Vol. 39, No. 34

BIRD'S EYE VIEW FROM ATOP CAT. CRACKER LOOKING NORTHEAST

Another view from atop the cat. cracker taken in 1946 (above) and 1974 (below). In the '46 view, you find the CWT #7 and the control building for the recently completed cat. cracker. Today, your view from the same spot would show (from l-r) the naphtha extraction unit, the MEK dewaxing and deoiling unit, the desulfurizer, and (in the background) the Greer Wax Molding Plant.

NEWSLETTERS TO BE COMBINED

As of September 13, the SHELLEGRAPH and the SHELL BULLETIN will be no more. In their place, the SHELLEGRAM, a weekly Deer Park Manufacturing Complex newsletter, will appear.

Dotti West, editor of the SHELLEGRAPH, will become editor of the SHELLEGRAM.

It is hoped that all complex employees will feel free to offer ideas for articles in the SHELLEGRAM, and that each one of you will take an active part in making the SHELLEGRAM truly an employee's newsletter.

TEN-AND-OVER PARTY DATE ANNOUNCED

The annual Ten-and-Over Party will be held on October 19 at the Executive Country Club.

All active employees and pensioners at the refinery may attend. The function will be held from 11 a.m. to 5 p.m. at the Club at 7001 Capitol in Houston.

Food and fellowship will be the fare for the day and color television sets will be tuned to the regional football game of the day.

Plan now to attend.

SHELL WIVES SCHEDULE LUNCHEON AT GALLERIA

Artist Audrey Dygert will be the featured lecturer at the next meeting of the Shell Wives Luncheon Club October 1 at the Houston Oaks Hotel in the Galleria shopping complex.

Mrs. Dygert, a noted water colorist, is the wife of Judd Dygert, senior staff research engineer, Corporate R&D, Shell Development. At the meeting,

UNITED FUND FILM SHOWING ANNOUNCED - CHECK WITH YOUR SUPERVISOR OR A BULLETIN BOARD FOR SCHEDULE.

LABORERS CELEBRATE ANOTHER SAFE YEAR ON THE JOB

Among the early arrivals were Stella and E. D. Clark (retiree) chatting with Frank and Onova Lewis.

The smiling face behind the sea of name tags is Lee Sweeten. Enjoying the festivities were Mary and S. W. Wilson along with Albert and Fili Aleman. Sweeten hands Linda Graves her name tag.

while Billy Pace, J. A. Talley, his date and Ray Crawford look on. Oscar Champs, Emmitt Curtis (standing), H. A. Ellison (retiree), and Henry Theiler enjoy the social hour, which preceded the dinner. Kathy Bemus, one of Shell's new laborers, smiles as she arrives for her very first safety party.

LUNCHEON AT GALLERIA (Continued from page 1)

Mrs. Dygert will create a painting, demonstrating and explaining her techniques. And, at the conclusion of her lecture, the painting will be raffled off to the luncheon guests.

Several of Mrs. Dygert's paintings are on permanent display at Houston's Shell Information Center, and she recently has been commissioned to paint a mural for the Center.

The Shell Wives Luncheon Club is a loosely-structured association which meets three to four times each year. And, according to Eleanor Haynes, coordinator for the upcoming luncheon program, "All Shell wives are welcome."

More information on the association itself can be obtained from Mrs. Haynes at 464-2892. The cost of the October 1 luncheon session at the Houston Oaks will be \$4, and cocktails, at additional cost, will be served from 11 a.m.

Accepting reservations for the luncheon is Elizabeth Towell at 333-2565. Deadline for reservations is September 25.

Attention: All Employees TETANUS PROGRAM TO COMMENCE SEPTEMBER 23

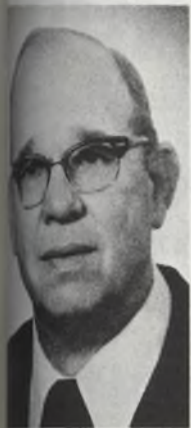

Tetanus Toxoid injections will be available at the Refinery Dispensary beginning at 7:30 a.m. on Monday, September 23.

Those employees who participated in the program during September, October, November and December 1973 will be expected to report for the third booster of the tetanus series.

The program will also be

available for those employees who wish to start the series; this will consist of two injections - 4 to 6 weeks apart and then a followup next year. Should you wish to participate in this program, report to Room 107 in the Main Office Annex, between 7:30 a.m. and 4:00 p.m., Monday through Friday, during the weeks of September 23 and September 30.

Extra! Extra! Read all about it! United Fund starts the 1974 Campaign!

It was a surprised H. Simonsen, group leader, Engineering Office, who was greeted with a plaque and a decorated hardhat upon his recent return from a one-week vacation.

R. A. Johansen, senior draftsman, Engineering Office, was the co-worker responsible for the surprise!

A couple of weeks ago, Barbara Moon, specialty typist, Treasury; Winnie White, senior secretary, Administration; and Randee Rothman, head file and mail clerk, Treasury, got together for an evening of tennis. After dining out, they headed for Barbara's home so she could change into her tennis attire.

Barbara emerged all ready to go, but quickly returned to change again, when it was observed that she had her shorts on backwards!

As Winnie succinctly put it, "She puts on her shorts like everyone else - one leg at a time - only backwards!"

Strangely enough, no one mentioned any scores.

TARPON CONFIRMED AS STATE RECORD

It took Tom Gibson 30 minutes to land a leaping tarpon that turned out to be a new Texas State Fish Record and an International Game Fish Association record for its class.

Gibson, of Houston, caught the 210-pound tarpon while drift fishing out of Port Isabel.

The giant fish - length 7 feet, 2 1/4 inches; girth 45 1/2 inches - was taken on 100-pound test line using a live mullet as bait.

The previous state record was a 192-pound fish caught in 1961.

CLASSIFIEDS

Pair of wire-rim glasses in the dock road area on August 30. Please claim at the SHELLEGRAPH office.

BERGERON HONORED BY ENG. FIELD EMPLOYEES

L. C. Dickey, D. O. Chrismer and P. S. Wells look on as G. P. Bergeron opens his surprise gift at his recent going-away party. Bergeron was recently named Superintendent Field Construction and Chrismer was named to succeed him as manager of Engineering Field. The gift was an old headlight from some momentous event in Bergeron's past.
