Four New Rules Announced For Student Council

Regulations Adopted To Improve Attendance Of Council Members

Four new regulations governing meetings of the Student Council, unanimously adopted at a special session Tuesday evening, today were announced by Wilbur Smith, president.

The new rulings follow:

1. The Council will meet the first Monday of each month, but at all times meetings will be subject to call by the president, provided that he substantiate the purpose of the call.
 2. All members are expected to be present at both the regular and called meetings.
 3. Any member missing two consecutive or three meetings during the semester will be disqualified to serve as a council representative.
 4. When a member has been disqualified, the council will elect or appoint another representative after a recommendation to the class represented by a student has been made.
- New rules will be effective at the next meeting, Smith said.

Soph Spring Fling Planned By Five Who Attend Meet

With a near capacity attendance of five sophomores, plans were discussed to have the annual Soph Spring Fling. It will be held either in the boys' gymnasium or at the armory Friday, March 25.

Formal clothes will not be required, according to Joe Camp, president. Quite the contrary. All who attend are requested to wear their worst and scrappiest clothes. Pajamas and culottes will not be barred.

The five sophomores who attended this meeting had a very stormy session. It was decided to appoint a committee of six to make additional plans for the dance. As only five attended, it was decided to grab the first available sophomore to fill in the breach.

John Sullivan will play for the dance which will cost each person who attends thirty-five cents. Refreshments will be sold.

Squires Plan Party For New Members

Prospective new members of the Squires club will be guests at a reception, Friday, March 18, at the Golferest country club, according to plans made Monday evening by the club.

Orders for club pins were also taken at the Monday session. The new emblem will feature a gold crest on a black onyx base. It was suggested that black and gold be adopted as the official club colors.

Notice

Camera club will organize at 9:30 p. m. Monday in room 118.

Houstonian meeting 3:15 p. m. Wednesday.

PERFECT EXAM

Quiz Features No Pen, Paper Or Whisper

At last that grand, hoped-for day when exams are taken without pen, paper, or whispers has arrived.

In fact, there is no way of determining, in Public Speaking 132, just when an exam is being administered. The speakers, of course, try harder to impress themselves and the audience, and often have to hold to the speaking stand for support, but even this is better than written exams. And everyone, including the instructor, Harvey Harris is happy.

Methodists Sponsor College Day Sunday

All students of the University and Rice Institute will be invited to attend a special College Day program at the First Methodist church, Sunday.

Dr. Paul Quillian, pastor, will deliver a sermon on "Religion and the College Student." Special guest will be Dr. E. E. Oberholtzer, superintendent of Houston schools. During the Sunday school hour, Dr. Leighton, instructor at Rice, will speak on "Science and Religion."

The Sunday program will inaugurate a series of addresses on "The Practical Side of Religion." Guest speakers scheduled for the church school lectures are R. C. Kuldell, Houston business man, L. O. Bannon, of the Houston Labor council, Coach Jimmie Kitts of Rice Institute, and Homer Hewitt.

The University of Houston Methodist Student union is co-operating with the special program group in inviting students to attend, George Harbuck, president, said.

Queer Combination

Major League Ball—Child Guidance Features Career of U. of H. Student

The name Harry McCurdy, University student, makes news, and has for fifteen years. A major league baseball player, and a student in the field of child guidance! Queer combination? Not for Harry McCurdy.

His career began as first baseman on the University of Illinois baseball team. Then he was bought by the St. Louis Cardinals and for two years was their ace catcher. He came south after that and played with the Houston Buffs. His outstanding playing with the Buffs attracted the Chicago White Socks, and they purchased him for the largest sum ever paid for any ball player at that time. Three years with the White Socks, and then to Toledo for one year. In 1930 he was drafted by the St. Louis Cardinals. Then he was traded to the Philadelphia Nationals with Grover Cleveland Alexander (who was placed in the Hall of Fame last year), for Homer Peel and Ted McGrew. He spent four years with this club, and then spent another year with the Houston Buffs. The Cincinnati Reds bought him in 1935.

CLUB WOMEN AID CAMPAIGN

Oveta Culp Hobby Heads Committee of Women To Assist In Drive

Headed by Oveta Culp Hobby, thirty-four women prominent in Houston clubs and women's activities, all became members of the advisory committee of the University of Houston building fund campaign Wednesday.

