

Women's Rights In Peril!

Rightwing forces across the nation have launched an all-out attack on everything feminists have fought for. Fascist forces and their far-right sympathizers are not in Houston to debate. They have come to smash the women's movement, in the murderous tradition of hooded Klansmen and Hitler's Brownshirts.

The women's movement is at a crossroads. Either we meekly surrender to the reactionary onslaught and perish, or we boldly and candidly engage the enemy.

Not One Inch to the Feminine Mystique!

This is no time to hang back and be picked off one by one. Our very lives are at stake. Thousands of women, representing the majority of women in this country, have come here to resist the right wing, and that's what this conference must do.

DETERMINED FEMINISTS CALL ON THIS CONFERENCE TO;

- 1) EXPOSE THE RIGHT WING. Traditional politicking, tea parties, and phony sisterhood are no way to deal with a deadly enemy. Name the enemy and characterize them politically and sociologically. Don't depend on "liberal" friends in government who answer to Big Business which funds the right wing.
- 2) ORGANIZE A UNITED FRONT AGAINST REACTION. If all of us do not solidarize now, we will surely hang separately. All opponents of the neo-fascists must join together against the common opponent.
- 3) ADOPT A MULTI-ISSUE PROGRAM of mutual support. No compromise on the rights of minority women, poor women, working women, lesbians, and women radicals. To evade these "sensitive" issues because they are "controversial" and "offend" our enemies is outright suicide. NO TRADE-OFFS!

MOBILIZE FOR BATTLE!

Feminism is now and always has been a radical movement, because our goals and demands are truly revolutionary. This historic conference must take bold, radical and principled action if our movement is to survive. Anything less will signal the death knell for our sex.

Women's Rights in Battle

The women's movement is not a new phenomenon. It has been a part of the human struggle for freedom and justice since the beginning of time. In the past, women have been denied the same rights and opportunities as men. They have been treated as property, not as individuals. Today, we are beginning to see a change. Women are demanding the same rights and opportunities as men. They are fighting for equality in the workplace, in the classroom, and in the home. They are fighting for the right to vote, to hold office, and to serve in the military. They are fighting for the right to control their own bodies and their own lives. This is the women's movement, and it is a movement that is changing the world.

Not One Inch to the Feminine Mystique

The feminine mystique is a term used to describe the ideal of a woman who is devoted to her family and her husband. It is a myth that has been used to keep women in a subordinate position. Women are not supposed to have careers, to hold office, or to serve in the military. They are supposed to stay at home and take care of their families. This is the feminine mystique, and it is a myth that is being challenged. Women are demanding the right to live their own lives and to pursue their own dreams. They are not going to take one inch back.

Women's Rights in the Workplace

Women have made significant gains in the workplace. They are now working in a wide variety of professions and industries. They are earning the same wages as men for the same work. They are holding high-level positions in government, business, and education. However, there is still a long way to go. Women are still paid less than men for the same work. They are still underrepresented in many professions and industries. They are still facing discrimination and harassment in the workplace. We need to continue to fight for equality in the workplace.

ORGANIZE A UNITED FRONT AGAINST THE FEMININE MYSTIQUE. We will not be satisfied until we have achieved equality for women in all areas of life. We will not be satisfied until we have achieved equality for women in the workplace, in the classroom, and in the home. We will not be satisfied until we have achieved equality for women in the military. We will not be satisfied until we have achieved equality for women in all areas of life.

ADAPT A BATTLE ISSUE FROM THE FEMININE MYSTIQUE. The feminine mystique is a myth that has been used to keep women in a subordinate position. Women are not supposed to have careers, to hold office, or to serve in the military. They are supposed to stay at home and take care of their families. This is the feminine mystique, and it is a myth that is being challenged. Women are demanding the right to live their own lives and to pursue their own dreams. They are not going to take one inch back.

MOBILIZER FOR BATTLE

Let us demand equality for women in the workplace, in the classroom, and in the home. Let us demand equality for women in the military. Let us demand equality for women in all areas of life. We will not be satisfied until we have achieved equality for women in all areas of life.

THE NATIONAL WOMEN'S PARTY. We are the National Women's Party, and we are fighting for equality for women in all areas of life. We are fighting for the right to vote, to hold office, and to serve in the military. We are fighting for the right to control our own bodies and our own lives. We are fighting for the right to live our own lives and to pursue our own dreams. We are not going to take one inch back.
