over 10,000 for basketball games and has an area of 275,000 square feet.

The completed 180,000-square-foot, \$4 million Cullen College of Engineering Building will have a hybrid computer for research and problem solving hooked up to UH's new SIGMA 7 computer.

The \$3.3 million M. D. Anderson Memorial Library Addition is eight stories tall, will hold over one million volumes and features a carillon on top which chimes the hours and can be played manually.

The proposed Fine Arts Center, to begin construction in the near future will cost \$4 million, house the departments of art and music and will be built around a courtyard.

The multi-storied \$7 million Science and Research Center nearing completion, is oriented toward research and graduate study, has 230,000 square feet and will house the departments of physics, geology and psychology.

PRESIDENT'S FUND

The President's Fund, newly established by the University of Houston Foundation, was created to be a depository for gifts given for the use of the UH president at his discretion.

The president, Dr. Philip G. Hoffman, faces pressing problems almost daily in heading an institution of the size and magnitude of UH. Only too often there are not budgets to meet emergencies or to take advantage of a profitable one-time situation.

And State of Texas funds do not provide for many vital areas necessary to a university of the first order of excellence. For example, no funds are provided for 1) University buildings' insurance, 2) faculty recruiting, 3) lectureships and seminars, and 4) many needed items of equipment.

Vitally needed are unrestricted funds (those dollars given which are not specifically donated to a certain area or use). The 1967 UH Excellence Campaign netted \$1,007,000, of which only \$185,000 was unrestricted. The UH president needed \$150,000 of that money just to balance the University's annual budget, leaving very little for President Hoffman to meet daily emergencies and priority requests.

In short, gifts—especially unrestricted ones—will mean the difference between a large, though mediocre, university and a truly EXCELLING institution of which all alumni, Houstonians and Texans can indeed be proud.

An outstanding group of business leaders has accepted membership in the President's Fund Council. These men will assist the president in stimulating response to the Fund and to the overall Excellence Campaign. In addition, they will develop additional alumni resources and serve as the president's sounding board in regard to continued alumni support and interest.

Director of Alumni-Athletic Development Named at UH

David M. Rockoff, formerly a personnel administrator for Northern Systems Company, was recently named director of alumni/athletic development at the University of Houston.

A native Houstonian, Rockoff attended Jones High School here. He graduated recently with a bachelor of business administration degree from UH.

Last summer, he worked with Aid To Culturally Deprived Children of Greater Houston, Inc., a part of the Headstart Program.

At UH, he plays a dual role in the development program. He seeks support for the University through private gifts from alumni as well as contributions to the athletic program from the public.

Rockoff will help present the UH story of progress to the alumni.

1968 UH-UT FOOTBALL GAME

Plans for a "package" excursion to Austin for the University of Houston-University of Texas gridiron encounter next fall currently is being planned.

Approximately 250 rooms have been reserved at an Austin motel for the occasion. Houston City Councilman Johnny Goyen is heading the committee planning the event. More details of the UH-UT football package trip will be included in the next edition of *EXtra*.

Inquiries concerning the trip can be addressed to Alumni Federation offices, University of Houston, Cullen Boulevard, Houston, Texas 77004.

UH Building Program

Completed

Religion Center (1965)	\$.6 million
Lamar Fleming Building (1966)	3.7 million
University Center (1967)	5.0 million
Library Addition (1967)	3.3 million
Engineering Building (1967)	4.6 million
Liberal Arts Building (1967)	5.0 million
Computing Center (1967)	.4 million

Under Construction

Twin Dormitory Towers	\$10.5 million
Science & Research Center	7.3 million
Student Services Complex (including Alumni Federation's new quarters)	1.6 million
College of Law Building	4.0 million
Physical Education/Auditorium Facility (Fieldhouse)	6.0 million

Planned Construction

Education Building	\$ 3.8 million
Home Economics/Nursery	.9 million
Fine Arts Center	4.0 million
Graduate Studies Building	2.1 million
Physical Plant/Printing Plant	1.8 million
Continuing Education Building	3.0 million
College of Architecture Building	1.5 million
Student Plaza, parking and sidewalks	1.0 million

Engineering, Library Dedications

On May 4, 1968, alumni, students, faculty and staff members of the Cullen College of Engineering dedicated their new \$4.6 million Engineering Building.

Dedication activities extended over a two-day period, beginning May 3 with registration and ending May 4 with a formal dedication.

LIBRARY ADDITION—The \$3.3 million Addition to the M. D. Anderson Memorial Library was dedicated April 10 with symposiums, concerts and an address by the chancellor of The University of Texas, Dr. Harry H. Ransom.

The eight-floor addition was completed in time for the 1967 fall semester. It will house over one million volumes.