General chairman H. R. Cullen received their acceptances to his invitation at a luncheon at River Oaks Country Club with aid pledged in raising \$1,000,000 for building a permanent university.

The city has changed the name of St. Bernard street, the western boundary of the university's 110 acre gift tract, to University boulevard. Continued on page 3

Aesculapians Fete New Instructor

A large group of distinguished guests will be in the receiving line of the reception to be given March 19 by the Aesculapian club in honor of Miss Marie Jacobson, University education instructor. The group, announced by Pearl Weaver, president, includes Mayor R. H. Fonville, Dean N. K. Dupre, Judge Roy Hofheinz, Dr. W. W. Kemmerer, officers of the club, officers of the district nurses association, and Dr. J. H. Brown.

The reception will be given at the home of Dr. Elva Wright, 6340 Brompton road. Committee on arrangements is headed by Capt. A. W. French, University faculty member, who is being assisted by Mrs. Mable Parker, Emmeline Renis, Dorothy French and Mrs. Charlotte Hogan.

Engineers Will Fete "Sweetheart" Tonight At Annual Dance In Junior League Ballroom

1937 SWEETHEART

Algerine Allen, 1937 "Sweetheart of the Engineers" who will introduce the 1938 favorite at the annual UHSE dance tonight.

University Alumni To Join In Drive

Dr. E. E. Oberholtzer will be guest speaker at a called meeting of the Alumni Association March 18 in the San Jacinto auditorium, at which time a drive will be opened to raise \$50,000 for the University building fund among the members. They will be given three years to raise \$30 each. Houston Junior College and the University of Houston alumni have combined and at present their membership totals 6,000.

Dr. Hiller is general chairman of the alumni drive and supervises collection and subscription. Margaret Boyett is chairman of the committee which checks up on names of the members.

Pat Foley, president, urged members to pay their dues of one dollar a year, as soon as possible.

The alumni association will give a dance honoring ex-students and the seniors, sometime before graduation in June. It will be held in one of the country clubs.

Annual Dance Is Planned By Rosarians

The Rosarian Club, Catholic organization, will hold its third annual dance Friday night, April 22, at the Rice Terrace. The dance will be from ten until one o'clock and will feature the music of the Torres-Waters Orchestra.

The downtown ballroom was selected by the club at a meeting last Tuesday. A ticket committee was appointed with Mary Catherine Schnell, Rice Institute student, as the chairman. Assisting Miss Schnell in the sale of tickets will be eight teams, who were chosen at the Tuesday meeting. Any member selling ten tickets will be given one admission to the dance. Price of the tickets is \$1.10 per couple.

The Rev. Jerome Rapp, pastor of Sacred Heart Church, was guest speaker, and recounted experiences of his trip to the Eucharistic Congress at Manila.

UHSE Favorite To Be Presented At Intermission

The 1938 "Sweetheart of the Engineers" will be presented tonight by the University of Houston Society of Engineers at their annual dance given in her honor.

Algerine Allen, 1937 "Sweetheart" will make the presentation from the platform of the Junior League, where the dance will be staged. Miss Allen will be introduced by Foster W. Montgomery, UHSE president.

Members of the club today were making final decoration arrangements. Insigna and colors of the organization will be featured in the motif, according to plans of the decoration committee and commercial artists engaged by them.

"We of the UHSE have worked for several months to make this the best "Sweetheart Dance" ever staged," President Montgomery said. "Providing a pleasant evening for University students, rather than financial success, has been our prime objective," he continued.

Secrecy has been the keynote of the "Sweetheart" election held this week. Results of ballots cast at a special meeting Monday evening and Continued on page 3

Red Masquers Give Original Skit

"Devil's Angel," radio skit written by Douglas Carter, Red Masque players president, was presented Thursday over station KTRH.

Members of the cast were George Chaisson, Hoga Walter, Franklin Walker, Della Belle Collier, and Carter.

Norman Pollard was host to the Red Masque club at a party given in his home Wednesday night.

Building Exhibit To Houston Club

The architect's drawing of the proposed buildings and campus with the official banner, that were formerly on display at the University exhibit at the Fat Stock show, have been transferred to the Houston club where they will be displayed.

Houstonian Dance To Feature Harris As Yippi-ow Boy

Houstonians will hold their annual barn dance March 18, at 9:30 p. m. in the gymnasium.

Harvey W. Harris will leave the post of a dignified school teacher and become one of the yippi-yi-o-ti-a boys while acting as master of ceremonies and leading the Grand March.

