HOUSTON

September 7th, 1926

Mr. Maurice J. Sullivan,
Architect, 2nd Nat'l Bank Bldg.,
Houston, Texas.

Subject: Fidelity Trust Company
Houston Negro Hospital.

Dear Sir:

Complying with instruction of your letter of September 2nd we have made a check of our accounts of the Fidelity Trust Company to cover the balance due us for material furnished for the Houston Negro Hospital.

Our records show the account following payment on the contract \$384.25, less credit for insulating ~~steel~~ not used \$30.00. Balance due on contract \$354.25, plus invoice No. 10351 \$20.00 making the total of \$374.25.

Our invoice No. 10351 covers our memorandum charge for the ammonia cylinder in which we furnished the ammonia for the contract. If they have emptied this cylinder and will return it to us, promptly upon receipt of this we will credit their account to offset this charge. The remaining balance of \$354.25 which we believe you will find correct and in accordance with your records.

We would appreciate it if you will let us have a voucher to cover this final payment as it is over due.

Thanking you to give this matter your usual prompt attention, we remain

Yours very truly,
YORK PRODUCTS CORPORATION

S. R. Leach
Treasurer.
