

This covers, fairly, my ideas on the Writer's Bureau - Any suggestions?

OBJECT OF ESTABLISHING

A WRITER'S BUREAU FOR SUFFRAGE.

1. In order to form a nucleus for more competent press work through out the state.
2. In order to creditably fill the space so generously donated for a Suffrage Department by the American Home Journal.
3. In order that the persons undertaking to plan the work of the Texas Woman Suffrage Association may have the help, advice and co-operation of trained minds and pens.

OUTLINE OF WORK.

It is contemplated that the Writer's Bureau will serve the Cause in the following ways and in others which they themselves will initiate and develop.

1. That the members will, from time to time write special articles on different phases of the question of Equal Suffrage either at the request of the President or on their own initiative as the "Spirit moves" them.
2. That they will from time to time answer Anti-Suffrage articles or letters appearing in the press of the state, either at the request of the President or on their own initiative.
3. That they will collect and send int to the Headquarters of the Texas Woman Suffrage Association at # 3128, 0 1/2 Galveston, Texas, all news items pertaining to Suffrage work, all letters or articles for or against Woman Suffrage and all notices of fairs and conventions etc. where Suffrage work should be done, that they see in their daily reading.
4. That they will make suggestions and help carry out plans for better publicity work for the Cause in Texas.

It is expressly understood that the Texas Woman Suffrage Association is unable, financially, to offer remuneration for this valuable help, but that it the unselfish donation of the writers composing this Bureau whose love of Justice is greater than ~~their love of~~ money.

any other motive.

Object of  
Object of Organization on the Senatorial  
District Plan.

1. To increase the membership of the Associations already organized. And encourage the system of Ward work.
2. To organize the County.
3. To develop workers and speakers.
4. To develop the feeling that Suffragists are responsible for carrying their districts.
5. To leave them with a plan of work to carry on.
6. To leave them with some money with which to proceed and the feeling that they must bend their efforts toward raising more.

Suggestions for this work.