Mr. Harris is co-sponsor of the Houstonian club, and has led the grand march annually.

Invitation To Dance

Through a commendable degree of co-operation between student organizations and student body, the University this year has had an interesting and well-rounded social calendar.

Tonight what is probably the most anxiously-awaited event, the annual "Sweetheart Dance" of the University of Houston Society of Engineers will be staged at the Junior League.

The Engineers, led by their president, have worked hard for several months to achieve their objective of providing a dance which is a fitting honor to the "Sweetheart" of the club and pleasant entertainment for University students and friends.

Advance sales of tickets indicate that the event will be well supported, but students who have not yet purchased bids are invited by the UHSE to do so today.

We extend best wishes to the 1938 "Sweetheart" and the Engineers.

A Forward Step

The Student Council this week made what appears to be a forward step.

Now, more than ever before, there is need for forward steps by all student organizations, more especially those representative of a majority of students.

At a meeting this week a definite set of rules governing meetings of the Council were adopted. By use of the new regulations, the organization will be better qualified to act on questions vital to the student body. At the present time, such ability is greatly needed if the future of the institution is to be insured.

The better organization methods of the Student council might well serve as a model for other student groups.

Lights!

A verbal laurel wreath to whoever arranged for the better lighting facilities in the library.

Not only do the new lights fill the purpose for which they were intended, but they are much more attractive. Many students have been heard to remark about how much easier it is to study in the library at night since the new lights were installed, and they appreciate it.

One instructor expressed qualms at the idea of substituting one light for five, but now she notes how much better every inch of "ye olde librarie" has been lighted.

Someone deserves a vote of thanks which we gladly proffer.

"The only failure a man ought to fear is failure in cleaving to the purpose he sees to be best.—George Eliot.

Ridicule Vs. Humor

Some students are howling with great glee at a joke which somehow contains very little humor. Ridicule seems to be its main attribute—ridicule of the efforts being made in their behalf.

The joke is that the new campus which has been presented to the University lies between a steel foundry and a disposal plant. The joke fails to state just how distant these two plants are from the campus. Many very acceptable spots in Houston are between two such places.

The real fact is that the new campus lies in a section which is rapidly being developed into a first-class residential area, and by the time the University's first new buildings are completed and ready for use, new homes will probably encircle the spot.

Ridicule is the simplest form of humor. Why be simple?

"Cram Sessions"

The big cram session is over for another six weeks. After today, the exams will be done and the students of University of Houston will relax into a peaceful composure for five weeks; and then labor and do all their work in the sixth.

It is the old college custom of putting off till tomorrow what can be done today. As far back as history can trace, students have "crammed" for examinations, and will probably continue to do so as long as exams are the principal medium of determining a student's aptitude.

It is useless to point out that a careful assimilation of learning during the five weeks will make the sixth week less burdensome. Americans enjoy working in spurts, and somehow they seem to get by; so more power to them.

Some day maybe the "cram" will be eliminated, but we have a feeling that the whole system of examinations will go with it when it is.

"A" Students

An eminent educator has said recently that "A" students are not worth a "dime a dozen." He declared emphatically that he had no use for them, and that those who average "B" and "C," or below, made better students than their plus-perfect counterparts.

Now, we admit that many an "A" student is overbearing and temperamental, and that many of them are difficult to handle because of a stubbornness born of self-assurance.

But to condemn all perfect-grade students, because of the "cussedness" of a few, shows rank injustice and prejudice. It is like hating a foreigner just because he is a foreigner. There are many perfectly normal, likeable students who make the super average, and they are often the delight of their instructors.

Sometimes they are hated by their fellow students, but this nearly always comes from a feeling of jealousy. Could that be what is troubling the distinguished professor?

Her Destiny

With the speech of Dr. Samuel D. Myers, there closed one of the most important events in the history of the University of Houston.

A series of addresses, sponsored by the Houston Rotary club in co-operation with this institution, served to bring before public-minded students and loyal citizens the latest information on foreign affairs.

We believe that in helping to present such important speeches the University is taking a great forward step.

Her destiny is to serve fully the people of Houston and South Texas in imparting knowledge and fostering ideals of good citizenship.

We are proud to see her on the way to the fulfillment of that destiny.

"It is really the errors of a man that make him lovable.—Goethe.

