Georgia Women: A Celebration, published by the Atlanta Branch AAUW in 1976 and edited by Barbara B. Reitt, is a 90-page paperback, fully indexed, highlighting the accomplishments of over 180 notable women from Georgia, including many long-forgotten in the standard histories of the state. Special attention is paid to women of minority groups whose contributions are all too often overlooked.

The lively text is accompanied by study questions and research projects and the book includes detailed instructions for doing rubbings, making this not only a valuable addition to a private library but a handy classroom tool.

Profits realized from the sale of the book will support the educational and community goals and projects of the American Association of University Women.

To order your copies, fill out the order blank below and enclose your personal check or money order, made out to the Atlanta Branch AAUW. Your book(s) will be mailed by fourth class mail immediately.