Business—Mirl J. Albin, R. W. Baldwin, Mrs. Joel Hal Berry, Jr., Mr. Joel Hal Berry, Jr., Harry J. Burns, Jr., Mrs. Warren Crocker, Beck H. Gee, Robert F. Gonsoulin, Jr., Mr. & Mrs. John Grunstein, Mrs. William W. Hand, Harold Kreisler Patrick E. Moran, Charles W. Parsons, Don L. Purdum, Mr. & Mrs. Louis Q. Rodriguez, Charles Andrew Sample and William E. Will.

Education—Mrs. Bernard Dow, Malcolm L. Dow, Mrs. Noralin Hill English, Rev. John McCluhan, W. C. Ragan, Bob Robertson, Edward F. Ruff and Miss Helen A. Zapp.

Engineering—William G. Baker, Carlos E. Davila, Richard A. Davis, Keith Dutton, Elton E. Dyal, Oscar F. Johnson, J. A. McCreery, Ross S. Seline and James Slaughter.

SCHOOLS ARE NOT LISTED

1936—Mrs. B. W. Payne, Jr.

1938—Ed Rhodes.

1943—Mrs. Roy N. Davis.

1946—Mrs. Fred Bonnie.

1948—C. L. Barlow.

1949—W. C. Kellogg.

1950—Nancy Russell Putnam, Mrs. Ethel Mae Lagesen and Harry W. Johnson.

1952—Patricia Bartell Nugent.

1954—Mrs. Vernon G. Barrow and John David Jackson.

1955—Jimmy Robert James and Roy M. Horlock.

... And On Into '68 ...

(Continued from Page 3)

vision director, United Fund.

Law Unit—*Chairman*, Frank M. Bean, partner and attorney with Bean and Manning; *Vice Chairman*, John F. Nichols, attorney with Fulbright, Crooker, Freeman, Bates and Jaworski.

In/Firm Solicitation Unit—*Chairman*, George D. Sullivan, Jr., sales promotion manager, Duncan Foods; *Vice Chairman*, Roger W. Guthrie, manager, purchasing stores, Shell Pipeline Corporation; *Vice Chairman*, Ernest M. Powell, traffic manager, SW District, Republic Steel Corporation; *Vice Chairman*, E. A. Tribe, director, employee relations, Anderson, Clayton and Company, Inc.

Telefund Unit—*Chairman*, Robert C. Cochran, Broker, Underwood, Neuhaus and Company, Inc.; *Vice Chairman*, Harry Burns, unit manager, Southwestern Bell Telephone Company; *Vice Chairman*, James Kelly, representative, Rauscher, Pierce and Company, Inc.; *Vice Chairman*, Mrs. Maria Vann.

State and National Unit—*Chairman*, William W. Sherrill, governor, Federal Reserve Board; *Vice Chairman*, Sherwood Crane, vice president, Jamaica Corporation.

Student Solicitation Unit—*Chairman*, Ronald D. Pogue; *Vice Chairman*, Dennis Delafield; *Vice Chairman*, Arlene Schwartz.

Parents Unit—*Chairman*, George P. Mitchell, president, George P. Mitchell and Associates, Inc.

The 1968 Campaign will differ in structure from the '67 Campaign in that the Law Unit has been added to solicit all graduates of the College of Law and will be a test for future campaigns being run on the College basis.

'68 Campaign Chairman Grainger reports confidence that alumni giving will surpass \$100,000 from the efforts of more than 1000 volunteers joining him in the Campaign.

All gifts in the 1968 Campaign will be solicited on behalf of the President's Fund (reported upon elsewhere in this edition) and can be made to the University of Houston Foundation for the discretionary use of the University president to meet critical needs which only unrestricted funds can give.

Contributions can be sent to: Alumni Offices or Development Projects Offices, University of Houston, Cullen Boulevard, Houston, Texas 77004.

All gifts are tax deductible and will contribute to the continued growth and excellence of the University.

Alumni News

Caps off, Coogs.

The Cougars have put Houston right up front on the sports pages of America. Football, basketball, baseball, tennis and golf, all dominated by our Coogs. Combine this with a rapidly rising standard of educational excellence, and you get the outstanding

school in Texas—the University of Houston. We, and all Houstonians, are proud of you. So, caps off to the University of Houston. Houston's first family of refreshment—"Coca-Cola," "TAB," "Sprite," "Fresca," "Fanta."

Houston Coca-Cola Bottling Company.

"COCA-COLA" AND "COKE" ARE REGISTERED TRADE-MARKS WHICH IDENTIFY ONLY THE PRODUCT OF THE COCA-COLA COMPANY, AS ARE "TAB," "SPRITE," "FRESCA," AND "FANTA."