Water Scarcity Solves Freshman's Bath Problem

A dilemma faced Mary Lillian Parker, University Freshman, every Saturday night when she lived in Electra—whether to wash the dishes in the bathwater or bathe in the dishwater.

Before coming to the University, Mary Lillian lived in this North Texas town where the compound of H-2-O is really held at a premium. You see, the water supply of Electra only runs two hours a day and there is always a frenzied drawing of the precious liquid. And, even then the water must be allowed to set, to filter off the heavy sediment.

If a fire breaks out, it's just too bad, for there is nothing you can do but just watch, unless you possess the secrets of a rainmaker. Also, your family "jilopy" would probably go unwashed probably does anyhow; for there is a \$25 fine for performing that chore.

Mary Lillian also reveals that she had little or no garden for there is a slight fine of \$25-\$100 for watering the flowers.

At least there would be some consolation, you would have no mud puddles in your yard.

QUESTION:

Practice Teachers Have Queries Child Behavior

Conversations most often heard in the halls these days:

"How did you get along teaching today?"

"Grand. But I have one little brat in my class—"

"Do you like your critic teacher?"

"Pretty good. How's yours?"

"All right. She's a relic of the Middle Ages, but she means well."

And so on, ad infinitum.

Practice teachers! Yes, the practice teachers of the University have taken over a few grades in the Houston public schools and are demonstrating all the methods they have learned, and some that have not been written.

Some practice teachers are wondering why Education courses don't publish answers to such questions as:

How to stop finger popping.

The logical procedure when cheating is observed.

What is a teacher to do when one of her pupils falls in love with her?

It seems that the staff of the "College Star," publication of Southwest Teachers College, give the paper's editor no little headaches by signing for stories by such aliases as "Double Dip," "Jane Arden," "FooFoo," etc.

To prevent the reporters from having an alibi in case they don't get the story, the editor now prints the aliases in the masthead.

Speaking of names, St. Mary's college has an Indian student named Lonely Vigil...

University of Washington Alpha Delta Phi are holding open house every day now—someone stole their front door.

Warning is given to all students who leave their automobiles parked in the circular drives on the sides of the buildings. This is against the city parking ordinances subject to enforcement at any time, Dr. C. F. Hiller, registrar, announced.

Cougar Collegian call meeting 3:15 p. m. Monday room 120.

CAMPUS CHATTER

Plugs and Pugs! Della Belle Collier sits in parked cars and holds hands—her date's... This Collier brat is gettin' to be something ova pain in the neck, according to not so vague rumors. It seems some of this pulchritude platitude is going to her head... Carmelita, some girls break dates by going with them. Thanks for the tip, Scraps.

Carl Glynn Barnes is quite proud of the pick-up of her ma's car, especially on Saddy-nites... Flash! Special to John Nicosia! Edythe Reddick drops two lbs. avoidupois and Johnny can no longer complain about difficulty in encircling fair Edie's girth at the Engineer's brawl this this pm... Hey, Kitty Lou, don't carry on so about our newly acquired better half. Any sap with the necessary two bucks can duplicate the performance. Congrats, anyhow... Harvey W. Harris' Soph English class has been misnamed. According to reports of a discussion held there recently, it should be labeled "A Symposium on What Every Newly-married Couple Should Know" or "Pitfalls of Marriage."

Thurston is Schwinging out with Jimmy Grant after discovering that Unangst is making a successful play for her no. 1 heart interest, Judson Chambliss. Thurston and Patsy are not on class-walking terms anymore... Orchids to Prof. Whitaker for making-up a perfect dummy for last week's Cougar. Prickley pears to the same guy who left off the masthead and discovered it at 12 midnight. The staff left at 3 a. m.

Micky "Sampler" Sloan has gone out with every eligible boy in the University, and some not so eligible. Assuming about eighty more nights left before school's out, and discounting the 50 per cent male student population Mick has dated, it still leaves her a good percentage for the long vacation months ahead... Bend down, brethren, bend down. Kneeling in prayer we should have Willie Meier, if promises mean anything. It seems Willie promised Prof Fields to intercede with heaven in his behalf if he would consent to have his pitcher took. Fields was supposed to appear at a prayer meetin' Wednesday pm. but yielded to Meier's urging... Ralph Disque has been telling everyone what a hectic weekend he had at Austin. Hadn't you better keep your date out of your conversations, Ralph?

Poet's Corner

By George Chiasson

TO A TALKATIVE MISS AT A DANCE

Why pursue this silly chatter,
After all, it doesn't matter
Who brought you, or who I brought
along.

Why persist in making mention,
Of your date's dog-like attention;
The matter of the moment is the
song.

Sure, I'll see you at the pig stand,
Of course the boys deserve a big
hand
For putting on a dance as well as
this one.

Ah, at last someone has cut in,
Just in time—I'm talked down, but in
Spite of all, I can't afford to miss
one
Dance with you, my maid vivacious;
I wish, though, you were less
loquacious.

IN SYMPATHY

The Cougar, on behalf of the students and faculty, extends sympathy to Jack Palmer in his bereavement.

Faculty Fashions Feature Firsts In Spring Styles

Miss Ruth Pennybacker, attired for spring, came to school one day this week dressed in a handsomely tailored dubonnet shirtmaker frock, with a sentimental of royal blue shirt studs, marching boldly down its front. Hurray for dubonnet!

Mrs. Lewis, English instructor, wore a smart black suit with baby pink vestee, and lapels of the same color. The black and pink combine strike a prophetic fashion note for spring. Such costumes perk up a tired student body accustomed to drab colors.

As Seen In the Halls . . .

Pleats pleats and more pleats. Gay bandana handkerchiefs tuck-a-way fly-a-way curls. Poudre blue and dusky pink color combinations. Bold tyrolean prints — seersuckers in bright checks, and vivid stripes. And always, the inevitable sweater, but this time the rhinestone studs, jewel tinted.

Senior Jewelry Due Next Week

Senior rings and pins are expected to arrive next week, L. A. House, manager of the Book Exchange. All students who plan to order the jewelry are requested to make deposits to Mr. House.

Special prices on engineering instruments were also announced this week by the Exchange.

Mrs. Ebaugh Gives Tea For Collegians

Mrs. Bessie M. Ebaugh was hostess at a tea given Sunday afternoon in her home, 400 Emerson, in honor of the Cougar Collegians. The tea table was centered with an arrangement of spring flowers. Mrs. Pearl C. Bender, University dean of women, poured.

A musical program was furnished by Eleanor Hendrix and Mrs. Ebaugh's daughter.

An Appreciation

On behalf of the University, I wish to thank all the girls who so loyally and enthusiastically co-operated with the Chamber of Commerce in their sale of tickets for the Fat Stock show. Many thanks.

Mrs. Pearl C. Bender,
Dean of Women.

French Club To Have Barbecue

Les Mousquetaires, University French club, will be entertained March 29 with a barbecue at the home of Ethel Ruth Crow, vice president 2042 Banks.

A skit to be presented over station KTRH was previewed at a meeting of the club Wednesday night. Mary Joyce Frank and Charles Brigrance are featured in the drama. Also on the Wednesday program was a dialogue by Frank Summers, and group singing led Edith Lord Stafford.

Vern Stars In Second Show At French Theatre

Second performance of the current season of Le Petit Theatre Francais de Houston was presented Tuesday and Thursday evenings for a large audience of members including a group of University students.

The 'soiree' featured two one-act comedies in which Jules A. Vern, instructor of French and director of the theatre, and Bill Shamblin, president of the University French club, had roles.

Vern presented his usual 'top-notch' characterization, and Shamblin was convincing in his role in "Bureau Central des Idees," first of the two performances. Second comedy of the evening was "Seul."

Building Fund—

Continued from page 1
ward and has agreed to open the street through to North Mac Gregor. Wheeler street will be opened to the campus site from the west.

According to Dr. E. E. Oberholtzer, the first building of the university will be started with funds on hand by April 1.

"We brag about the growth of

DUCHESS AT SAM HOUSTON BALL

Pictured above is Marguerite Scelles, who represented the University of Houston at the annual Coronation Ball at Sam Houston State Teachers College, Huntsville, Saturday.

Houston, and that Houston is rated the bright spot in the world's business just now," Dr. Oberholtzer said. "There is no greater responsibility on the adults of Houston now than that they aid this university to keep pace with the city.

"Four permanent buildings and a minimum equipment require \$1,000,000. Of course, we will have further growth, but I believe it will come naturally as a result of the univer-

sity you will build now, and that we will not have to come again to the people and say 'here is something new; we will explain it and ask you to have faith.'

"It is the women, after all, who interpret the needs of education and who are the most far-sighted in this respect. I know that with a group like this behind it, the University fund campaign can not be any other than a success."

HOUSTON WOMEN AID UNIVERSITY \$1,000,000 BUILDING FUND

Representative Houston women Wednesday joined the advisory committee of the University building fund campaign at a luncheon given by H. R. Cullen, general chairman, and elected Oveta Culp Hobby as co-chairman.

Pictured left to right are Mrs. Cullen, Mr. Cullen, Mrs. Hobby, executive vice president of the Houston Post, and Dr. E. E. Oberholtzer, University president.

Roy Much Attends Student Congress Held At Austin

Roy Much, sophomore, represented the University of Houston at the Third Government Congress in Austin Friday and Saturday. Principal topic of the meeting was "Traffic Safety and How the College Student Can Help Reduce the Automobile Death Toll."

Feature of the discussion was the use of all correct traffic signals when driving within city limits, Much said.

Camera Club Will Organize

All students interested in photography are invited to attend a meeting at 9:30 p. m. Monday, in Room 118, for the purpose of forming a camera club, Bernard Green temporary chairman of the organization group, announced.

Green also said that plans are being made to invite local authorities on different phases of photographic art to address the club when regular meeting dates have been set. Election of officers and permanent organization will feature the Monday session.

Miss Merrill Honored With Tea

Marry Jane Merrill, with an announcement tea from 4 to 6 p. m. Sunday at the Merrell home, 449 Avenue A in Bellaire. Miss Merrell's marriage to W. H. Goff of Houston will be an event of the early fall.

Mesdames Merrell and Goff, the honoree and her fiancé will be in the and her fiancé will be in the receiving line.

Former Student In Florida Baseball Camp

Arnold Moser, a former student of the University of Houston and a protege of Harry McCurdy, is in winter training at Tampa Florida, with the Cincinnati Reds.

Engineers Dance—

Continued from page 1
counted at another called session Wednesday will not be known until the presentation tonight.

Nominee list from which the honor guest will be selected includes Della Belle Collier, Jerry Bentley, Carmelita Lansford, Christine Martin, Suzanne Larimer, Lottie Lee Hutton, June Carter, Louise Campbell, Dorothy Bradshaw, and Grace Tomlin.

Tickets for the dance, which will be played by Joe Young and his 10-piece orchestra can be purchased from nominees or members of the society.

Assisting the president on the arrangements committee are W. J. Meir, vice president, and Edward De Young, secretary.

League Leaders Remain Tied In Cage Tourney

The two league-leading intramural basketball quintets found themselves in fast company Monday night, but both squads managed to shade their opponents by two points. The "Scraps" who are tied for first place in the race nosed out the "Yolks" by a 16-14 count; while the "Punks," the other loop leader, encountered similar difficulty in gaining an 11-9 victory from the "Blubbers."

Coming from behind in the last quarter, after the contest had been tied all the way, the "Scraps" took a two point lead, then held the ball until the final whistle. Neither team was guilty of fouls, and the game was reeled off very rapidly. Garcia was the main cog in the winners'

machine, with Chambless and Jones the mainstays for the "Yolks."

Close guarding by both fives in the second battle made the contest a defensive one. The two clubs were so busy fighting for possession of the ball that they seldom found time to take shots at the baskets. Two long shots by diminutive Jack Boyd in the final quarter gave the "Punks" their narrow edge over the "Blubbers." DeYoung and Nicosia hustled hard for the losers while Boyd stole the show for the winning squad with his "dead-eye" accuracy.

Sophs Win Title As Juniors Beaten In Final Game

The curtain rang down on the inter-class league Friday night in the boys' gym, as the Freshmen handed the title on a silver platter to the Sophs by knocking off the Junior cagers. Had the Juniors won the game, they would have tied for the championship with the Sophomores.

The Frosh were hot from the starting whistle and breezed home easily by a 31-18 count. The Juniors' sharp-shooting center, Phil Strom, was bottled up by the masterful guarding of Jimmie Duncan, and the offense of the Juniors would not click. Strauss and Taylor whipped to score at will against the bewildered Junior team. Duncan chalked the ball around in bullet-like fashion up 15 points for the winners.

The season was a great success;

the boys really had the competitive spirit and several upsets featured the season's play. The Sophs, a classy little outfit, deserved their championship and had to fight all the way to win the flag.
